In pursuance and exercise of the powers and authorities conferred on him by section twenty-five of the Naval Defence Act, 1913, and of all other powers and authorities enabling him in that behalf, His Excellency the Governor-General, with the advice of the Executive Council, doth hereby amend and supplement the regulations referred to in the Schedule hereto as shown therein.

SCHEDULE

Regulations for the Government and Payment of the Royal New Zealand Naval Reserves, 1937

The following instructions are to be read with reference to the above regulations, Article Nos. 17, 21, 63, 64, 68, 97, 99, 118, 123, 124, 142.

ROYAL NEW ZEALAND NAVAL VOLUNTEER RESERVE OFFICERS Confirmation and Promotion in Time of War (N.A. 1/12/6)

The rules for promotion and confirmation of Royal New Zealand Naval Volunteer Reserve Officers in time of war have been revised and consolidated and are issued herewith for information.

2. The following instructions are to be read with reference to the Schedule.

Schedule A contains the rules for confirmation and promotion of all R.N.Z.N.V.R. officers entered or promoted prior to 1st May, 1943:

Schedule B contains the rules for confirmation and promotion of all R.N.Z.N.V.R. officers entered or promoted on or after 1st May, 1943, with retrospective provision for promotion of rank of Acting Sub-Lieutenant, if otherwise qualified.

Schedule C contains the rules under which Junior Reserve Officers may be recommended for accelerated promotion.

The names of officers who are eligible for promotion should be reported to the Naval Board, certifying the date on which each of the requirements has been satisfied. Officers not recommended for confirmation or promotion when qualified by age and seniority are to be the subject of a special report accompanied by form S, 206.

(Attention is drawn to paragraph 4 of G.A.F.O. 1312/40.)

b. The naval watchkeeping certificate is to be worded as follows:

"[Rank], [name], is competent to take charge of a watch at sea as a [rank], and to perform efficiently the duties of that rank."

(Where) A Commanding Officer does not feel justified in awarding a watchkeeping certificate in accordance with the above, a restricted certificate may be awarded by the addition of a paragraph referring to the following effect:

"This certificate is granted for [temporarily at vessel]."

(Where) A Commanding Officer does not feel justified in awarding a watchkeeping certificate in accordance with the above, a restricted certificate may be awarded by the addition of a paragraph referring to the following effect:

"This certificate is granted for [restricted at vessel]."

Copies of watchkeeping certificates awarded are to be forwarded at the time of the award or with the recommendation for promotion to the particular officer whose name is to be the subject of the recommendation.

6. The naval watchkeeping certificate is to be granted by the Commanding Officer of the ship in which the officer is serving except in the case of minor war vessels, where the watchkeeping certificate is to be granted by the Commanding Officer of the appropriate administrative authority.

—

Note.—All seagoing vessels in the R.N.Z.N. other than the cruisers are to be regarded as minor war vessels.

If, in future, ratings promoted from the seaman rank will, if under nineteen and a half years of age, be promoted to Midshipman and confirmed rank.

Candidates entered direct from civil life as officers will normally, in such cases, be promoted to Temporary Midshipman in their appropriate branch or, if over
nineteen and a half years, as Probationary Temporary Acting Sub-Lieutenant. They will be eligible for confirmation after three months' service if recommended by their Commanding Officer or, in the case of Air Engineer Officers, on the grant of a certificate of competency.

8. In order to reduce correspondence between ships and Navy Office arising out of confirmation in rank and promotions of Reserve officers from Midshipman to Acting Sub-Lieutenant and from Acting Sub-Lieutenant to Sub-Lieutenant, it has been decided that these confirmations and promotions will be promulgated by Navy Office on the date on which the officer becomes qualified by age or service, provided that his Commanding Officer has previously informed the Navy Office that he does not intend to recommend the officer for confirmation in rank or promotion, and subject to previous reports being satisfactory. Otherwise, it will be assumed that the officer is recommended and no recommendation need be forwarded. As it will not be possible to revert officers confirmed or promoted, it is essential that Commanding Officers should report by signal to Navy Office in good time that they do not intend to recommend an officer for confirmation in rank or promotion.

