

FIRST SCHEDULE

Former Tariff Decision Under Item 352	Part II Reference
Hammers, tack, automatic, treadle operated	10.2
Hatmakers' and hat renovators'—	
Curling bags, forcing rings, and press bags, of rubber	10.2
Plait mills for smoothing out straw plait before it is sewn	10.2
Heat exchangers (or wort coolers), Parafflow type and A.P.V. plate type	10.2
Helmets specially designed to protect workers from falling rocks, branches, etc., in mines, quarries, forests, etc., or for wear by pilots of aerial top-dressing aircraft	10.2
Hooks, cargo sling and swivel, when conforming to the General Harbour (Safe Working Load) Regulations 1935, or the N.Z. Power Crane Rules 1959	10.2
Hooks, swivel, ball bearing	10.2
Hose couplings, quick-release types, for use with compressed air or hydraulic oil lines	10.2
Hose, steam, flexible metal, with steam-tight fittings permanently attached	10.2
Infrared heating units comprising infrared heating elements or bulbs mounted in holders and designed for industrial heating purposes. (Examples: paint drying, preheating plastics, drying printed textiles, drying foundry moulds)	10.2
Insulators and fittings—	
Bushings, vulcanized fibre, peculiar to use with cable connectors	10.1
Cleats, cable rack, for supporting high tension cables in power houses	10.1
Cleats, porcelain, for supporting electric cables, consisting of two or more pieces of porcelain held together by bolts or metal frames	10.1
Hangers, straight line, single pull-off and double pull-offs, section insulators, and insulated hangers, for electric tramway power lines	10.1
Insulators—	
Busbar, porcelain, all voltages	10.1
Bush, porcelain, all voltages	10.1
Leading through, flanged and/or corrugated, for leading electric currents through walls, switchboard panels, etc.	10.1
Other than porcelain or glass, including hangers and insulated bolts combined, in which the insulation is moulded into the hanger, peculiar to use on the overhead equipment of tramways	10.1
Pillar, all voltages	10.1
Pin type transmission line, having a dry flash-over voltage of 100,000 or upwards as determined according to the regulations of the British Engineering Standards Association, and using a standard sphere spark gap as defined in those regulations	10.1
Post, all voltages	10.1
Renewable underrun section, including runner pieces for use therewith, for use on overhead tramway trolley wires	10.1
Shrouds, insulating, for line taps and other cable connectors	10.1
Strain, having a dry flash-over voltage of 75,000 or upwards as determined according to the regulations of the British Engineering Standards Association, and using a standard sphere spark gap as defined in those regulations	10.1
Suspension, glass or porcelain, all voltages, including weights therefor	10.1
Wood strain, being dumbbell shaped with metal fitting at each end	10.1
Mechanical ears, including insulated bolts, hangers, and packing washers therefor, for supporting the conductor conveying the current to the motor of an electric hoist	10.1
Metalwork peculiar to use with high voltage suspension and strain insulators	10.1
Pins, insulator, pole top	10.1
Racks and extension racks (metal bar or rod with spaces and brackets to hold the insulators) of galvanised iron, peculiar to use with high voltage insulators	10.1
Rainshed, porcelain, flanged, for bushings or insulators for transformers	10.1
Straps, galvanised iron, peculiar to use with suspension insulators	10.1
Jackets, cylindrically woven, of felted textile, for covering machine rolls	10.2
Kilns—	
Cement making, rotary	10.2
Fish and meat smoking, gas or electrically heated	10.2
Pottery burning and china painting	10.2
Timber drying	10.2
Tires, cast, of chrome-vanadium steel, for rotary kilns	10.2

The rates of duty applicable under Part II Reference are:

	B.P.	Aul.	Can.	MFN.	General
10.1	Free	15%S	25%
10.2	Free	20%S	25%

SECOND SCHEDULE

FORMER TARIFF DECISION UNDER ITEM 352

Blow guns for use on compressed air lines.
Hatmakers' and hat renovators'—
Blocking and renovating machines, not including steam boilers for use therewith.

SECOND SCHEDULE—continued

FORMER TARIFF DECISION UNDER ITEM 352

Boilers and steamers combined, including sandbags, peculiar to use in renovating hats.
Hat and cap stretching machines and appliances.
Hat blocks.
Hat crown finishing machines.
Irons, hatters', unsuited for general use.
Proof breaking machines for softening hat hoods and collecting dust therefrom.
Trimming and rounding machines.
Ice cream—
Baggers, Anderson portable.
Ice crushing mills.
Infrared lamp bulbs, other than those specially designed for therapeutic use.
Instruments, recording and non-recording, capable of being set to maintain automatically at a predetermined level, temperature, humidity, liquid level, pressure, or any combination of these conditions; also valves specially designed for operation by such control instruments through the medium of electricity or pressure.
Insulators and fittings—
Link units for distribution boxes, consisting of insulator connector, cap, gland, and bonding clamp.
Thimbles, aluminium, for use on high tension electric cables.
Kilns—
Floors, wedge wire, including underbed, for malting kilns.
Dated at Wellington, this 22nd day of August 1963.
J. F. CUMMINGS, Comptroller of Customs,
(Tariff Decision Review Notice 1963/4)

Releasing Land from the Provisions of Part XXIV of the Maori Affairs Act 1953 (Hokianga Development Scheme)

PURSUANT to section 332 of the Maori Affairs Act 1953, the Board of Maori Affairs hereby declares that on the date of the publication of this notice in the *Gazette*, the land described in the Schedule hereto shall cease to be subject to the provisions of Part XXIV of the Maori Affairs Act 1953, the said land being so subject by virtue of a notice dated 15 September 1930 and published in the *Gazette*, 25 September 1930, Volume III, page 2850.

SCHEDULE

NORTH AUCKLAND LAND DISTRICT

Land	Block and Survey District	Area
