

SCHEDULE.

AUCKLAND LAND DISTRICT.—ROTORUA FOREST-
CONSERVATION REGION.*Kaingaroa Fire District.*

ALL that area in the Auckland Land District, Taupo County, containing approximately 573,000 acres, situated in Tarawera, Paeroa, Kaingaroa, Galatea, Takapau, Waeo, Tauhara, Otukotara, Heruiwi, Ahikereru, Waitahanui, Maruanui, and Runanga Survey Districts, and bounded generally as follows: Commencing at the intersection of the left bank of the Rangitaiki River with the northern boundary of Block II, Galatea Survey District; thence proceeding generally southward along the left banks of the Rangitaiki and Whirinaki Rivers to a point on the left bank of the last-named river, situated 40 chains eastward of the right bank of the Rangitaiki River; thence generally southward along a line parallel to and situated 40 chains to the eastward of the right banks of the Rangitaiki and Whaeo Rivers to the Mangaretu Stream; thence southerly along the said stream and the eastern boundaries of Heruiwi No. 4A, Nos. 2 and 1 to Trig. Station, Tiri Tiri; thence along the south-eastern boundary of Heruiwi No. 4A, No. 1; thence southward and westward along the eastern and southern boundaries of Pukahuni No. 2 to an angle in the boundary about 80 chains north-west of a road; thence westward along a straight line for a distance of about 90 chains to Trig. Station No. 52 (Kokomoka), in Block XIII, Heruiwi Survey District; thence in a south-westerly direction along a straight line to Trig. Station No. 50 (Omeruti), in Block VII, Maruanui Survey District; thence in a westerly direction along a straight line to Trig. Station 48A in Block VI, Maruanui Survey District; thence along a straight line to Trig. Station Wairango in Block VII, Waitahanui Survey District; thence in a north-westerly direction to the Taupo-Tokaanu Road along a straight line between Trig. Station Wairango aforesaid and Trig. Station No. 45 in Block XIII, Tauhara Survey District; thence northerly along the Taupo-Tokaanu Road; thence north-easterly along the south-eastern boundaries of Section 39, Block VI, Tauhara Survey District, and to the centre of the Taupo-Napier Road; thence south-easterly along the centre of the said road to the 10-mile peg; thence north-easterly along a straight line to the intersection of the south-western boundary of Kaingaroa No. 2 West, No. 2, with a line parallel to and 40 chains north-west from the north-western boundary of Run 60 (State Forest—*Gazette* 1930, page 2639); thence along lines drawn parallel to and 40 chains north-west from the north-western boundaries of Run 60 to Lot 1 of Kaingaroa No. 2 West, No. 1 Block; thence along the south-western boundary of the said Lot 1 to the Waikato River; thence generally in a north-easterly direction along the right bank of the Waikato River and the south-eastern side of the Rotorua-Taupo Road to the junction of the latter roadside with the north-eastern boundary produced of Rotomahana-Parekarangi No. 3A, No. 3B, No. 2; thence in a north-westerly direction along a straight line to Trig. Station No. 30 (Maungaongaonga); thence in a north-easterly direction to the intersection of the north-eastern boundary of Rotomahana-Parekarangi No. 6A, Section 2, No. 1B, with the northern boundary of Block III, Paeroa Survey District; thence due eastward along the northern boundary of the Paeroa Survey District, through Section 8, Block XV, Tarawera Survey District, again along the northern boundary of the Paeroa Survey District, and along the northern boundaries of Kaingaroa and Galatea Survey Districts to the left bank of the Rangitaiki River, the point of commencement. As the same is more particularly delineated on plan No. 47/38, deposited in the Head Office of the State Forest Service at Wellington, and thereon bordered red.

Dated this 26th day of January, 1939.

FRANK LANGSTONE,
Commissioner of State Forests.

By-laws under the Rotorua Borough Act, 1922.

