

PART I—DECISIONS IN INTERPRETATION OF THE TARIFF—*continued*

Tariff Item No.	Decision	Tariff Order
	RHEOSTATS AND RESISTANCES—<i>continued</i>	
	Tubes, copper, in straight random lengths, filled with magnesium oxide and containing a resistance wire, for making electric heating elements	307
	SWITCHBOARDS AND FUSEBOARDS—	
	Kiosk sub-stations of sheet metal, including transformers, switchgear, and measuring equipment supplied therewith	307
	Measuring instruments supplied with switchboards for use thereon and imported therewith, even if packed separately	307
	Trucks for moving oil tanks or other parts of switchboards, when imported with the switchboards, etc., with which they are to be used. (See also Tariff Item 353 (13).)	307
	TERMINALS—	
	Battery clips for connecting wires to batteries	307
	Battery post shims, being specially shaped lead sleeves for fitting to worn or corroded battery posts	307
	Contact buckle terminals, being clips or holders for the elements of electric radiators and comprising a screw, nut, spring clip, and closing device or buckle	307
	Covers, rubber, for terminals	307
(26)	TRANSFORMERS—	
	Caps, being outer cases, in halves, even if japanned and holed, for making radio transformers	307
	Hanger irons, steel, for attaching transformers to transmission poles	307
	Oil imported in a transformer is to be admitted as part of the transformer	307
	Stampings, metal, for building up cores for radio transformers	307
(27)	ELECTRIC LOCOMOTIVES; TROLLEY POLES, ETC.—	
	Bushings for trolley pole sheaves, graphite lined	307
	Standards, trolley pole, for fastening to the roofs of tramcars to hold and control trolley poles	307
(28)	SPARKING PLUGS FOR OIL ENGINES—	
	Insulators or porcelains identifiable as peculiar to sparking plugs	307
	Rubber covers for sparking plugs	307
(29)	ELECTRIC IRONS—	
	Castings and stampings whether in the rough, machined, finished, or partly finished, for making electric irons	307
	Elements, spare, for electric irons	307
	Mica cut to shape for elements of electric irons	307
	Thumb rests for electric irons	307
(30)	N.E.I.—	
	Bells and buzzers, electric	307
	Bells, telephone extension	307
	Bushes or tube ends, ebonite	307
	Cords, insulated, with appliance plugs attached, and with or without wall plugs attached specially suited for electric irons, grillers, and similar electric cooking and heating appliances, whether imported therewith or separately	307
	Earthing sticks, electrical, being safety devices used by electric linesmen	307
	Gas lighters, coils or elements for	307
	Hair clipping machines, electric, suited for barbers' use, including the electric motor incorporated in the handle	307
	Incinerators, electric	307
	Insulators—	
	Beads, fish spine, porcelain	307
	Cup type insulators suited for use with telephone cables, and having a cap-covered cavity in which the cable ends are joined	307
	Eyelets, porcelain, for making electric heating radiators ..	307
	Insulators, other than those classed under Tariff item 352 ..	307
	Screw eyes, insulated	307
	Plugs, also plugs and switches combined, for fitting to electric irons and other electric appliances, when imported separately	307
	Windscreen wipers specially designed for use on rail cars, locomotives, and tramcars, and not suitable for use on motor vehicles	307
