

The electric lines adapted for the supply of electrical energy within the area of supply described in clause three hereof, being the electric lines at present erected or proposed to be erected as shown by means of red and green lines on the plan marked P.W.D. 108622, and deposited in the office of the Minister of Works at Wellington.

5. The system of supply through lines erected under this Order in Council shall be as described in paragraphs (a) and (f) of clause 21-01 of the Electrical Supply Regulations 1935. The transmission voltage between the licensee's main substation adjacent to the Public Works Department's Edgcombe Substation and the Borough Main Substation in Whakatane shall be 22,000 volts between phases, and between the latter and the Borough Pumping-station in Whakatane County the transmission shall be 3,300 volts between phases, provided that in each case the licensee may, with the prior consent in writing of the Minister of Works and subject to such conditions as he may impose, change the existing transmission voltage to the standard 11,000 volts between phases.

6. The said three Orders in Council above mentioned are hereby varied so far and so far only as is necessary to give full effect to the provisions of this Order in Council, and any electric line authorized by this Order in Council that was not authorized by the existing license shall be subject in every respect to the Electrical Supply Regulations 1935, the Electrical Wiring Regulations 1935, and any regulations made in amendment or amplification thereof or in substitution thereof as if this Order in Council were a new license under those regulations.
