MEMORANDUM

The Court has before it an application from the New Zealand Federated Clothing Trade Employees’ Industrial Association of Workers for amendments to the New Zealand (except Northern Industrial District) Dressmakers and Milliners’ award. The application is made pursuant to

Regulation 39A of the Economic Stabilization Emergency Regulations 1942, and the grounds for the application are stated therein as follows:—

“That both parties in 1946 agreed that adult male and female workers in all sections of the garment industry be recognized as skilled workers and paid accordingly.”

Representatives of the employers and workers were heard on 2nd December, 1947.

On 25th September, 1947, the Court of its own motion issued an order amending the award under Regulation 39C, and appended to the order is an explanatory memorandum.

In effect, the submissions now made to the Court in support of the application under Regulation 39A are in conflict with the submissions made on behalf of workers in general in the recent standard-wage case.

It is contended by the applicant association that the 1946 award, which was the result of complete agreement of the parties, established a proper relationship between the rates of remuneration of clothing-trade workers and the rates of remuneration at that time of other classes of workers. This contention is not seriously disputed by the employers.

After giving careful consideration to the submissions of the parties, and having regard especially to the fact that many classes of workers in the industry are required to serve an apprenticeship period, the Court has decided to exercise its powers under Regulation 39A and make further amendments to the award.

This decision, however, is not to be regarded as a precedent in respect of industries in which the conditions are not identical with those prevailing in the clothing industry.

The date of coming into force of this amendment is in accordance with the expressed wishes of the representatives of the parties.
