Note.—At stations where departures from normal are in parentheses the record has been maintained for less than ten years in the case of temperatures and for less than twenty years in the case of rainfall and the normals are partly interpolated.

Notes on the Weather for January, 1949
General.—There was little settled weather in January, conditions in general being cloudy and cool. Useful rains in most districts maintained good pasture growth without seriously hindering haymaking and harvesting. Lack of sunshine has delayed the ripening of some fruits. Stock is reported to be in excellent condition, and dairy production was maintained at a high level.

South Island

Te Aroha, Dec., 1948 1949

Rainfall—Rainfall was above normal in Marlborough, Canterbury (except South Canterbury), Gisborne, Hawke’s Bay, South Tararua, and Wellington (except the south-western part). There was a substantial excess in central and southern Hawke’s Bay; in a few places it was the wettest January for twenty-five years.

Temperatures.—Mean temperatures were generally below normal. The departure was greatest east of the ranges, and amounted to 1°F. in parts of Canterbury and Marlborough. At Hanmer Springs it was the coolest January for over forty years. Thunderstorms were numerous, some stations recording as many as six. The majority occurred on 6th, 7th, 8th, 19th, 20th, and 26th.

Waimate, Dec., 1948 1949

Note.—Sunshine totals were below average. The deficiency was small in western and northern districts, but in other parts of the South Island it ranged from twenty-five to fifty hours.

Weather Sequence.—For the first few days pressures remained high to the east of the South Island, while a large and complex disturbance moved slowly on to New Zealand from the Tasman Sea. Downdraft холод-костяни conditions prevailed. Rainfall intermittent in all districts, with some heavy falls on the Kaikoura coast on the 3rd. Many severe convection thunderstorms were reported from the North Island on the afternoon of the 6th. Hail and thunderstorms also occurred on the following day during the passage of a very active cold front.

South Island

 Ahead of a deep depression advancing eastwards across the North Tasman Sea north-easterlies began to increase in the far north on the 15th. Winds turned northerly when a ridge of high pressure began to move off to the east on the 18th. Heavy showers then developed during the passage of a large disturbance, the main centre of which crossed Otago on the 19th. Hail and thunder were widespread in the South Island.

14. (1) Subject to the provisions of clause 13 hereof, the maximum price that may be charged or received by any wholesaler for potatoes grown in New Zealand and sold by him to a retailer for purposes of retail sale shall not exceed the sum of the following amounts:

(a) The price actually paid or payable by the wholesaler to the grower or any other person:

(b) An amount (not exceeding 2s. 6d. a ton) in respect of any potatoes actually received into and delivered from the wholesaler's store, together with any grading, transport, or other charges actually paid by the wholesaler.

(c) An amount computed at 2½ per cent. of the sum of the amounts specified in paragraphs (a) and (b) hereof (to cover the estimated loss due to shrinkage and other natural causes), and, in the case of potatoes that have been actually received into the wholesaler's store, a further amount computed at the rate of 10s. a ton, and reduced by the amount of the charges that would have been incurred in New Zealand and actually paid by the wholesaler.

(d) An amount computed at the rate of £1 5s. a ton for lots of less than a half-ton, and at the rate of £1 a ton in all other cases.

(2) Subject to the provisions of clause 13 hereof, the maximum price that may be charged or received by any wholesaler for potatoes grown in New Zealand and sold by him to another wholesaler or by any wholesaler for potatoes that have been acquired by him in different lots at different prices, the appropriate maximum price may, with the general or special approval of the Tribunal, be computed by reference to the average of the several prices paid for such potatoes.

**Computation of Distributors' and Wholesalers' Prices by Reference to Average Prices**

In computing the maximum price that may be charged by any distributor or by any wholesaler for potatoes that have been acquired by him in different lots at different prices, the appropriate maximum price may, with the general or special approval of the Tribunal, be computed by reference to the average of the several prices paid for such potatoes.

**Distributors and Other Wholesalers to Specify Grades of Potatoes on Relevant Invoices**

16. (1) Every distributor or other wholesaler who sells any potatoes to which this Order applies shall specify in the relevant invoices, with respect to each item, the grade of the potatoes comprised in the item, and shall state separately the price charged for the sacks or other containers.

(2) For the purposes of this clause the term "grade" with respect to any lot of potatoes means, as the case may require, "good grade" or "fair," or "under-grade."
18. Notwithstanding anything in the foregoing provisions of this Order and subject to such conditions, if any, as it thinks fit, the Tribunal, on application by any retailer, may authorize special maximum retail prices in respect of any potatoes to which this Order applies where for any reason extraordinary freight charges are incurred by the retailer in obtaining delivery from the source of supply that is nearest or most convenient of access to him. Any authority given by the Tribunal under this clause may apply with respect to a specified lot or consignment of potatoes or may relate generally to all potatoes to which this Order applies sold by the retailer while the approval remains in force.

Retailers to Exhibit Prices

19. Every retailer who offers or exposes any potatoes to which this Order applies for sale in any shop shall keep in a prominent position in such proximity to the potatoes to which it relates as to be obviously descriptive thereof a ticket, placard, or label on which shall be set out in legible and prominent characters the retail price per pound of the potatoes.

BRANDING OF GOOD TABLE POTATOES

20. Every grower, distributor, or wholesaler who grades any potatoes as "good table" shall affix to every sack so graded the name and address of the person so grading the potatoes. Provided, however, that where a grower so grading potatoes is a member of a growers' association approved by the Minister of Agriculture his registered number may be given in place of his name and address.

Dated at Wellington, this 23rd day of February, 1949.
