

## FIRST SCHEDULE

## FIRST SCHEDULE—continued

Former Tariff Decision Under Item 352	Part II Reference	Former Tariff Decision Under Item 352	Part II Reference
Cleaning machines for removing grease and dirt from articles by means of agitation in tanks of solvents	10.2	Confectioners'—	
Cloth working and clothing making—		Ball rolling or sizing machines for making ball shaped confectionery	10.1
Bandage making—		Batch rollers for toffee making	10.1
Gauze folding machines	10.2	Bonbon cutting and moulding plants, consisting of equalising, moulding, and cooling machines	10.1
Roll cutting machines	10.2	Bonbon heaters for use in keeping the material at the required temperature in making bonbons	10.1
Roll papering machines	10.2	Bonbon shaping machines	10.1
Roll trimming machines	10.2	Candy floss machines	10.1
Rolling and measuring machines	10.2	Caramel icing machines	10.1
Binding making machines for folding, winding, spooling, and measuring bias and other bindings, also spare electric elements therefor	10.2	Centre making machines for preparing centres for confectionery	10.1
Cloth cutting machines for cutting out garments, blinds, bindings, and similar articles from piece goods	10.2	Chocolate coating pans, electric	10.1
Cloth folding machines	10.2	Chocolate cooling machines for cooling chocolate bars, etc., in moulds	10.1
Cuff turning machines, electrically heated, for turning and pressing short cuffs	10.2	Chocolate drop presses, power driven, for pressing out confectionery into tablets and other shapes	10.1
Edge turning machines, specially suited for turning and pressing edges of collars, neckbands, and similar articles, ready for sewing	10.2	Chocolate moulding plants, including mould filling machines and shaking tables	10.1
Jackets, cylindrically woven, of felted textile, for use on clothing machine rolls	10.2	Chocolate piping and decorating machines	10.1
Moulding machines, collar point	10.2	Chocolate warmers, electric, air bath types	10.1
Notching or marking machines, textile for notching or placing chalk or other marks on textiles for the guidance of cutters or machinists	10.2	Cooling slabs or tables of cast iron or steel for cooling confectionery	10.1
Pinking machines, hand or power operated	10.2	Depositing machines for depositing or dropping chocolate or confectionery mixtures into moulds	10.1
Presses—		Drying ovens for confectionery	10.1
Edge, specially designed for pressing the edges of garments	10.2	Egg spinning machines, including steel baskets therefor, for use in making chocolate eggs	10.1
Electric, dry, for pressing garments or hosiery in factories or laundries	10.2	Enrobing or covering machines for covering centres with chocolate	10.1
Pads, cut to shape and identifiable as parts of clothing presses	10.2	Liquorice forcing machines	10.1
Shirt, including any air compressors and air receivers imported therewith	10.2	Liquorice paste cleaners or refiners, power operated, for cleaning and kneading the paste before using in the forcing machine	10.1
Steam heated—		Marshmallow beaters, consisting of revolving beaters inside double walled cylinders	10.1
Back and blade, combined	10.2	Moulds, chocolate, and confectionery	10.1
Canvas forming	10.2	Plaques, paper, for chocolate making machines, consisting of sheets of strong glazed paper shaped at one end and slotted, the slots being reinforced with linen and wired	10.1
Off pressing	10.2	Popcorn poppers	10.1
Side and back combined	10.2	Presses or guillotines for cutting confectionery into pieces	10.1
Sleeve	10.2	Pulling machines for working confectionery	10.1
Vest	10.2	Shaking tables for settling moulded chocolate and eliminating air therefrom	10.1
Shoulder forming	10.2	Stamping machines for stamping out lozenges, etc.	10.1
Steam heated, for pressing—		Starch bucks used for removing moulding starch from confectionery after the moulding operation is finished	10.1
Flat goods, hosiery, and knitwear		Starch sifters for sprinkling confectionery with starch during the moulding operation	10.1
Garments when (a) pneumatically controlled; or (b) fitted with unperforated pressing heads	10.2	Sugar sanding machines for sugar coating gum and jelly confections	10.1
Neckties	10.2	Conveyers—	
Trouser topping and legging, combined, steam-heated	10.2	Coal loaders, Jeffrey self-propelled, type 212A	10.2
Sanitary pad making machines	10.2	Conveyor chains, with or without attachment brackets, in which the rollers (a) are of greater diameter than the depth of the side-plates or (b) are offset so that they protrude on one side of the side-plates	10.2
Scissors or shears, electric, for cutting cloth	10.2	Conveyor chains, Renold's biplanar attachments and overhead trolleys for	10.2
Trimming machines for trimming, and removing by suction, loose threads from garments after manufacture	10.2	Conveyors, air actuated, for conveying powdered materials	10.2
Cocoa bean roasters	10.2	Conveyors, monorail overhead	10.2
Coffee roasting and cooling appliances	10.2	Conveyors, newspaper, specially suited for conveying newspapers from the press to the delivery tables	10.2
Concrete working—		Conveyors, roller, power or gravity operated	10.2
Cement or concrete guns (including trolleys and nozzles) also air receivers therefor, if imported therewith, and mounted or to be mounted on the same trolley	10.2	Conveyors, vibrating types	10.2
Concrete block and slab making machines for making hollow building blocks of concrete or similar material	10.2	Idlers, troughing and return, having rollers of 6 inches or greater diameter	10.2
Concrete mixers and agitators combined for mounting on motor trucks	10.2	Coolers, oil, for use with turbo-alternators	10.2
Concrete mixers having (a) fixed drums and revolving agitators; or (b) revolving drums and agitators which themselves rotate, (e.g., Cumflow mixers)	10.2	Cordial makers'—	
Concrete mixers having a capacity of 14 cu. ft. and over, dry mix	10.2	Syruping, filling, and crowning machines, automatic, including measuring taps therefor	10.2
Concrete mixers with built-in weigh batchers	10.2	Crown Seal Making—	
Felts, carrier, being endless belts of felted textile used in making asbestos-cement sheets	10.2	Stamping, feeding, and inserting machines, automatic, for stamping out the paper discs and inserting these and cork discs into the stamped out crown seals	10.2
Field drainage tile moulding machines, concrete	10.2	Drying apparatus, Edward's centrifugal freeze, for drying frozen material under high vacuum	10.2
Grouting machines for use in mixing cement, sand, and water, and delivering the mixture through a hose to aggregate previously placed in position	10.2	Drain cleaning apparatus consisting of flexible rods, worm screws, brushes, scrapers, spare points, etc.	10.2
Jolt ram machines, being vibrating tables for settling wet concrete in moulds	10.2	Drum heaters, being heated jackets for drums and used to facilitate removal of the contents	10.2
Plaster throwing machines	10.2	Dyeing—	
Road paving units, self-propelled, specially suited for mixing and distributing concrete in road making	10.2	Buckets, dye stocks, jugs, and pitchers of hard rubber, specially designed for use with dyes and acids	10.2
Stone forming and moulding machines, rotary including the conveyor therefor when imported therewith, for surfacing moulded concrete articles	10.2	Earth moving and road making—	
Vibrators, including magnetic controllers, spuds, handles, and vice clamps when supplied therewith as standard equipment therefor	10.2	Bitumen kettles or tanks, electrically heated	10.2
Wall building machines for moulding concrete walls in position	10.2	Brooms, road, mechanically operated	10.2
