3 All fishing methods prohibited in certain waters

- (1) No commercial fisher shall take or have in possession any fish taken by any fishing method from the following waters:
 - (a) *Horokaka, Mahia Peninsula*: all those waters lying inside a line commencing at the point 39°05.37'S and 177°57.45'E near Auroa Point; then in a north-westerly direction to a point at 39°04.20'S and 177°56.21'E; then in a south-westerly direction to the point 39°05.280'S and 177°55.42'E; then along the mean high-water mark to the point of commencement:
 - (b) *Pariokena Point to Rarohenga Stream, Mahia Peninsula*: all those waters lying inside a line commencing at Pariokena Point (at 39°05.30'S and 177°57.45'E); then in an easterly direction to a point 39°05.31'S and 177°59.40'E; then in a southerly direction to the mouth of the Rarohenga Stream (at 39°06.16'S and 177°59.72'E; then along the mean high-water mark to the point of commencement:
 - (c) *Te Hoe Point to Waikokopu Breakwater, Mahia Peninsula*: all those waters lying inside a straight line drawn from Te Hoe Point (at 39°06.979'S and 177°51.256'E) to the Waikokopu Breakwater (at 39°04.388'S and 177°49.725'E):
 - (d) *Waimarama*: all those waters lying inside a line commencing at the mouth of the Waipuka Stream (at 39°44.651'S and 177°00.654'E); then in a south-easterly direction to a point 39°50.1'S and 177°02.6'E; then in a south-westerly direction to a point 39°52'S and 176°58.8'E; then along the mean high-water mark to the point of commencement:
 - (e) *Ngapuhake*: a shallow area known as an upwelling being about 50 square metres in area and to the south-east of Bare Island.
- (2) No commercial fisher may take aquatic life by any fishing method, or be in possession of any aquatic life taken from, the following waters:
 - (a) the Mohaka River catchment, as described in Schedule 1:
 - (b) the Whakaki Lagoon (east of Wairoa):
 - (c) the Whanganui River catchment, as described in Schedule 2, excluding the following areas:

- (i) the lower Whanganui River, and any tributaries from the lower Whanganui River, below the junction of the Kauarapaoa Stream with the Whanganui River (at NZMS 260-R22, 886538, and adjacent to the historic site Kemps Pole):
 - (ii) all ponds and dams within the Whanganui River catchment that are not connected at any time of the year to either any one of the tributaries leading into the Whanganui River or the Whanganui River itself:
- (d) Lake Poukawa adjacent to Te Hauke:
- (e) the catchments containing the Pencarrow lakes, as described in Schedule 3.

4 Trawling and Danish seining prohibited

No commercial fisher shall use a trawl net or a Danish seine net in any of the following waters:

- (a) *Waipatiki Stream to Cape Kidnappers*: all those waters lying inside a straight line commencing at Cape Kidnappers Lighthouse (at 39°38.711'S and 177°05.495'E); then to the mouth of the Waipatiki Stream (at 39°18.05'S and 176°58.54'E); then proceeding along the mean high-water mark to the point of commencement:
provided that nothing in this paragraph shall prohibit the use of a trawl net by a vessel of less than 13.5 m overall length:
- (b) *Petane Beach to Ahuriri Bluff*: all those waters of Hawke Bay lying inside a straight line drawn from Petane Beach (at 39°27.000'S and 176°52.320'E) to the easternmost point of Ahuriri Bluff (at 39°28.818'S and 176°55.233'E):
- (c) *Ahuriri Bluff to Tuki Tuki River mouth*: all those waters of Hawke Bay lying inside a straight line drawn from the easternmost point of Ahuriri Bluff (at 39°28.818'S and 176°55.233'E) to the eastern bank of the mouth of the Tuki Tuki River (at 39°35.934'S and 176°56.819'E):
- (d) *Mahia Peninsula*: all those waters lying within 2 nautical miles from a line commencing at Boat Harbour (at 39°0.7'S and 177°53.5'E); then along the mean high-water mark around Mahia Peninsula to the mouth of the Nuhaka River (at 39°03.5'S and 177°45'E):
- (e) *Portland Island*: all those waters lying within 2 nautical miles from the mean high-water mark of the shore of Portland Island:
- (f) *Cape Runaway*: all those waters within an area defined by a line commencing at the mean high-water mark at Potikirua Point at 37°32.542'S and 178°04.911'E; then proceeding in a straight line in a northerly direction to a position approximately 2 nautical miles from the point of commencement at 37°30.540'S and 178°04.796'E; then in a generally westerly direction by a line every point of which is 2 nautical miles from the mean high-water mark to a point approximately 2 nautical miles north of Cape Runaway (at 37°30.212'S and 177°59'E); then in a straight line in a southerly direction to the mean high-water mark at Cape Runaway (at 37°32.217'S and 177°59'E); and then proceeding along the line of the mean high-water mark in a generally easterly direction to the point of commencement.

