

Licensed Industries Committee: Notice to Persons Affected by an Application for Licence Under the Licensed Industries Regulations

PURSUANT to regulation 14 of the Licensed Industries Regulations 1957, notice is hereby given that the following application will be considered at a public sitting of the Licensed Industries Committee, to be held in the Board Room, Department of Industries and Commerce, First Floor, Departmental Building Stout Street, Wellington C. 1, on Wednesday, 27 April, commencing at 10 a.m. Applicants and persons likely to be affected by a decision of the committee should communicate with the Secretary, Licensed Industries Committee, Department of Industries and Commerce, P.O. Box 2492, Wellington.

Applicant: Tasman Pulp and Paper Co. Ltd., Kawerau.

Application: That the definitions of "newsprint" and "mechanical printing paper" contained in the company's existing licence be deleted therefrom and the following substituted therefor:

"Newsprint and mechanical printing paper include all classes of papers of whatsoever kind or nature which contain any proportion of groundwood pulp and have a brightness of not less than 50 degrees G.E. excluding such classes as are necessarily and customarily made on an M.G. cylinder machine."

All expressions used herein to describe any class of paper or board are intended to have the meaning commonly accepted within the paper trade in New Zealand.

Dated at Wellington this 17th day of March 1960.

L. J. FITZGERALD, Secretary,
Licensed Industries Committee.

NOTE—This application amends the application made by the above-mentioned applicant notified in the *Gazette* of 14 May 1959, No. 27, page 626.

For the purposes of the applicant's existing licence "newsprint" means paper of the type generally used in the publication of newspapers and consisting of groundwood pulp with not more than 25 per cent of sulphate pulp and weighing between 45 to 60 grammes per square metre and "mechanical printing paper" means a paper consisting of groundwood pulp with not more than 35 per cent of sulphate pulp.
