Immediate Operational Awards approved by His Majesty the King

Office of the Minister of Defence,
Wellington, 24th February, 1944.

HIS MAJESTY the King has been graciously pleased to approve the following immediate operational awards in recognition of gallantry displayed in flying operations against the enemy in the Solomon Islands:

Distinguished Flying Cross
Flight Lieutenant Mortimer Toke Vanderpump (NZ 40094), Royal New Zealand Air Force, No. 18 Squadron.

On 17th December, 1943, Flight Lieutenant Vanderpump took part in a fighter sweep over Rabaul, an operation which involved flying a single-engined fighter aircraft over two hundred and forty miles of open sea, and on arrival engaging superior numbers of the enemy over hostile territory. Disregarding the odds, he led his subsection in an attack on a force of eight Zeros over their own airfield at a height of over a few hundred feet. In this attack he destroyed a Zero. He then observed the other member of his subsection to be under close attack by one of a number of Zeros. Flight Lieutenant Vanderpump continued to attack the Zeros. He then found himself the target of eight enemy aircraft and was forced down to ground level. He fought them off with his odds for two hours. He believed to have been shot down during this episode. Failing to see him, and having exhausted his ammunition, he broke for home, but found the enemy formation between him and his base. Under attack the whole time his aircraft was hit three times and considerably damaged. He was only able to escape from his
unfavourable situation by a feat of skilful and audacious airmanship which involved flying over broken country at tree-top height, and over the heavily defended base at Rabaul at roof-top level. He was under continuous fire until he was well out to sea on his return, but eventually succeeded in bringing his damaged aircraft safely back over the great distances involved. Flight Lieutenant Vanderpump's efforts to save his comrades on this occasion showed extreme determination and unswerving concern for his own safety, as well as exceptional flying ability.

During his three tours of operational duty, involving 275 operational flying hours, and ninety-two missions against the enemy, Flight Lieutenant Vanderpump's devotion to duty has been of the highest order. As a Flight Commander he fearlessly determined to attack the enemy regardless of the odds, his unfailing cheerfulness, and his ability as a fighter pilot have been an outstanding example to his fellow pilots.

Distinguished Flying Medal
NZ 42111 Flight Sergeant Patrick Andrew TILYARD, Royal New Zealand Air Force, No. 16 Squadron.

Flight Sergeant Tilyard took part in a fighter sweep over Rabaul on 24th December, 1943, an operation which involved flying a single-engined fighter aircraft over two hundred and forty miles of open sea and engaging the enemy over hostile territory by night and enemy air craft. Although several aircraft were under attack by eleven Zeros, he went to the assistance of a fellow pilot who was being sorely pressed. His own aircraft was hit and suffered severe damage, including the loss of a wing-tip, and his instruments were rendered unserviceable. Nevertheless he succeeded in driving off the enemy on the way back, and was later under constant enemy attack. It was only through his stern determination and resourcefulness that he succeeded in bringing his badly damaged aircraft back across the safe landing. In this engagement he destroyed one enemy aircraft, and is credited with another probably destroyed and a probable machine shot down.

Flight Sergeant Tilyard has completed 208 operational flying hours in the South Pacific Area, and has taken part in sixty missions against the enemy. At all times he has displayed a spirit of aggression and determination to engage the enemy whenever met, and has proved himself to be an able Section Leader.

NZ 42417 Flight Sergeant Ernest Charles LAURENCE, Royal New Zealand Air Force, No. 16 Squadron.

On 17th December, 1943, Flight Sergeant Laurence took part in a fighter sweep over Rabaul, an operation which involved flying a single-engined fighter aircraft over two hundred and forty miles of open sea, and on arrival engaging superior numbers of the enemy over hostile territory. His section attacked a greatly superior force of Zeros over their own airfield at a height of two hundred feet. During this action he destroyed one Zero for certain. Later in the engagement he observed the leader of his formation to be in difficulties and under attack by eleven Zeros over Rabaul. Although his aircraft had been hit by a cannon shell and damaged, he stood by his leader until he was attacked himself and forced to take evasive action. Nevertheless he flew on to the attack and obtained alone to assist his leader in spite of the presence of the enemy in vastly superior numbers.

The courage and determination displayed by Flight Sergeant Laurence on this occasion are typical of the standard set by him at all times during his 195 operational flying, involving sixty-one missions against the enemy. In addition, he has proved himself to be a reliable and resourceful leader and a courageous fighter pilot.

F. JONES, Minister of Defence.
