Notice to Mariners No. 18 of 1942.

Marine Department, Wellington, N.Z., 19th August, 1942.

The following regulations relating to public traffic in the Otago Harbour, by direction of the Naval Board pursuant to Regulation 4:1 of the Shipping Control Emergency Regulations 1939, are published for the attention of mariners and for general information.

L. B. CAMPBELL, Secretary.

M. 25/324.

PUBLIC TRAFFIC REGULATIONS 1942, OTAGO HARBOUR.

The following regulations are hereby published by the New Zealand Naval Board and the Otago Harbour Board.

By order of the Otago Harbour Board—

N. H. BELL, Naval Secretary.

By direction of the New Zealand Naval Board—

INTRODUCTORY.

1. Until further notice the following regulations are to be observed by all merchant vessels (see definition, paragraph 7) approaching or moving within the Otago Harbour.

2. Limits of the Harbour.—The limits of the Harbour of Otago shall extend to and include all waters comprised within the area enclosed by a straight line commencing at Howlett Point, Station, and running thence in a north-easterly direction on a true bearing of 30° 00’ for a distance of three nautical miles; thence by a straight line in a south-easterly direction on a true bearing of 128° 00’ for a distance of one and three-quarter nautical miles; thence in a south-westerly direction on a true bearing of 200° 00’ for a distance of three nautical miles to a point situated at Howlett Point, bearing 309° 00’ true and distant 550 ft. from the N. Takaero Head; thence south-westernly, north-easterly, and south-westerly by high-water mark along the shores of the Harbour of Otago as commonly known, back to the starting point. All the said area is more particularly defined and delineated on plan marked M.D. 6816, and deposited in the office of the Marine Department at Wellington.

3. The ordinary regulations of the port are to be adhered to except where varied by these regulations.

4. Arrangements in Public Traffic Regulations are hereby cancelled.

5. Use of Wireless Telegraphy, Wireless Telegraphy, and Sound Signalling.—The use of any of the above methods of communicating or signalling for any purpose whatsoever is forbidden in the harbours of New Zealand; the only exceptions to this rule are such sound signals as are authorized to be made by the Regulations for Preventing Collisions at Sea, and by local regulations.

6. For the proper enforcement of the above, the wireless-telegraph office or offices of such ships while in harbour will be secured by the Customs or other official to whom this responsibility has been assigned. During the stay of the vessel in harbour access to the wireless-telegraph office(s) will only be allowed under the following condition: If the vessel is remaining in harbour for such a period that it is necessary for the wireless staff to have access to the office(s) in order to attend to the batteries, &c., the Master of the merchant vessel will be responsible for warning the Customs officers, who may arrange for the breaking of the seals.

7. The Master will be held responsible that no messages are transmitted while the office(s) is (are) open, and should state for how long access is required in order that the Customs officers may afterward go on board the vessel.

8. In vessels fitted with wireless switches (whereby the Master can prevent the operator from sending messages without his knowledge) the latter tapers with the switches, the procedure detailed above may be dispensed with.

9. Any breach of these regulations renders the Master of an offending ship liable to a fine not exceeding £1,000.

6. Signalling by light in the Otago Harbour limits is restricted to urgent or to the use of a light of minimum brilliancy consistent with efficient communication. Neither the light nor its reflection should be visible from a ship at sea.

7. The purpose of these regulations—

(a) Fog
(b) Thick weather

Is considered to exist when it is impossible, owing to meteorological or other conditions affecting visibility, to communicate between the Examinat10n Vessel and the Examination Battery by visual signals.

(c) The term “merchant vessel” includes all vessels other than Examination Vessels and ships flying the White Ensign or a foreign naval flag;

(d) The term “small craft” refers to all vessels under 100 net register tons, and includes small steamers, scows, schooners, ketches, trawlers, fishing-boats, yachts, and launches other than those flying the White Ensign or a foreign naval flag;

(e) The term “Examination Vessel” includes any vessel employed by the Examination Service which displays the signals specified in paragraph 23;

(f) The Examination Officer is the officer of the Examination Service who examines merchant vessels wishing to enter a defended port prior to their entry. As a result of his examination he permits or does not permit a merchant vessel to enter a defended port.

