** Electrical wiring for radio sets " means—

(1) The installation and connecting of any earthing conductor used for any radio apparatus.
(2) The connecting of a factible cord to any radio apparatus or any plug-top, ceiling-rose, or other connector used between the fixed wiring and such apparatus.
(3) The replacement of a fuse-link on any subcircuit used to supply electrical energy to any radio apparatus and used between the fixed wiring and such apparatus.
(4) The replacement of a fuse-link on any subcircuit used to supply electrical energy to any radio apparatus.
(5) The removal and/or replacement of any radio apparatus as a whole or in part and which is connected to the fixed wiring by means of a factible cord.
(5) The removary installation and temporary connecting of any earthing conductor used for any radio apparatus or interference filter.
(6) The temporary installation and temporary connecting of any earthing conductor used for any radio apparatus or interference filter.
(7) The temporary installation and temporary connecting of any earthing conductor used for any radio apparatus and used between the fixed wiring and such apparatus.
(8) The temporary replacement of any flexible cord used for supplying electrical energy to any radio apparatus and used between the fixed wiring and such apparatus.
(9) The temporary replacement of any sub-circuit.
(1) The temporary replacement of any electrical.
(3) The temporary replacement of a fixelible cord.
(4) The replacement of a fixelible cord.
(5) The temporary replacement of any sub-circuit.
(6) The replacement of a fixelible cord.
(7) The maintenance of the power equipment associated with radio apparatus.
(8) The temporary replacement of stationary electrical apparatus, the insertion of filters and the re-connection of the conductors for thial and demonstration purposes only.
(7) The maintenance o