6B Trawling prohibited in certain seamount areas

- (1) No person may use a trawl net for fishing in any closed seamount area.
- (2) In this regulation, **closed seamount area** means all waters within the following areas:
 - (a) the area located in fisheries management area 2 that is bounded by—
 - (i) the latitudes 34°45'S and 34°56'S; and
 - (ii) the longitudes 179°00'E and 179°10'E;
 - (b) the area located in fisheries management area 2 that is bounded by—
 - (i) the latitudes 35°35'S and 35°55'S; and
 - (ii) the longitudes 178°20'E and 178°40'E.

Regulation 6B: inserted, on 10 May 2001, by regulation 3 of the Fisheries (Central Area Commercial Fishing) Amendment Regulations 2001 (SR 2001/66).

6C Trawling prohibited from Tirua Point to Waiwhakaiho River

- (1) A commercial fisher must not use a trawl net for fishing in the waters lying within an area bounded by a line that—
 - (a) extends from Tirua Point (at 38°23.222'S and 174°38.048'E); and
 - (b) then follows a line in a generally southerly direction by the mean high-water mark to the southernmost point of the north bank of the Awakino River (at 38°39.884'S and 174°37.238'E); and
 - (c) then proceeds in a straight line across the Awakino River to a point on the south bank of the Awakino River (at 38°39.924'S and 174°37.225'E); and
 - (d) then follows a line along the mean high-water mark to the southernmost point on the north bank of the Mokau River (at 38°42.271'S and 174°37.020'E); and
 - (e) then proceeds in a straight line across the Mokau River to a point on the south bank of the Mokau River (at 38°42.422'S and 174°37.007'E); and
 - (f) then follows a line along the mean high-water mark to the north bank of the Tongaporutu River (at 38°48.886'S and 174°35.233'E); and

- (g) then proceeds in a straight line across the Tongaporutu River to a point on the south bank of the Tongaporutu River (at 38°48.982'S and 174°35.214'E); and
 - (h) then follows a line along the mean high-water mark to the mouth of the Waiwhakaiho River (at 39°02.242'S and 174°06.258'E); and
 - (i) then proceeds generally north-west 4 nautical miles to 38°58.723'S and 174°03.803'E; and
 - (j) then proceeds in a northerly direction along a line 4 nautical miles from the mean high-water mark to a point (at 38°22.354'S and 174°33.078'E); and
 - (k) then proceeds in a straight line along the Central fishery management area boundary in an easterly direction to Tirua Point (at 38°23.222'S and 174°38.048'E).
- (2) For the purposes of the area defined in subclause (1), a straight line joining the mean high-water marks at each side of a harbour entrance or, as the case may be, the natural entrance points of a river mouth must be treated as the inner boundary of that area if it extends seawards or as the outer boundary of that area if it extends landwards, except in the case of any harbours and rivers where specific co-ordinates are provided.

Regulation 6C: replaced, on 1 October 2020, by regulation 27 of the Fisheries (Hector's and Māui Dolphin) Amendment Regulations 2020 (LI 2020/199).

7 Danish seining prohibited around lower North Island

No commercial fisher shall use a Danish seine net within 3 nautical miles seaward of the mean high-water mark of the east coast of the North Island south of Cape Runaway (at 37°32.217'S and 177°59.00'E), the south coast of the North Island, and the west coast of the North Island south of the marine automatic light on Tirua Point (at 38°23.222'S and 174°38.048'E).

Regulation 7: amended, on 26 September 1991, by regulation 3 of the Fisheries (Central Area Commercial Fishing) Regulations 1986, Amendment No 3 (SR 1991/165).

7A Set netting prohibited in shallow waters

Notwithstanding anything in regulation 65(8) of the Fisheries (Commercial Fishing) Regulations 2001, no commercial fisher shall use or possess in the waters of the Central fishery management area a set net having a total length exceeding 500 metres unless—

- (a) the net is set in waters 30 metres or more in depth, and no part of the upper surface of the net, when set, is 2 metres or less from the surface of the water; or
- (b) in any case where—
 - (i) the net is set in waters less than 30 metres in depth; or
 - (ii) any part of the upper surface of the net, when set, is 2 metres or less from the surface of the water—

the set net has surface floats attached to it at intervals of not more than 500 metres or part thereof.