PART I.—ENTRY INTO THE PORT.

11. Advice to Shipowners and Shipping Agents.—Shipowners and shipping agents are advised that, in their own interests, and in order to avoid delays to their vessels in their recognition by and passage through the Examination Service, they should, when circumstances permit—

(a) As a general rule arrange for their vessels to arrive at the port during daylight;

(b) Give notice of the expected arrival of their vessels at the port to the Chief Examination Officer, Trafalgar Street, Dunedin, stating the following particulars:

(i) Name of vessel(s);

(ii) Date and time due at the port;

(iii) Appearance and distinguishing features such as funnel marks, &c;

(iv) Nature of cargo:

(v) Port of loading and ports of discharge of cargo;

(vi) Number of passengers, if any.

(c) See that their vessels are provided with a complete set of International Code flags, and two white and two red lanterns ready and available for use, in addition to the regulation navigation lights.

12. Instructions for Merchant Vessels wishing to enter the Port (for special regulations for small craft, see paragraph 29).—Merchant vessels arriving from seaward may proceed to the Examination Anchorage and there anchor at any time.

13. Merchant vessels approaching the port are especially warned against making use of private signals of any description either by day or by night; the use of such signals will render merchant vessels liable to be fired on.

14. All merchant vessels must pass through the Examination Service before they are permitted to enter the port.

15. All merchant vessels approaching a New Zealand port at which the Examination Service is in force must hoist their signal letters on arriving within visual signalling distance of the port, and are not to wait for the signal “What ship is that?” to be made by the Examination Vessel or signal station. Vessels, however, which hoist their signal letters when approaching the port War Signal Station may haul their letters down as soon as the signal has been acknowledged by the Takaero Head Signal Station.

16. Merchant vessels (other than small craft—for definition of which see paragraph 7 and for instructions for which see paragraph 29) wishing to enter the port are to proceed to the Examination Anchorage and there anchor, unless, before anchoring, they are given permission and the necessary instructions to proceed into the port by the Examination Officer.

17. All orders and instructions necessary to enable a merchant vessel to enter the port will be given by the Examination Officer whose orders and instructions are to be implicitly obeyed. Disobedience will render a merchant vessel liable to be fired on.

18. As a general rule merchant vessels will be examined by the Examination Officer in the order of their arrival in the Examination Anchorage.

19. Any merchant vessels attempting to leave the Examination Anchorage without the permission of the Examination Officer will be fired on.

20. Should bad weather or any other cause prevent a merchant vessel anchoring in the Examination Anchorage she will be ordered by the Examination Officer to remain in the Examination Anchorage or to proceed to sea, and will not be permitted to enter the port unless she can be identified while under way by the Examination Officer.

21. Port dues will not be collected from merchant vessels which close the Examination Vessel solely for the purpose of obtaining information.

22. Examination Anchorage, Position, and Limits.—From a position 009° 71 cables from Takaero Head the Examination Anchorage extends 271° 71 cables; thence 359° 5 cables; then parallel to the southern limit for a distance of 74 cables; when it joins the position 009° 71 cables from Takaero Head.

23. Examination Vessels.—The Examination Vessel will be found in the Examination Anchorage or in the vicinity thereof, and will be known by the examination officers washed to proceed further—

(a) By Day.—They will fly a special flag—white and red horizontal, the blue border

(b) By Night.—They will fly a special flag—white and red horizontal, the blue border

Should the port be closed (see paragraph 24), they will hoist, in addition to the Examination Service above the port, three lights vertical 6 ft. apart in a position where they are clearly visible all round the horizon.

(b) By Night.—They will fly three lights vertical 6 ft. apart in a position where they are clearly visible all round the horizon.