9. Consideration will be given to recommendations for accelerated promotion to the rank of Lieutenant of R.N.Z.N.R. Officers (both permanent and temporary) who are considered by their Commanding Officers to be outstanding in the performance of their duties. Before forwarding recommendations, Commanding Officers are to satisfy themselves that officers comply with the conditions of Schedule C of this Order, and are sufficiently outstanding in comparison with the average officer of their rank to justify accelerated promotion being considered. In no circumstances will recommendations be considered in respect of officers who do not satisfy the requirements recommended in Schedule C, which shows the minimum conditions under which an officer can be recommended. Recommendations are to be submitted by Commanding Officers of majors and majors direct to Navy Office, in the case of officers serving in minor war vessels, to administrative authorities, who are to forward them to Navy Office stating whether they concur in the recommendation. Recommendations are to be accompanied by Form S. 206. For the purpose of recommendations of officers for accelerated promotion, age and probationary time may be included for calculating the period of qualifying service laid down.

10. Where a representation or request, &c., concerning confirmation in rank, promotion, award of a watchkeeping certificate, &c., is made by an officer in writing, it should be considered by his Commanding Officer, who should in turn make representations through the administrative authority to the Naval Board indicating the reason for his recommendation (e.g., Navy Order, Schedule A, B, or C), and stating the date on which the request is recommended for approval. The representation, however, should not be represented in the form of a minute or covering memorandum on the officer's request, which should be retained by the Commanding Officer concerned. In general, the date recommended for approval should be in conformity with the Schedules to this Navy Order.

11. A recommendation, "see Navy Order No. 821," is inserted in the Royal New Zealand Naval Reserves Regulation, Part 1, against Articles 17, 21, 63, 64, 65, 68, 96, 118, 123, 124, 142. The Navy Order was issued as an Order in Council on 15th March, 1944.

13. Navy Orders 458, 458, 459, 459, and 723 are cancelled.

### REGISTER OF LICENSES ISSUED UNDER THE LAND AGENTS ACT, 1921-22

**Note:** The Register is arranged alphabetically under the names of holders of licenses; but when an individual holds a license on behalf of a firm or registered company the name of such firm or company, and not the name of the holder of the license, is placed in its alphabetical order.

In the case of a firm or company the name of which consists of the Christian name or names (or initials) and surname or surnames of some person or persons, the index letter is the first letter of the first surname.

Further, where an individual holder of a license trades under a particular name, the trade-name appears in its alphabetical order.

### Notes on the Weather for February

#### General
- February was a month of mixed weather with several heavy rains. These have promoted an abundance of growth, which has been very beneficial to dairy production and to young crops for winter feed. Conditions were, however, not very favourable for harvesting grain.

- Rainfall: Many places had large rainfall totals. The Taupo—Bay of Plenty region experienced at least twice its usual amount, and new records were established near several towns. Several rains reported in that vicinity were of short duration, on the 22nd when Lake Rotoura and Rotokawa had falls of 9 in. Southern Taranski and most of the Wellington Province outside the city area had rainfall appreciably below normal. Apart from the coast from Gisborne to East Cape, the remainder of the North Island had surplus rain.

- Conditions were, however, not very favourable for harvesting grain.

- Sunshine: Most eastern districts had less sunshine than usual, noticeably so at Haunui, Dunedin, and Gore, while the far north and western districts experienced excessive.

#### Weather Sequence
- A trough developed off Westland caused widespread heavy rain near and in eastern districts, but conditions rapidly improved from the south and the anticyclone moved to the east.

- A cold front, which crossed the South Island late on the 16th, crossed most of it the next day and then retreated. Meanwhile, an anticyclone spread over New Zealand on the 7th.

- A cold change advancing on the 6th was accompanied by brief showers and isolated hail in the south, but the weather soon cleared and an anticyclone spread over New Zealand on the 7th.

- A trench associated with a depression to the south crossed from the west on the 9th and 10th. Northerly winds were strong in central and northern districts, with gales in Cook Strait. A deep centre which had developed off Westland caused widespread heavy rain near and in eastern districts, but conditions rapidly improved from the south and the anticyclone moved to the east.

- A cold change advancing on the 8th, light frosts were experienced in several districts.

- Note: At stations where departures in parentheses the record has been maintained for less than ten years in the case of temperature and for less than twenty years in the case of rainfall and the normals are partly interpolated.
