THE GROWTH AND DEVELOPMENT OF SOCIAL SECURITY IN NEW ZEALAND

A survey of social security in New Zealand from 1898 to 1949, and the most comprehensive work on the subject yet published in this country.

Of 180 pages, the book is divided into three parts—cash benefits, health benefits, and finance. Each subject is dealt with in detail and there is a comprehensive index.

The book will undoubtedly be of considerable interest to those interested in social security and social services, and will be especially valuable to University students.

AGRICULTURAL BOTANY
By J. S. Yeates and Ella O. Campbell

This book supplies a long-felt want in this country by providing a simple explanation of the manner in which plant function and the conditions necessary for their growth. Wherever possible technical terms have been avoided, and those essential to a proper understanding of the subject have been fully explained. Over one hundred illustrations contribute to a clear exposition of the subject. As a result, although the book is primarily intended for use in schools and colleges, it is also suitable for farmers, orchardists, horticulturists, and home gardeners.

YOUR OWN HOME—HOW?
A guide for those who desire to build. Contains fourteen new house designs, advice on financing, low cost plan service and other valuable advice.