24. “Port closed” — Meaning of the Term.—The term “port closed” means that vessels are not permitted to proceed further than the Examination Anchorage. The port will be closed between the hours of sunset and sunrise and at any other time by order of the Naval Officer in Charge.
25. Signal to indicate "Port closed" and where hoisted.—The signal to indicate that the port is closed is—

(a) By Day—
(1) Three red balls hoisted vertically 6 ft. apart in a position in the Examination Vessel where they are clearly visible all round the horizon.

(b) By Night—
(1) Three red light hoisted vertically 6 ft. apart in a position in the Examination Vessel where they are clearly visible all round the horizon in lieu of the three white lights hoisted when the port is open (see paragraph 25).

26. Instructions to Merchant Vessels when the Port is closed.—When the signals specified in paragraph 25 are displayed, the port is closed and all merchant vessels must either remain in the Examination Anchorage or proceed to sea. No merchant vessel is permitted to proceed to sea from the Examination Anchorage without permission from the Examining Officer (see paragraph 19).

27. Prohibitions to be observed when the Examination Anchorage.—Except to save life, or to avoid accident, or with previous permission from the Examining Officer, masters of merchant vessels are forbidden to—

(a) Move the vessel:

(b) Communicate in any way with the shore or with other vessels:

(c) Lower any boats:

(d) Work cables:

(e) Allow any person to leave the vessel, or any part of the vessel, cargo, stores, &c., to be removed.

28. To get into Communication with the Examining Officer when in the Examination Anchorage.—

(a) By Day—Merchant vessels are to hoist flag D.P.G., International Code.

(b) By Night—Merchant vessels are to hoist two lights, red over white, 6 ft. apart at the fore masthead.

29. Special Regulations for Small Craft wishing to enter the Port.—All small craft are to report to the Examination Vessel from whose quarters red light must be obtained.

30. Small craft, other than vessels provided with a Naval Clearance Certificate, are to proceed outwards beyond a line joining Harrington Point and the Spit Jetty. This prohibition applies by day as well as by night.

31. The Naval Clearance Certificate referred to above may be in respect of a single voyage, or may be issued for such period and subject to such limitations as the Naval Control Service Officer, Dunedin, may think fit.

PART II.—INTERNAL MOVEMENT.

32. Local Authority controlling Internal Movement.—The Harbourmaster, Otago Harbour Board, is the local authority controlling internal movement. No movement in the port is to take place without the authority of this officer.

33. Restrictions on Merchant Vessels entering certain Areas in the Port.—No gampower or explosives shall be loaded or discharged, or entered upon, under the jurisdiction of the Harbourmaster, or other duly authorized officer. Vessels with quantities of explosives in excess of 5 tons are to proceed as directed by the Examining Officer.

34. The Naval Clearance Certificate required to above may be in respect of a single voyage, or may be issued for such period and subject to such limitations as the Naval Control Service Officer, Dunedin, may think fit.

35. Routes to be followed.—As laid down in the New Zealand Pilot.

36. Speed Limits in Victoria Channel.—The speed of vessels of 800 tons and over from a point due east of Burkes to Dunedin shall be limited to 5 knots.

37. Anchorage.—Are as laid down in the New Zealand Pilot and on Admiralty charts.

38. Lights to be shown or obscured at Night in the Port and in the Examination Anchorage by all Merchant Vessels.—

(a) When under way the regulation lights are to be displayed:

(b) When at anchor or secured, if lighting restrictions have been imposed in the port, no lights are to be visible from outboard (but see paragraph 40); the Chief Examining Officer is responsible for informing Masters of incoming vessels what restrictions (if any) are in force.

39. When a merchant vessel is at anchor or secured a red light or lights are to be shown from the port side.

40. Anchor Light.—Electrolytically lit lanterns are not to be used. Ordinary brilliancy of all lanterns used is to be reduced by one-half. All lanterns used are to be fitted with overhanging screens arranged so as to cut off the light at an angle of between twenty and thirty degrees above the horizontal.

