**Explanatory note**

*This note is not part of the regulations, but is intended to indicate their general effect.*

These regulations, which come into force on the 28th day after the date of their notification in the *Gazette*, amend the Fisheries (Commercial Fishing) Regulations 2001.

The amendments—

- permit spot welded rectangular mesh rock lobster pots to be used with covers or liners if the covers or liners leave unencumbered at least 80% of the surface of each of 2 opposite sides:
  - exclude fyke nets from the prohibition on using or possessing baited nets:
  - substitute a new *Schedule 5* that specifies authorised stocks. The new schedule omits anchovy, butterfish, blue (English) mackerel, garfish (*Hyporhampus ihi*), kingfish (yellowtail), leatherjacket, paddle crab, pilchard, queen scallop, scallop, skate, sprat, and kina. The new schedule also omits reference to fisheries management area 4 in relation to long-finned freshwater eel and short-finned freshwater eel.
- 

Issued under the authority of the Acts and Regulations Publication Act 1989.

Date of notification in *Gazette*: 4 September 2003.

These regulations are administered in the Ministry of Fisheries.