WHEREAS by section 8 of the Rotorua Borough Act, 1922, the control and ownership of electric light and power for supply of electrical energy to the Borough of Rotorua is vested in the Department of Tourist and Health Resorts, as incorporated by the Rotorua Town Act, 1907, and the Rotorua Borough Act, 1922:

And whereas in respect of these works the said Department has all the power for the time being conferred by law on Borough Councils, except the power to borrow money or make and levy any special rate:

And whereas by the license granted by the Governor-General in Council as published in the *New Zealand Gazette* of the

5th November, 1931, and 1st October, 1936, the said Department is authorized to generate electricity and erect electric lines within the Borough of Rotorua and portion of the County of Rotorua as set out in the Schedules to the said licenses:

Now, therefore, the said Department, in pursuance of such powers and all other powers thereunto enabling it, doth hereby revoke By-laws No. 30 and 35 of the By-laws published in the *New Zealand Gazette* of the 18th February, 1937, and substitutes therefore the following amended by-laws, and doth hereby declare that such revocation shall take effect and such new by-laws shall come into force on the 1st day of February, 1939.

BY-LAW 30.

If the Department should discontinue the supply to a consumer for any of the reasons set out in By-law No. 29, or if an installation is disconnected at the request of the consumer for any reason other than a change of tenancy, then a payment of 5s. shall be made for the reconnection of such installation, together with reasonable travelling-expenses if incurred by the Department in the case of installations outside the Borough of Rotorua.

BY-LAW 35.

The price for electrical energy supplied by the Department will be calculated on the Board of Trade unit consisting of 1,000 watt-hours. All energy will be charged according to meter-register, but should a supply be given before a meter is installed the consumer shall pay for current supplied during such period a sum based upon the number and capacity of lamps and other apparatus installed.

In all cases units may, at the option of the Department, be measured as kilovolt-ampere hours instead of kilowatt-hours if the power factor of the consumer's load falls below 90 per cent.

Should the meter prove defective in any way, or be removed for testing or repair, the consumer shall pay per month for energy supplied during such period a sum based on the average former reading of the meter.

If the revenue from any existing or proposed installation does not cover the cost of supply, the Department may impose a connected-load charge in addition to the charge by meter.

Prepayment meters may be installed in any installation at the discretion of the Department.

The Department may read meters monthly or quarterly or at any other interval that best suits its convenience. Should a special reading be required at any time to suit the convenience of the consumer, such reading will be made or a card will be forwarded on which the consumer can enter the reading of the meter or meters, and an account will be prepared from the readings on this card. A charge may be levied to cover the cost of the special readings as above.

Where premises are occupied intermittently, and/or a reading of the meter is not obtained at the time of the ordinary meter-reading, a card may be left for or sent to the consumer. This card should be filled in and returned to the Department to enable an account to be prepared.

Failing the receipt of the card within a period of ten days, the Department will assume that the premises have been unoccupied for the last period between regular meter-readings and an account computed in accordance with clause 35 (g) will be forwarded to the consumer.

In cases where the previous account or accounts have been assessed in accordance with the preceding paragraph, the Department on receiving a reading of the meter, may compute the consumption on the basis that the consumer has been in occupation for the whole or part of the period from the date of the last actual reading. Such computation shall not, however, prejudice the right of the consumer to certify that the premises were occupied for a greater or lesser period than that assessed by the Department. On receiving such a certificate the Department will adjust the account accordingly, provided the periods when the premises were unoccupied exceed one month continuously.

The charges for energy supplied shall be computed monthly, and shall be as follows:—

(a) (1) Lighting:—			
1- 280 units	5d. per unit.
280-1,000 units	4d. per unit.
Over 1,000 units	3d. per unit.

(2) Where prepayment meters are installed the charge shall be 5½d. per unit for lighting and 1½d. per unit for domestic heating and cooking purposes. This rate will be operative from the date the new price mechanisms are installed.
