His Excellency the Governor-General in Council.

WHEREAS the Raglan County Council lately proceeded by way of special order to raise a loan of fifty thousand pounds (£50,000) to be known as " Rural Housing Loan, 1940 " (hereinafter called " the said loan ");

And whereas the proceedings in connection with the said loan were irregular or defective in that public notice of the resolution to make the special order authorizing the raising of the loan, although given four times, was not given once in each of the four weeks immediately preceding the day on which the meeting was held for the purpose of confirming that resolution, as required by subsection (c) of section ninety-nine of the Counties Act, 1920 ;

His Excellency the Governor-General in Council.

WHEREAS the Marlborough County Council [hereinafter called "the said local authority") was desirous (of raising the sum of five hundred and sixty-five pounds (£865) by a loan to be known as "Drainage Loan, 1940") for the purpose of reconstructing the bridge known as Kopuaranga Stream Bridge or Mauriceville Town Bridge, has complied with the provisions of the Local Government Loans Board Act, 1926 (hereinafter called "the said Act").

(1) The term for which the said loan or any part thereof may be raised shall not exceed twenty (20) years.

(2) The rate of interest that may be paid in respect of the said loan or any part thereof shall be such as shall not produce to the lender or lenders a rate or rates exceeding four pounds (£4) per centum per annum.

(3) The said local authority shall, before raising the said loan or any part thereof, make provision for the repayment thereof by establishing a sinking fund under the Local Bodies' Loans Act, 1926, or such other statutory enactment as may be applicable, and shall thereafter make payments to such sinking fund at intervals of not more than one year, at a rate or rates per centum which shall be not less than three pounds ten shillings (£3.10s.), such payments to be made in respect of every part of the said loan for the time being so borrowed and not repaid, the first such payment to be made not later than one year after the first day from which interest to the lender or lenders is computed on the said loan or any part thereof so raised.

(4) The payment of interest and the repayment of principal in respect of the said loan shall be made in New Zealand.

(5) No moneys shall be borrowed under this consent after the expiration of four years from the date hereof.

(6) The rate payable for brokerage, underwriting, and procuration fees in respect of the raising of the said loan or any part thereof shall not in the aggregate exceed one-half per centum of any amount raised.

(7) No moneys shall be borrowed under this consent after the expiration of two years from the date hereof.

### General Notes.

July was a splendid winter month for most of the country. One of the chief features was the absence of strong winds which made the frequent clear days feel milder than they really were, for frosty nights kept temperatures down to normal level. Easterly weather gave some dull, wet spells, especially in eastern districts of the North Island, but otherwise rainfall was unusually light. Such weather has made no heavy call on supplementary fodder and there is practically no winter-feed problem this year. Already there is spring growth in pastures and many plants show abnormal development for the time of year. At the South Island, a centre being located until the 8th in the Bay of Plenty region. Consequently, moderate southernly prevailed giving dull conditions south of East Cape with rain and drizzle along the coast, but elsewhere the weather was clear. A freshening of the winds occurred on the 6th in and about the Cook Strait region and the weather changed to a showery type, with hail and snow, mainly in eastern districts and especially about the Poverty Bay area.

Clear anticyclonic weather prevailed from the 9th to the 11th.

An extensive disturbance, with lowest pressures to the south, approached from the west and was over the Dominion on the 13th and 14th, when rain fell in most districts with moderate totals in Westland and central provinces. Pressure then rose over New Zealand and an anticyclone intensified near Chatham Islands, causing a predominance of north-easterly winds. An almost stationary disturbance developed in the north on the 16th, so that over the Auckland Province easterly winds increased, bringing unsettled conditions with rain which extended at times to beyond Hawke's Bay.

A weak disturbance gave some scattered rain on the 21st and 22nd and thereafter pressure became relatively uniform over the North Island, though less than normal. Nightly frosts became more widespread at the North of New Zealand during the 22nd a cyclonic centre developed causing strong easterly winds once more over the Auckland Province, with some gales. Rain extended from the north over most of the North Island and some of the South, falls being heaviest on the east coast of the former. The cyclone moved off to the north-east on the 26th, when the extension of an anticyclone over the country brought a general improvement. Rain, however, developed in the west coast of the South Island on the last day of the month.

Updated price: £1,065.

Time for removal: Two years.

Terms of Payment.

A marked cheque for one-quarter (1/4) of the purchase price, together with 11 ls. licence fee, must accompany the tender, and the balance be paid in three equal quarterly instalments, the first falling due three months after the date of sale.

Terms and Conditions.

1. All instalment-payments shall be secured by “on demand” promissory notes made and endorsed to the satisfaction of the Commissioner of State Forests, and interest at the rate of 1 per cent. per annum in excess of current bank overdraft rates will be charged on all notes overdue from the date of maturity to the date of payment.

2. The right to cut and remove the timber will be sold in accordance with the provisions of the Forests Act, 1921-22, the regulations in force thereunder, and these conditions.

3. The aforementioned quality, quantity, and kind as to the said timber shall be taken as sufficiently accurate for the purposes of this sale, and no contract for the purchase shall be voidable, nor shall the purchaser be entitled to any abatement in price, by reason of the said timber being of less quantity, quality, or kind as stated herein or in an advertisement having reference to the said timber.

4. A return giving the number of logs cut of each species and their contents must be made quarterly by the licence on the last days of March, June, September, and December, respectively, in each year. A return must also be made on the same dates showing the output of sawn timber of each species.

These returns must be certified and verified by inspection of the books of the mill, or by such other means as the Conservator may require, and for this purpose the accounts and books shall be open to the inspection of the Conservator, a Forest Ranger, or other duly authorized officer.

5. The attention of tenderers is drawn to the fact that the local controlling body may require the successful bidder to pay any claims or charges which may be made by that body for the maintenance of the road over which the timber may be transported, and before a sawmill licence is issued a letter indicating that satisfactory arrangements have been made in this connection must be produced to the undersigned.

6. Intending tenderers are expected to visit the locality and to satisfy themselves in every particular on all matters relative to the sale.

7. Each tenderer must state the total price that he is prepared to pay for the timber. The highest or any tender will not necessarily be accepted, and the timber described is submitted for sale subject to the final acceptance of the tender by the Commissioner of State Forests.

8. The right is reserved to the Commissioner of State Forests to withdraw from sale any or all of the said timber either before or after the closing date for the receipt of tenders.

9. If no tender is accepted for the timber herein mentioned it will remain open for application for three months from the date tenders close.

10. Tenders should be on the special form obtainable from any office of the State Forest Service, and should be endorsed in envelopes addressed “Conservator of Forests, Hokitika,” and endorsed “Tender for Timber.”

The conditions, which will be inserted in the licence to be issued to the purchaser, and further particulars may be obtained on application to the undersigned or to the Director of Forestry, Wellington.