14K Special provisions relating to male spiny rock lobster

- (1) Notwithstanding regulation 37 of the Fisheries (Commercial Fishing) Regulations 2001, but subject to regulation 41 of those regulations, any person authorised under a quota to take spiny rock lobster from quota management area

- CRA3 may take or be in possession of or sell to a licensed fish receiver an undersize male spiny rock lobster, if—
- (a) the spiny rock lobster is taken from quota management area CRA3 during the months of June, July, or August in any year; and
 - (b) either—
 - (i) the spiny rock lobster was, or (if on board a fishing vessel) is to be, landed at a point lying within quota management area CRA3; or
 - (ii) the spiny rock lobster was, or (if on board a fishing vessel) is to be, landed at a point lying outside quota management area CRA3 with the prior approval of the chief executive of the Ministry of Fisheries, and in accordance with such conditions as the chief executive imposes; and
 - (c) the spiny rock lobster is, or (if on board a fishing vessel) is to be, delivered and sold to a licensed fish receiver; and
 - (d) the width of the tail of the spiny rock lobster is not less than 52 mm when measured in accordance with regulation 14L.
- (2) Notwithstanding regulation 37(2) of the Fisheries (Commercial Fishing) Regulations 2001, but subject to regulation 14M of these regulations, a licensed fish receiver may sell or possess or process a male spiny rock lobster, or male spiny rock lobster tail, taken in accordance with subclause (1) of this regulation.
- Regulation 14K: substituted, on 1 April 1996, by regulation 3 of the Fisheries (Central Area Commercial Fishing) Regulations 1986, Amendment No 9 (SR 1996/21).

14L Method of measurement of male spiny rock lobster tail

- (1) For the purposes of regulation 14K, the width of the tail of a male spiny rock lobster shall be measured in accordance with regulation 38 of the Fisheries (Commercial Fishing) Regulations 2001, subject to the following modifications:
 - (a) references in that regulation to the expression “54” (wherever it occurs) shall be read as if there were substituted for that expression (in each case) the expression “52”:
 - (b) instead of measuring a male spiny rock lobster by means of the tail width measuring device referred to in that regulation, the rock lobster shall be measured by means of a tail width measuring device supplied by the chief executive and bearing a MAF mark and identifying number, and consisting of a handle with an attachment comprising 1 set of rigid calliper type arms. This set of calliper type arms has one arm that bears a raised L-shaped projection (hereinafter called the measuring bar), and a second arm that is marked with a line some 2 mm away from and parallel to the projected edge of the central column of the device, and the expressions “52” and “M”, and is inscribed with the words “CRA3 Gisborne concession”.
- (2) The measurement of the tail width of a male spiny rock lobster by a tail width measuring device supplied by the chief executive and bearing an MAF mark and an identifying number shall not be in accordance with subclause (1) unless the device is referred to in a report that—
 - (a) is issued by either the Measurement Standards Laboratory of New Zealand (as defined in the National Standards Regulations 1976) or an Inspector of Weights and Measures or accredited person (as defined in section 2 of the Weights and Measures Act 1987); and
 - (b) certifies the device as an accurate tail width measuring device.

14M Processing and sale of quota management area CRA3 male spiny rock lobster

- (1) Any person who sells or possesses or processes male spiny rock lobsters or male spiny rock lobster tails pursuant to the authority of regulation 14K must ensure that, except as otherwise authorised by these regulations,—

- (a) all tailing and processing of male spiny rock lobsters and processing of male spiny rock lobster tails is carried out by a licensed fish receiver; and
 - (b) male spiny rock lobsters, or male spiny rock lobster tails, intended for sale in New Zealand are held in a container clearly and legibly marked “CRA3 rock lobsters”; and
 - (c) male spiny rock lobsters, or male spiny rock lobster tails, intended for export are—
 - (i) exported directly from a licensed fish receiver; or
 - (ii) delivered to an export transshipment point approved by the chief executive under subclause (2) and in accordance with the relevant conditions of any approval.
- (2) The chief executive may, subject to any conditions the chief executive thinks fit, approve in writing any premises or point within New Zealand as an export transshipment point to which male spiny rock lobsters, or male spiny rock lobster tails, taken in accordance with regulation 14K may be sent by a licensed fish receiver.
- (3) Despite subclause (1), a person must not sell or transfer to any person within New Zealand between 1 October and 31 May in any year male spiny rock lobster with a tail, or male spiny rock lobster tails, measuring less than 54 mm.

