II. PROHIBITION OF CERTAIN CLASSES OF HEAVY TRAFFIC

No person shall operate or cause to be operated on, along, or over the said highway, any heavy motor-vehicle which has more than two axles or which when carrying the maximum load it is designed to carry on any axle a load greater than five tons, or which, together with its load, exceeds a total length of thirty feet, or which is drawing a trailer.

The Standards Act, 1941.—Draft New Zealand Standard Specification

NOTICE is hereby given that the above draft New Zealand Standard Specification is now being circulated to affected interests for consideration and comment. The closing date fixed for such comment is the 4th May, 1951.

All persons who may be affected by this specification once it has been declared a Standard Specification by the Minister of Industries and Commerce may, at any time before the closing date for comments, obtain, on application, free copies from the New Zealand Standards Institute, Hamilton Chambers, 201 Lambton Quay, Wellington, so as to have an opportunity to consider the draft and to comment thereon to the Standards Council or to an appropriate committee of the Council in accordance with subsection (3) of section 8 of the Standards Act, 1941.

R. T. WRIGHT, Executive Officer, Standards Council.
NOTICE is hereby given—

(a) That the Board of Trade proposes to consider the question of recommending the exemption from import licensing in respect of goods from other than scheduled countries comprised in 200 items (List No. 2) as set out in the 1951 Import Licensing Schedule;

(b) That persons, firms, or organizations considering themselves or their members likely to be materially affected by the exemption from licensing of any particular item, and desirous of lodging an objection thereto, must do so in writing by sending five copies of the statement of objection addressed to the undersigned so as to reach him on or before 25th May, 1951; and

(c) That the fact that no objection is lodged against the removal of import licensing in respect of any particular item will not prejudice the right of any person, firm, or organization to represent to the Board at a later date that the rates of tariff duty on that item should be reviewed.

List No. 2 includes a wide range of goods, many of which are of a kind made in New Zealand. This notice does not justify any assumption that any item in the list will be exempted from the need for a licence or that any goods comprised in such list which are ordered without a licence will be permitted to be imported. Copies of the list may be obtained on and after Tuesday, 17th April, from Collectors of Customs, Offices of the Department of Industries and Commerce, or direct from the undersigned.

R. F. WILSON, Acting Secretary.

Board of Trade, Wellington, 11th April, 1951.

**Preliminary Notes**

1. Five copies of the statement of objection are required. The statement should show concisely the principal grounds for objection to de-control. It should be framed in numbered paragraphs.

2. Where objection is made to any item, the objection must be set out in detail against that item even though it may involve repetition.

3. Each statement of objection should be headed with the reference number, tariff item number, and brief description of the item, e.g.:

   No. 155 T.I. 27 Biscuits, other kinds.

4. It is desired that wherever possible statements of objection should be made by national trade associations, but such statement in respect of any item will not preclude consideration of representations from any person or firm writing direct to the Board.

5. If any person, firm, or organization is in doubt as to whether particular goods are classified within any of the items in the list, inquiry should be made of the local Collector of Customs.
