NOTES ON THE WEATHER FOR OCTOBER 1955

General: For the third consecutive month the weather was unusually mild. Rainfall was considered adequate in most districts and growth was reported to be particularly good. Conditions were favorable for lambing, especially in the South Island.

On the 5th unusual thunderstorm activity in Northland caused extensive damage to power and telephone lines, and heavy rains resulted in the flooding of thousands of acres of farm lands in the Dargaville-Kaikohe area. Early on the 18th local heavy rain caused serious damage to the country north of Christchurch also received an appreciable amount of rain from the 3rd to the 6th, partly on account of the activity of a trough of low pressure on the 21st and 22nd, but the rain was more extensive over the South Island, while a small depression crossed the North Island. This was a period of unsettled weather, especially in the Trunk Railway was blocked for over 24 hours.
