

PART I—DECISIONS IN INTERPRETATION OF THE TARIFF—*continued*

Tariff Item No.	Decision	Tariff Order
(b) (i)	OTHER KINDS, VIZ— OF KINDS APPROVED BY THE MINISTER— Batrymax "B" Batteries B144, B145, B154, B156 .. Batteries composed of other than cylindrical cells .. Mallory types RM1; RM3; RM4; RM12; RM401; RM450; RM520; RM625; RM640; RM675; TR120; TR132; TR132B; TR133; TR140; TR152; 400 Mini-max "B" batteries types 404E; 405E; 504E; 506E.. Siemens S144 Vidor "A" batteries V0018, V0036, V0038 Vidor Kalium batteries VO106, VO108, VO109, VO118	307 307 307 307 307 307 307 307
(ii)	OF KINDS DETERMINED BY THE MINISTER— Cells of dimensions contained in British Standard Specification 397/1946, Table 3, designated U2 or U5 or their equivalent	307
(iii)	OTHER— Cells, Le Clanche, including glass jars, porous pots, and zinc rods therefor, when imported separately Cells of dimensions contained in (a) British Standard Specification 397/1946, Table 3, designated U1, U4, U6, U7, (b) in Table 1, designated DR3, (c) in New Zealand Standard Specification 102/1957 designated F, or their equivalents Zincs for wet primary cells	307 307 307
(3)	CARBONS AND ELECTRODES FOR ARC LAMPS, ELECTRIC FURNACES OR FOR ELECTRIC WELDING— Borium welding rods Carbons in the form of round rods, the positive being cored, and the negative pointed Electrodes for use in cutting metal by means of an electric arc	307 307 307
(5)	CARBON IN BLOCK, SHEET, OR ROD, AND OTHER INSULATING MATERIALS, N.E.I., ETC.— Armature wedgings of wood, specially shaped like plain and very narrow mouldings, to serve as spacers to insulate the windings of armatures Paper, or board made from laminated or compressed paper, oiled, varnished, or impregnated with synthetic resin, specially produced for electrical insulation purposes, plain coloured and not being backed or faced in colours differing from the base material Paper tape specially suited for electrical insulating purposes Sindanyo, asbestos based sheets, with plain or bevelled edges, but otherwise plain and unworked, for use in making switchboards, and for similar purposes Tape, fibreglass	307 307 307 307 307 307
(6) (a) (i)	CONDENSERS (CAPACITORS)— POWER-FACTOR CORRECTION CONDENSERS— APPROVED— Power factor correction condensers	307
(b) (i)	OTHER KINDS— APPROVED— Condensers (other than power factor correction condensers)	307
(7)	ELECTRIC APPLIANCES, N.E.I., PECULIAR TO ELECTROPLATING, ELECTROCHEMISTRY, ETC.— Anodes for electroplating, consisting of rectangular sheets of pure silver or other pure metal peculiarly suited for use in electroplating, in which holes have been made to facilitate suspension in the plating bath Anodes for preventing corrosion of underground or underwater pipelines Baths, having built-in receptacles for electrodes and being identifiable as parts of electro-medical apparatus Electrodes, synthetic graphite, for electrolytic purposes .. Electrodes, and galvanic handles therefor, used in electrotherapy Hooks, nickel or copper, used to hang anodes in an electroplating bath	307 307 307 307 307 307