Schedule 1

Mohaka River catchment

r 3(2)(a)

Schedule 1: added, on 13 January 2005, by regulation 4 of the Fisheries (Central Area Commercial Fishing) Amendment Regulations (No 4) 2004 (SR 2004/440).

The Mohaka River catchment comprises the waters enclosed by a line—

- (1) commencing at the mean high-water mark at approximately NZMS 260-X15, 736229, being approximately 1 km from the true left bank of the Mohaka River; then
- (2) proceeding in a generally northerly direction towards the easternmost section of the Mohaka Township Road, via a coastal promontory of 129 m, and following the high points to Taumatataua; then
- (3) proceeding in a generally northerly direction along the high points over the top of the Mohaka Tunnel and onto a trig named Taumatakaramu; then
- (4) following the Te Kahu Road and Ridge Road to a trig named Tirotirowhetu; then
- (5) continuing in a generally north-westerly direction along the high ground towards a trig named BL No 2 around the headwaters of the Mangaturanga Stream; then
- (6) following the high points along the ridge line adjacent to the Pukahu Road past a trig named Puketikitiki, along the high points adjacent to the Putere Road, passing on the eastern side of a trig named Pihanui No 2, around the headwaters of the Otara Stream, and following the ridge line through a trig named Pukakaramea; then
- (7) in a generally westerly direction to a trig named Te Ihuorurumaioterangi, a trig named HML No 2, the high point Te Rata (598 m), and a high point of 682 m, and crossing the Te Hoe Road lying to the west of the headwaters of the Mangahopai Stream; then
- (8) lying adjacent to the southern side of the Te Hoe Road before reaching a high point of approximately 942 m near the junction between Lake Road and Te Hoe Road (Maungataniwha Forest); then
- (9) proceeding in a generally northerly direction adjacent to the tributaries and headwaters of the Mangahouanga Stream, passing by a high point of approximately 957 m near the end of Stihl Road; then
- (10) proceeding to 2 high points of approximately 998 m and 730 m at the headwaters of the Tatua Stream; then
- (11) proceeding in a generally westerly direction around the headwaters of the Mangahouanga Stream to the southern of 2 high points of approximately 1 020 m; then

- (12) following the ridge line in a generally south-westerly direction to a high point of approximately 1 001 m, traversing a saddle in a generally northerly direction to high points of approximately 910 m, 962 m, 1 115 m, and 1 145 m at the headwaters of the Mangakahia Stream; then
- (13) following high points to a trig named Maungataniwha No 2; then
- (14) proceeding in a generally westerly direction along the high points of approximately 1 361 m, 1 374 m, and 1 260 m, and the saddle at the headwaters of the Moerangi Stream; then
- (15) proceeding along the high points of approximately 1 001 m, 1 023 m, 1 048 m, 1 084 m, 1 013 m, 1 150 m, and 1 240 m; then
- (16) proceeding in a generally southerly direction around the headwaters of the Te Hoe River and the Kakaiti Stream, to high points of approximately 1 032 m, 1 219 m, 1 220 m, 1 210 m, and 1 210 m; then
- (17) proceeding in a generally westerly direction around the headwaters of the Whirinaki River (passing adjacent to trig numbered 10451), and a high point of 1 006 m; then
- (18) proceeding in a generally northerly direction through high points of approximately 1 010 m, 976 m, and 984 m, then proceeding in a generally westerly direction to a trig named 10421 adjacent to Plateau Road; then
- (19) proceeding around the southern side of the Plateau Road wetland to a trig numbered 52A, then proceeding to the road junction between Plateau Road and Pine Milling Road; then
- (20) proceeding in a generally north-westerly direction to a high point of approximately 826 m near the intersection of Motukuri Road and Boundary Road; then
- (21) proceeding in a generally westerly direction, across Pine Ridge Road, to a high point of approximately 854 m; then
- (22) proceeding in a generally southerly direction across Motutoa Road to a high point of approximately 801 m and to a trig named Kokomoka; then
- (23) proceeding along the high ground to the west of the tributaries of the Waipunga River to a high point of approximately 914 m and to a road-end trig named MW, a high point of 901 m; then
- (24) proceeding in a generally south-westerly direction to a high point of approximately 762 m adjacent to Matea Road and crossing State Highway 5 to reach a high point of approximately 894 m; then
- (25) following the high points to a high point named Orangikino (1 090 m), and to a high point of approximately 757 m; then
- (26) proceeding between the headwaters of the Tirikahu Stream and the Takahiapo Stream, to the high point named Ngapouatu, a high point of approximately 1 013 m, and around the headwaters of the Tirikahu Stream in a generally north-westerly direction following the high points of approximately 979 m,
