links, whether or not bolted, riveted, or welded thereto, but not including (a) buckets, trays, and other fittings suited as receptacles for the material being conveyed, or (b) cross flights and similar fittings connecting one conveyer chain with another.

Carbonating machines, including pumps and regulators peculiar thereto, whether imported therewith or separately.

Dyes specially suited for use in plastic moulding presses.

Dust collectors—

Exhausting units, industrial, consisting of an electric motor, exhaust fan or blower, and dust collecting cylinder, together with applicators therefor.

Parson's oval bag dust collectors.

Specially designed for separating powders into two or more grades.

Suction filter or pressure filter types, including filter sleeves peculiar to use therewith.

Dyeing—

Dyeing vats of molten metal when equipped with paddles.

Fur drying machines for brushing a coating of dye on rabbit skins.

Tank dyeing machines.

Earth moving and road making—

Paving breakers, pneumatic.

Rammers, portable, power operated.

Egg—

Candling lanterns for examining eggs.

Electrical—

Lamps, bactericidal, designed to produce rays of a wave length destructive to bacteria and not for the purposes of illumination.

Seals, high temperature, finned, and screw on pot type, for Pyrotenax cable.

Engines, oil and parts—

Carburetors (other than those peculiar to use on flying machines engines) and petrol engines used in conjunction therewith, including control cables therefor with fittings attached, if imported therewith.

Compression-ignition types of oil engines peculiar to use as stationary or marine engines, including air receivers therewith, if imported therewith.

Marine oil engines, other than compression-ignition types, including propellers, stern tubes, shafting, and brackets when imported therewith as a unit to be fitted into a vessel.

Model oil engines having a power of 1 b.h.p. or over.

Engines, declared for use only as power units of agricultural machines.

Stationary oil engines, other than compression-ignition types (a) having a rated power of 10 b.h.p. or over; or (b) having a rated speed of 600 r.p.m. or over.

R. M. SMITH, Chief Accountant.
(b) The weight of all butter in any such consignment shall be determined on the basis of the weight as ascertained by the grader of the several boxes selected by him for weighing and set out in the Grader's Certificate issued in respect of that consignment, and the boxes of butter so weighed shall be taken as fixing the average weight for the whole quantity of butter comprised in such certificate, overweights being averaged from a weight of 56 lb per box in such certificate in relation to the prescribed weight of 56 lb 2 oz per box:

c) If the average weight ascertainment as aforesaid of the butter comprised in any Grader's Certificate be less than 56 lb 2 oz per box, such deficiency shall be deducted from a weight of 56 lb per box for the purpose of computing payment therefor:

d) If the average weight ascertainment as aforesaid of the butter comprised in any Grader's Certificate exceeds the prescribed weight of 56 lb 2 oz per box, then the amount of such excess shall not be taken into account in computing payment therefor:

In computing the weight of cheese for which payment is to be made by the Board, the weight of all cheese comprised in any consignment submitted for grading under the said regulations shall be ascertained as follows:

(a) The weight of all cheese in any such consignment shall be determined on the basis of the weight as ascertained by the grader of the several crates of cheese selected by him for weighing and set out in the Grader's Certificate issued in respect of that consignment, and the crates of cheese so weighed shall be taken as fixing the average weight for the whole quantity of cheese comprised in such certificate, overweights being averaged with underweights in relation to the respective packed weights as set out in such certificate.

(b) If the average weight ascertainment as aforesaid of the crates of cheese comprised in any Grader's Certificate exceeds the average of the marked weights thereof as set out in such certificate, then payment shall be made for the cheese comprised in that certificate on the basis of the average weight so ascertained.

c) If the average weight ascertainment as aforesaid of the crates of cheese comprised in any Grader's Certificate be less than the average of the marked weights thereof as set out in such certificate, then the amount of such excess shall not be taken into account for the purpose of computing payment therefor:

d) From the total weight computed as aforesaid of the cheese comprised in any Grader's Certificate there shall be deducted by way of shrinkage allowance such amount in respect of any particular brand or class of cheese as the Board may from time to time determine.

Prices fixed by the Authority shall not be paid for any butter or cheese manufactured otherwise than in compliance with the said regulations.

The price to be paid by the Board for unwaxed cheese shall be the appropriate price payable for waxed cheese as hereinafter provided reduced by such amount as corresponds to any reduced costs incurred in such unwaxed cheese and the allowance for loss in weight due to shrinkage. The reduction referred to in this paragraph shall be computed by the Board and the computation of the Board shall be final.

The price to be paid by the Board for any butter or cheese, with the approval or at the request of the Board, is manufactured, prepared, or packed in special containers or container parts otherwise in any special manner, shall be the appropriate price payable for that butter or cheese as hereinafter provided adjusted by such appropriate addition or reduction as corresponds with the additional costs or the reduced costs incurred in such special manufacture, preparation, or packing. Any such approval or request of the Board may include a stipulation limiting the additional cost to be incurred and may dispense with the requirements of paragraphs 6, 7, and 8 hereof, and, in that event, payment shall be made for the actual net weight of the butter or cheese exported. The adjustment to prices referred to in this paragraph shall be computed by the Board and the computation of the Board shall be final.

Dated at Wellington this 26th day of June 1963.

G. A. DUNCAN, Chairman, Dairy Products Prices Authority.

Electric Wiring Regulations 1961—Notice of Electrical Appliance Which May constitute an Electrical Hazard

Pursuant to regulation 8 of the Electrical Wiring Regulations 1961, notice is hereby given that:

1. The appliance described below may, in my opinion, constitute an electrical hazard.

Description: Electrically-operated sewing machine.

Trade Name: Riccar.

2. The possible electrical hazard arises by the presence on some "Riccar" sewing machines of exposed live conductors in the enclosed block to which various wires are connected which can be touched by a person's fingers.

3. All persons who have purchased a "Riccar" sewing machine on which the above-mentioned electrical hazard is present should refrain from using the machine until the electrical hazard is removed.

4. This notice applies also to any sewing machine of similar manufacture having the same electrical hazard as the machine described, though bearing a different trade name.

5. Every person who sells or offers for sale any appliance which in the opinion of the General Manager of the New Zealand Electricity Department constitutes or may constitute an electrical hazard commits an offence and shall be liable on summary conviction to a fine not exceeding £20.

Dated at Wellington this 8th day of July 1963.

E. B. MACKENZIE,

General Manager, New Zealand Electricity Department.

Under the Regulations Act 1936, statutory regulations of general legislative force are no longer published in the New Zealand Gazette, but are supplied under any one or more of the following arrangements:
(1) All regulations serially as issued (punched for filing), subscription £2 per calendar year in advance.
(2) Annual volume (including index) bound in buckram, 5s. per volume. (Volumes for years 1936-37 and 1939-42 are out of print.)
(3) Separate regulations as issued.
The price of each regulation is printed thereon.
