## ANNEX C

**PRINCIPLES AND PROCEDURES TO BE FOLLOWED WHERE DIFFERENT  
CONDITIONS IN AUSTRALIA OR NEW ZEALAND INDICATE VARIATIONS  
TO STANDARDS ARE REQUIRED**

Identification of the Need for Separate Standards

(1) Where the analysis or consultation undertaken by the Authority in the preparation of a food standard indicates that for exceptional health and safety or environmental reasons separate food standards will be required for New Zealand and Australia, the Authority shall prepare recommendations relating to each Member State for consideration by the Council.

New Zealand Variation

(2) Where a food standard is adopted by a majority of the Council and the New Zealand member of the Council considers that the food standard would be inappropriate for New Zealand on the grounds of exceptional health, safety, third country trade, environmental, or cultural factors, the representative of New Zealand on the Council may inform the Chair of the Council that New Zealand needs to vary from the agreed food standard. A New Zealand variation shall not create a barrier to trade unless exceptional health, safety and environmental concerns exist.

(3) Any such notification of variance shall be accompanied by an explanatory note containing the reasons and justification for the variance. New Zealand may request the Authority to prepare a standard appropriate for New Zealand, subject to agreement

being reached on any necessary modifications to the funding and performance arrangements determined in accordance with Article 6 of this Agreement.

(4) In the event of the New Zealand member informing the Council that New Zealand intends to vary from a food standard adopted by the majority of the Council, then the food standard adopted by the majority of the Council will be regarded as applicable only in Australia, and New Zealand will not be required to take legislative steps to adopt or incorporate it as otherwise required under paragraph (1) of Article 5 of this Agreement. In such event the provisions of paragraph (2) of Article 8 of this Agreement shall apply. Where New Zealand has varied from a food standard under this Annex, without such variation being adopted by the Council, the reference to the food standard in the Australia New Zealand Food Standards Code shall include an annotation to indicate that such a variation has been made.

Temporary Food Standards

(5) Where any member of the Council determines that an issue affecting public health and safety or environmental conditions requires a new food standard or amendment of a food standard adopted pursuant to paragraph (1) of Article 5 of this Agreement and that the circumstances affecting public health and safety or environmental conditions would not allow time for the steps pursuant to paragraph (1) of Article 5 of this Agreement to be taken, that Council member may adopt, under its food laws, a new food standard or amend a food standard, provided that:

- (a) the Council member notifies the Council of its intention to adopt the new or amended food standard;
- (b) the new or amended food standard applies for a period of no longer than six months from the date of its adoption;
- (c) the Council member makes, on so determining, an immediate application to the Authority to adopt the new food standard or to amend the relevant food standard.

(6) An application to the Authority pursuant to paragraph (5) of this Annex shall be expedited by the Authority so that any recommendation to the Council arising from the Authority's consideration of the application shall be made within six months of the application.

**ANNEX D****TRANSITIONAL PROVISIONS**

Until the Australia New Zealand Food Standards Code referred to in paragraph (4) of this Annex comes into effect the following provisions will apply to facilitate trade between the Member States.

(1) Where the New Zealand member of the Council considers that an Australian Food Standard is appropriate for adoption in New Zealand, such Australian Food Standard may be adopted in New Zealand as a New Zealand Food Standard.

(2) The current review of the Australian Food Standards Code shall review standards in accordance with the principles in Annex A of this Agreement. The review shall give priority to identifying and harmonising those standards which are impeding trade between the Member States. Standards that are reviewed shall be recommended for adoption by the Council and, where appropriate, recommended to the New Zealand member of the Council for adoption as a New Zealand Food Standard.

(3) On the date that this Agreement enters into force:

(a) Australian Food Standards in the Australian Food Standards Code shall be adopted in New Zealand and as a result dual standards shall apply in New Zealand. From this date, food may be produced and/or sold in New Zealand in accordance with either Australian Food Standards or New Zealand Food Standards. Existing arrangements relating to matters falling outside the scope of the Australia New Zealand Food Standards System shall continue to apply.

- (b) food produced in and/or imported from New Zealand which complies with New Zealand Food Standards and Standard A12 (Metals and Contaminants in Food) of the Australian Food Standards Code as the latter relates to maximum permitted concentrations of cadmium in food, can be sold in Australia. Existing arrangements relating to matters falling outside the scope of the Australia New Zealand Food Standards System shall continue to apply. However, in the event that the proposed Trans-Tasman Mutual Recognition Arrangement takes effect, the provisions of that Arrangement will prevail over this sub-paragraph.
- (4) On a date to be mutually determined between the Member States, the Australian Food Standards shall be adopted by New Zealand and Australia as the Australia New Zealand Food Standards Code. Those provisions in New Zealand Food Standards which correspond to standards in the Australia New Zealand Food Standards Code shall cease to apply.
- (5) Submissions for variations to food standards that are under consideration in New Zealand at the time of the entry into force of this Agreement shall be dealt with by the Authority, subject to agreement being reached on any necessary modifications to the funding and performance arrangements determined in accordance with Article 6 of this Agreement.
