MOTOR VEHICLE INDUSTRY DEVELOPMENT PLAN—3RD ALLOCATION

INTRODUCTION

1. The Motor Vehicle Industry Development Plan, announced on 12 December 1984, provides for the tendering of a gradually increasing percentage of the local production of motor vehicles and motor vehicle parts and accessories over a period of 4 years.

2. This is the third call of tenders under the Plan.

3. The call is for tenders for built-up vehicles in six classes; built-up chassis; motor vehicle bodies; and motor vehicle parts and accessories under a number of Item Codes.

4. The value being tendered for prime movers; vehicles up to 3500 kg GVW (gross vehicle weight); vehicles 3500–10 500 kg GVW; vehicles exceeding 10 500 kg GVW; special purpose vehicles; assembled chassis; and motor vehicle bodies is a six monthly allocation. There will be a further call for tenders in July 1986.

5. The value being tendered for omnibuses and motor vehicle parts and accessories is an annual allocation. The next call for tenders will be in January 1987.

SPECIAL ALLOCATION FOR AUSTRALIAN VEHICLES

6. In addition to these allocations, there is a special allocation held exclusively for vehicles up to 3500 kg GVW of Australian origin. (The criteria for "Australian origin" are contained in the Customs Regulations 1968, as amended). This is a special annual allocation, the value of which will be maintained in real terms over the 4 years of the Plan. **It is emphasised that licence is available under this allocation only for vehicles of Australian origin.** (PART B).

7. In all cases licences can be used to import either new or second-hand goods.
