Notice as to Honey not required by Department

1. (1) Except with the special authority of the Director, or unless otherwise specially directed by him, any apiarist who is required to supply to the Department any honey extracted by him in any month shall, as soon as practicable after the end of the month, comply with the instructions set out in the Schedule hereto with respect to the branding, packing, and consignment of honey (which are substantially the same as the instructions given with respect to honey of the 1943-44 season in the Notice Circular No. 20, dated 10th December, 1942).

2. (1) Subject to any directions that may be hereafter given by or on the authority of the Director for the time being, any honey that is not required to be supplied to the Department in accordance with the foregoing provisions of this notice may be sold or otherwise disposed of by the producer as he thinks fit, subject only to the provision of the Honey Marketing Regulations 1939* and of any Price Order relating to honey made by the Price Tribunal under the Control of Prices Emergency Regulations 1939.

(2) The last preceding subclause applies to apiarists who have less than twenty hives as well as to apiarists who have twenty hives or more.

**SCHEDULE**

**DIRECTIONS AS TO PACKING AND SHIPPING (EXTRACTED FROM INFORMATION CIRCULAR NO. 20, AND APPLIED TO HONEY OF THE 1943-44 SEASON)**

1. Liquid Honey

Honey can be sent in liquid or granulated.

2. Fortifying Honey

On receipt of returns from producers, delivery instructions will be issued.

3. Packing Bulk Honey

(a) Weights.—Tins to hold 58 lb. to 60 lb. weight of honey each. Where weights are irregular the whole of the line will be accepted and only the weight given on the label in hundredths of an ounce counted. Tins must be clean and free from rust. Rust can be prevented by rubbing the tin over with a rag moist with boiled water and then dried out.

(b) Liquid Honey.—Honey sent in liquid or semi-liquid must be packed in lever-lid tins with a press-in lid with a screw-cap lid with opening not less than 1 1/2 in. in diameter. The top of the screw cap must not project to project above the upper edge of the tin.

(c) Cases.—Tins carrying liquid honey must be cased in strong wooden cases and hold one or two tins. Ends of cases to be marked with the same extraction or quality mark on two different lots of honey in the same end of the case. The other end of the cases of honey of the same quality, called "extraction mark." If different qualities are received under the same mark or in one line without being marked so that it cannot be graded until it is sorted and marked, any charges incurred in sorting shall be paid by the supplier. Suppliers are asked not to use the same extraction or quality mark on two different lots of honey in the same season. If this is done the cases will be re-marked at a cost of 3d. per case. It would prevent confusion when carrying stocks supplied for extraction marks letters one year and numbers the next. Do not use pencil for brand and extraction marks. If pencil is used cases will require re-marking at a cost of 3d. per case. Cut a stencil out of cardboard.

4. Branding

All suppliers must use a brand number. The brand number is to be stamped on the four right-hand corners of all kinds of cases to be graded until it is sorted and marked, any charges incurred in sorting shall be paid by the supplier. Suppliers are asked not to use the same extraction or quality mark on two different lots of honey in the same season. If this is done the cases will be re-marked at a cost of 3d. per case. It would prevent confusion when carrying stocks supplied for extraction marks letters one year and numbers the next. Do not use pencil for brand and extraction marks. If pencil is used cases will require re-marking at a cost of 3d. per case. Cut a stencil out of cardboard.

5. Delivery Instructions

South Island producers will be instructed later where to deliver their honey. Should deliveries be required at Auckland, proceed as follows. Send their honey at the nearest railway station to the "Internal Marketing Division, Auckland Wharf." Mark the consignment—note "Ship by cheapest route: freight account (showing mileage and rail miles) to be sent to the Internal Marketing Division, Honey Section, P.O. Box 1923, Auckland." Also mark consignment—note: "Honey extracted, locally produced." The shipper will pay freight from place of consignment to shipping port, up to 120 miles, will be charged back to the producer. The balance of the freight will be a charge on the produce.

World War Services.—Freedcure honey to be packed in bulk tins to the Internal Marketing Division (Honey Section), Auckland. An arrangement has been made with the Railways Department to carry honey from localities in the vicinity

* Statutory Regulations 1939, Sectional number 1098/149, page 669.
of the ports of Napier, Wellington, Wanganui, and New Plymouth, at local rates. It will now be as cheap and more convenient to forward honey by rail. Producers in these localities are therefore advised to consign their honey by rail, addressing their consignment-notes "Internal Marketing Division, Auckland," and marking the consignment-note "Honey extracted, locally produced." All freight up to 120 miles will be debited back to producers; the balance of the freight will be a charge on the depot.

6. Advising Consignments
When forwarding honey, suppliers will advice the office on duplicate advice-notes; such advice-notes to reach the office not later than the time when the honey is received. The advice-notes shall state:

Date when forwarded:
How forwarded:
Where consigned from:
Number of packages:
Net weight, brand, and marks:
Addressee's name and address:
All consignments to be made freight payable, Auckland.

Dated at Wellington, this 17th day of December, 1943.
