

PROVISIONS RE CHANGE-OVER

7. The following provisions shall apply in respect of the apportionment of the cost of adjusting, altering, or replacing consumers' installations on any change-over in its system of supply from direct current to alternating current which the licensee may make:

- (1) Consumers' installations shall be classified as follows:
 - Class A: Installations in which the wiring is found to be in accordance with the regulations governing the same, and which require only such alterations as are necessitated by the change of system.
 - Class B: All other installations.
- (2) The cost of alterations shall be apportioned as follows:
 - Class A: The whole of the cost shall be paid by the licensee.
 - Class B: The cost of alterations due to change in system shall be paid by the licensee, and all other costs shall be paid by the consumer.
- (3) In cases where it is inconvenient for the consumer to pay in full at the time of the alterations the cost for which he is liable, the licensee shall make reasonable arrangements to finance the work.
- (4) All alterations required shall, unless the licensee otherwise agrees, be carried out by the licensee or its contractors or agents.
- (5) In the event of any dispute arising out of matters affected by this clause, a board of appeal (whose decision shall be final) shall be set up to decide such dispute, which board of appeal shall consist of the following:
 - (a) A Stipendiary Magistrate, or some person acceptable to both parties, who shall be chairman;
 - (b) One representative appointed by the licensee; and
 - (c) One representative appointed by the consumer on whose premises the alterations are necessary.

The costs of the board of appeal shall be payable by the parties in such proportions as the board may decide.

RENTAL

8. For the purpose of assessing the rental or annual sum payable in respect of this licence, the licensee may install a suitable maximum-demand indicator to the satisfaction of the Inspecting Engineer of the State Hydro-electric Department, and failing such installation the rental shall be determined on the maximum rated capacity of the generating plant installed.

The present plant is rated at 150 kilowatts, and for the purposes of Regulation 6 (1) of the Water-power Regulations 1934, its maximum rated capacity shall be deemed to be 150 kVA.

RIGHT TO WATER

9. This licence shall not of itself confer upon the licensee any right to water.
