NOTES ON THE WEATHER FOR DECEMBER 1953

General.—For the greater part of the country December was cloudy and rather wet. As in the previous month the weather was unusually dull, wet, and rather unsettled in Westland. In parts of Canterbury a spell of dry weather which lasted from the 19th to the 24th brought to an end the rainfall on the 7th. In the other hand, in the Bay of Plenty, Gisborne, and Hawke's Bay many farmers were complaining of very dry conditions following three months of deficient rainfall. Elsewhere the season has been more favourable, and stock was reported to be in good health and condition.

Rainfall.—Rainfall was below normal over the provinces of Auckland and Hawke's Bay, and also over central Otago. The deficiency was greatest between Dargaville and Kaikoura, where the rainfall was barely one-quarter of the normal value. There was a moderate surplus in an extending northwestward from Foxton and Wanganui to National Park and Taramakau, and also over Westland.

Temperatures.—Temperatures were near to or above normal over the whole country. The departure exceeded 2°F. over almost the whole of the provinces of Auckland and Hawke's Bay.

A heavy fall of snow occurred in the Southern Alps on the 10th.

IT is hereby notified that unclaimed property in the hands of the police at Auckland, Hamilton, Gisborne, Palmerston North, Wellington, Nelson, Christchurch, Timaru, and Invercargill stations will, if not claimed before Saturday, 6 February 1954, be sold thereafter by public auction.
