### “PART VIII A

#### “REPLACEMENT OF INVALID RATES

**“150A. Interpretation**—In this Part of this Act, unless the context otherwise requires,—

“‘Current year’ means the rating year in which a rates replacement proposal is adopted;

“‘Rate’ means any rate made and levied under this Act or any other enactment, or any charge deemed by section 32 of this Act to be a rate; and ‘rates’ has a corresponding meaning;

“(a) The local authority that made the rate or rates has made application for a recommendation under this section; and

“(b) The Minister is satisfied that the local authority has been advised by a barrister or solicitor that the rate or

rates would, if they were subjected to review by the High Court under section 4 of the Judicature Amendment Act 1972, be likely to be set aside or declared invalid; and

“(c) The Minister is satisfied that the defects or irregularities that would be likely to invalidate the rate relate to—

“(i) The allocation of rating liability between ratepayers of the district of the local authority; or

“(ii) The opportunity for ratepayers to comment or make representations on either the rate or rates themselves, or the rating system or the differential basis adopted; or

“(iii) The extent and accuracy of the information presented to members of the local authority in relation to the making of the rate or the adoption of any relevant rating system or differential basis.

“150H. **Adoption of rates replacement proposal**—(1) On the adoption of a rates replacement proposal,—

“(a) The replacement rates identified in the proposal shall thereby be made; and

“(b) The rates to be replaced identified in the proposal shall cease to have any effect.

“(f) The lawfulness of any action taken by the local authority, before the adoption of the rates replacement proposal, to recover unpaid rates.

“150*i*. **Adjustment of rates accounts**—(1) Liability for replacement rates shall be calculated for the purposes of this section on the rateable properties and rateable values in the valuation roll for the relevant year.

“(2) As soon as practicable after replacement rates are made, the local authority shall, for each property referred to in subsection (1) of this section, calculate the total liability of that property for replacement rates.

“(3) Where the total amount of replaced rates that were levied on any property exceeds the total amount calculated under subsection (2) of this section in respect of that property, the amount of that excess shall be dealt with in accordance with section 150*j* of this Act.

“(4) Where the total amount of the replaced rates that were levied on any property is less than the total amount calculated under subsection (2) of this section in respect of that property, the amount of that deficit shall be levied in accordance with section 150*k* of this Act.

“(5) The local authority shall deliver to the occupier of each property a notice which—

“(a) Identifies the replaced rates levied on that property; and

“(b) Describes the replacement rates levied on that property in sufficient detail to enable the basis for the total amount of replacement rates to be identified; and

“(c) Where subsection (3) of this section applies, identifies the amount of the excess and the results of the application of section 150*j* of this Act; and

“(d) Where subsection (4) of this section applies, identifies the amount of the deficit and the application of section 150*k* of this Act; and

“(e) Contains such other explanatory material as the local authority thinks fit.

“150*j*. **Allocation of excess**—(1) Where subsection (3) of section 150*i* of this Act applies, the amount of the excess shall be credited to the rates account for that property, and shall be used—

“(a) First, in the payment of any rates arrears relating to the relevant year; and

“(b) Next, in the payment of any other rates arrears owing in respect of the property; and

“(c) Next, by crediting to that account, in anticipation of rates yet to be levied, any sum then remaining.

“(2) Notwithstanding anything in paragraph (c) of subsection (1) of this section, where, under that paragraph, an amount is credited to the rates account for a property, the occupier of that property may, at any time, apply in writing to the local authority for the refund of the whole or any part of any amount by which that rates account is in credit pursuant to that paragraph, and the local authority shall, as soon as practicable after receiving the application, make the refund.

**“150K. Levying of shortfall—**(1) Where subsection (4) of section 150I of this Act applies, the amount of the deficit shall be levied on that property—

“(a) Where, at the time that the replacement rates are made, the local authority had not made its general rates for the current year, in the current year; or

“(b) In any other case, in the subsequent year.

“(2) For the purposes of section 122 (1) (e) of this Act, the amount of the deficit shall be identified as a replacement rates adjustment in respect of the relevant year.

“(3) Parts VIII to XIV of this Act, and the Rates Rebate Act 1973, shall apply to the levying of the deficit as if it were a rate made and levied in the year it is levied.

“(4) The exclusion of all or part of a property from the district of a local authority after the relevant year shall not affect the ability of the local authority to levy any deficit in respect of that property.

**“150L. Subdivision of property—**(1) Where, at any time before replacement rates are made,—

“(a) Any part of any rateable property appearing on the valuation roll for the relevant year is sold or otherwise transferred; or

“(2) Notwithstanding anything in subsection (1) of this section, where that subsection applies, the local authority may, if the local authority considers it expedient to do so,—

- “(a) Credit each of the several parts with the amount of the excess calculated in respect of the total property; or
- “(b) Cancel the deficit calculated in respect of the total property.

“150M. **Replacement of postponed rates**—Notwithstanding anything in sections 150I to 150K of this Act, where some or all of the replaced rates have been postponed under this Act and have not become payable at the date on which the replacement rates are made, the amount of rates postponed shall be deemed to have always been adjusted by the amount of any excess under section 150I (3) of this Act or the amount of any deficit under section 150I (4) of this Act, as the case may require, and any interest charged on the postponed rates shall be adjusted accordingly.

“150N. **Remission of deficit**—Without limiting the application of Parts XII, XIIA, XIIB, and XIII of this Act, the local authority may remit any deficit levied under this Part of this Act—

- “(a) In accordance with a policy for such remissions included in the rate replacement proposal; or
