EXPLANATORY NOTE

This note is not part of the notice, but is intended to indicate its general effect.

Except as varied by Modification Notices of local application, the Freshwater Fisheries Regulations 1951 provide, *inter alia*, that—

- (a) The *limit bag*, which is the maximum number of acclimatised fish (being trout or salmon) that may be taken by one person in one day computed from midnight to midnight, shall be 50:
- (b) The *size limit*, which is the minimum size of fish lawfully takeable, measured from tip of nose to tip of tail, shall be 6 in. for trout and salmon. Undersized fish must be released unharmed and are not reckoned in the limit bag:

- (c) Only artificial or natural fly, insect, worm, crustacea, or fish are lawful lures or baits for acclimatised fish. Shellfish (mollusca) and fish roe are illegal. Not more than two lures or baits may be used. Artificial flies, which include feathered lures, must have only one hook. In waters restricted to fly, no weight or loaded lure is permitted. Any weight must be affixed above any lure or bait, and, with artificial minnow (which includes spoon), at least 15 in. above.
- (d) The duration of the *open season* for acclimatised fish is from 1 October to 30 April.

This notice modifies the provisions of the general regulations in the Marlborough and Nelson Acclimatisation Districts by reducing the number of salmon and trout in a limit bag to 10, by increasing the size limit to 12 in. except in the Maitai River where it is increased to 10 in., by imposing restrictions on lures and methods in specified waters, and by prohibiting fishing in Lake Daniells during the month of October.

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 1 October 1964.

These regulations are administered in the Marine Department.
