EXPLANATORY NOTE

This note is not part of the regulations, but is intended to indicate their general effect.

These regulations amend the Pharmacy Bursaries Regulations 1972.

The main effect is that—

- (a) All tuition fees, instead of only nine-tenths as at present, will be paid by means of each fees, and fees and allowances bursary:
- (b) A fees and allowances bursary at present payable to the holder of any New Zealand Certificate will be payable only if that certificate is in science:
- (c) A fees bursary will be payable to the holder of a New Zealand Certificate in Science:
- (d) A fees and allowances bursary is no longer payable by virtue of a person having been granted a Higher School Certificate unless the person qualified academically for entrance to a university in a year earlier than that in which he was granted the certificate:
- (e) A student pursuing a limited full-time course will not now be eligible to be paid a supplementary allowance on account of the merit of his passes:
- (f) The value of the fees and allowances bursary has been increased to the same amount as the bursaries payable under the University Bursaries Regulations 1971, but a student cannot progress to a higher step on the scale of allowances unless in the previous year he has passed all the subjects or units which constitute a full-time course:
- (g) Supplementary allowances generally are increased from \$100 to \$150, and a person qualified under regulation 32 (3) of the principal regulations to receive a supplementary allowance of \$60 will now instead receive a supplementary allowance of \$100.

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 18 July 1974.

These regulations are administered in the Department of Education.
