“‘Assessment Committee’ means the Anaesthetic Mortality Assessment Committee established under subsection (2) of this section.

“(2) The Minister shall establish a committee, to be known as the Anaesthetic Mortality Assessment Committee, which shall have the function of receiving and considering information relating to assessable deaths, promoting the safe and efficient use of anaesthetic procedures, and, in relation to each assessable death in respect of which it receives information,—

“(a) Determining the extent (if any) to which anaesthesia or any anaesthetic procedure contributed to that death; and

“(b) Determining whether that death might have been averted had the effects or consequences of anaesthesia or of any anaesthetic procedure been better or more fully understood or provided for.

“(3) In performing its functions the Assessment Committee shall not allocate any blame to any medical practitioner or dentist or to any other person.

“(4) The Assessment Committee shall be deemed to be a committee appointed under section 13 of this Act.

**“13B. “(2) On the receipt of any notification under subsection (1) of this section, a Medical Officer of Health shall forthwith forward the information contained in it to the Chairman.

**“13c. Medical practitioners and dentists to provide information—**(1) For the purposes of the functions of the Assessment Committee, the Chairman may require any medical practitioner or dentist to supply all or any specified information in his possession relating to any assessable death and to the anaesthesia and anaesthetic procedures by virtue of which that death was an assessable death, including clinical records and other material documents in his possession or under his control, notwithstanding section 62 of this Act or any rule of law or custom or practice to the contrary.

“(2) Every medical practitioner and dentist shall answer fully to the best of his knowledge and ability every relevant question asked of him by the Chairman under subsection (1) of this section.