41. Other Lights.—No lights aloft, on deck, or below (except those mentioned in paragraph 38 to 42 above) and such as are necessary for authorized signifying purposes) shall be permitted to be visible from outboard. This applies to all merchant vessels whether under way, at anchor, or secured.

2 (it is imperative that Masters and others in charge of merchant vessels should see that this order, which is for their own protection, is carried out.

43. Merchant Vessels to keep clear of H.M. Ships.—Merchant vessels are to keep clear of any of H.M. ships being navigated in the port.

44. Port of Auckland, Wellington, Lyttelton, Dunedin, and Port Chalmers, are on each occasion required to obtain—

(i) A naval clearance from the Naval Control Service Officer of the port

(ii) A Customs clearance from the Collector of Customs.

45. The Collector of Customs requires to receive a copy of (i) before issuing (ii).

46. Instructions given by the Naval Control Service Officer do not in themselves constitute sufficient authority for the departure of a vessel:

(a) A naval clearance valid in the port of issue only, to cover a period not exceeding one month, may be granted to such vessels as the Naval Control Service Officer may recommend, and subject to such conditions as may be prescribed by him.

(b) A naval clearance need not be obtained by fishing-vessels (other than steam trawlers), pleasure yachts, or pleasure launches. (But see paragraph 20.)

47. Signal prohibiting sailing to merchant ship is to leave port while the following signals are exhibited—

(a) By Day—A blue flag hoisted at Harbour Board Office, Dunedin. A blue flag hoisted at Harbour Board Office, Port Chalmers.

(b) By Night—Two red lights, one vertically above the other, 6 ft. apart, at Harbour Board Office, Dunedin. Two red lights, one vertically above the other, 6 ft. apart, at Harbour Board Office, Port Chalmers.

Special Condition.

The successful tenderer shall be liable for payment for any damage caused by fire on the above-mentioned area during the term of the license.

Terms and Conditions.

1. All instalment-payments shall be secured by on demand promissory notes made and endorsed to the satisfaction of the Commissioner of State Forests, and interest at the rate of 1 per cent. per annum in excess of current bank overdraft rates will be charged on all notes overdue from the date of maturity to the date of payment.

2. The right to cut and remove the timber will be sold in accordance with the provisions of the Forests Act, 1921–22, the regulations in force thereunder, and these conditions.

3. The aforementioned quantity, quality, and kind as to the said timber shall be taken as sufficiently accurate for the purposes of this sale, and no contract for the purchase shall be voidable, nor shall the successful purchaser be entitled to any abatement in price by reason of the said timber being of less quantity, quality, or kind as stated herein or in any advertisement having reference to the said timber.

4. A return must also be made on the same dates showing the output of sawn timber of each species. These returns may be ascertained and verified by inspection of the books of the mill, or by such other means as the Conservator may require, and for this purpose the accounts and books shall be open to the inspection of the Conservator, a Forest Ranger, or other duly authorized officer.

5. The attention of all tenderers is drawn to the fact that the local controlling body may require the successful tenderer to pay any claims or charges which may be made by that body for the maintenance of the road over which the timber may be transported, and before a sawmill license is issued a letter indicating that satisfactory arrangements have been made in this connection must be produced to the undersigned.

6. Intending tenderers are expected to visit the locality and to satisfy themselves in every particular on all matters relative to the sale.

7. Each tenderer must state the total price that he is prepared to pay for the timber. The highest or any tender will not necessarily be accepted, and the timber described is submitted for sale subject to the final acceptance of the tender by the Commissioner of State Forests.

8. The right is reserved to the Commissioner of State Forests to withdraw from sale any or all of the said timber either before or after the closing date for receipt of tenders.

9. If no tender is accepted for the timber herein mentioned it will remain open for application for three months from the closing date of tenders.

10. Tenders should be on the special form obtainable from any office of the State Forest Service, and should be enclosed in envelopes addressed "Conservator of Forests, Hokitika," and endorsed "Tender for Timber."
