

FIRST SCHEDULE—continued

	Part II
Review of Former Tariff Concession Under Item 352 Reference	
Laundry and Dry Cleaning—continued	
Ironing Machines—continued	
Starching machines for applying starch to garments	10.2
Steamers, shoulder	10.2
Tables—	
Blocking or steaming	10.2
Shirt folding	10.2
Steaming, being steam-piped tables fitted with rows of steam holes in the table tops whereon garments are ironed by hand	10.2
Tubes, collar, porcelain lined, steam heated, for airing ironed collars	10.2
Tumblers, benzene drying	10.2
Tumblers or shakers (similar to rotary washing machines), for separating articles coming from hydro-extractors	10.2
Leatherworking—	
Drying and samming machines, conveyor type	10.2
Drying machines for drying leather	10.2
Pinking machines	10.2
Toggles, hooks, and other appliances specially suited for attaching hides and skins to stretching frames	10.2
Locomotives, steam, articulated, direct driven	10.2
Malt-conveying plant, pneumatic, including vacuum pump, dust collector, portable and fixed dischargers, spreaders, junction valves, and nozzles	10.2
Malt-polishing machines, incorporating rotary screens and revolving brushes, used to remove the husks from the grain	10.2
Margarine workers	10.2
Mattress making—	
Beating machines for beating mattresses preparatory to their being buttoned	10.2
Cutting machines for punching holes in the ticking of the side walls of mattresses to which handles are to be attached	10.2
Filling machines, pneumatic, including jigs therefor, for filling mattresses	10.2
Pickers and fillers for teasing fibre, hair, and similar material, and filling it into mattresses	10.2
Tufting machines, pneumatic, for compressing mattresses so that the tufts can be inserted	10.2
Meatworks appliances—	
Aprons and arm guards, steel mesh, specially designed to protect workers in abattoirs and freezing works	10.2
Cookers, ham and beef, other than those suitable for domestic use	10.2
Cookers or digesters of less than 1 ton capacity, for rendering-down meat offal	10.2
Crushers, casing	10.2
Expellers for separating fat from offal by means of pressure	10.2
Flaying machines for skinning animals	10.2
Lard chilling drums, including valves, and pumps peculiar to use therewith	10.2
Nozzles, brine spray	10.2
Openers, beef aitch bone	10.2
Presses, meat, other than those designed for domestic use	10.2
Pullers, cattle tail	10.2
Saws, band, travelling table type, for cutting up beef carcasses	10.2
Saws, carcass splitting, for use at abattoirs, including the overhead gear consisting of balancing weights, beam with sheaves, overhead trolley, and suspending eye bar, peculiar thereto	10.2
Sheeps' head splitting machines	10.2
Mixing and stirring—	
Mixing or stirring apparatus, consisting of a motor driven propeller or agitator, for attachments to tanks, etc.	10.2
Sifting and mixing machines, combined, for sifting and blending powdered materials	10.2
Mops and bobs, circular, polishing, of any material, for mounting on power-driven spindles	10.2
Motors, electric outboard marine	10.2
Motors, or cylinders, compressed air	10.2
Moulds and mandrels for packing bitumen around the interior and exterior surfaces of pipe joints	10.2
Mountings, anti-vibration, for machinery. Examples: Silentbloc mountings; Barrymounts	10.2

FIRST SCHEDULE—continued

	Part II
Review of Former Tariff Concession Under Item 352 Reference	
Mountings, universal, for machines, radios, typewriters, etc., undergoing repair or examination, and which may be locked hydraulically in any desired position	10.2
Oil refiners for reconditioning used lubricating oil by distillation and filtration	10.2
Ovens for preheating plastic material prior to moulding	10.2
The rates of duty applicable under Part II Reference are:	
	B.P. Aul. Can. MFN. General
10.1	Free 15%S 25%
10.2	Free 20%S 25%

SECOND SCHEDULE

FORMER TARIFF DECISION UNDER ITEM 352

Laundry and dry cleaning—
Aprons, laced cotton, being conveyors specially suited for power-driven laundry mangles and ironing machines.
Bags, laundry net.
Cloths, laundry press, shaped and sewn, composed of or containing asbestos yarn.
Ironing machines—
Bands, felted, peculiar to use with ironing machines.
Marking machines specially suited for marking garments in laundries.
Leatherworking—
Backing presses, electrically heated, for applying a backing cloth to leather.
Boarding machines.
Body ironers.
Brushing machines for finishing leather.
Cutting machines for hat leathers.
Dock forming and stretching machines.
Dock stuffing machines.
Embossing and ironing machines.
Fleshing bolsters of rubber, for tanners' use.
Fleshing machines including knives peculiar to use therewith.
Harness loop-creasing outfits.
Heading table, a machine for shaping horse collars during the process of manufacture.
Horse collar leather blocking machines.
Kicking machines for use in the curing of pelts.
Leather glazing machines.
Leather shaving machines, and blades, and metal tapes therefor.
Legging blocking machines.
Link and washer cutting machines.
Press knives for cutting out—
Leather portions of braces and suspenders.
Leather to shapes for gloves.
Printing plates, pebble grain.
Rolling machines, leather.
Samming machines, being setting-out roller presses (also quirin sleeves therefor) for use by tanners.
Seasoning machines, serial table type, for applying liquid dressing to leather.
Setting out machines.
Splitting machines.
Staking machines used by tanners to make leather pliable after tanning.
Strap cutting machines.
Strap punching machines.
Strap turning machines.
Trace burnishing machines.
Trace trimming machines.
Turning machines, used in making leather gloves to turn the glove fingers inside out.
Unhairing machines for tanneries.
Washing machines, skin.
Load binders, being lever-operated devices used to tighten chains, etc., around logs, timber, etc., on trucks.
Lubricators and grease cups, including pumps forming an integral part thereof.
Lubricators, flip-flap, and grease nipples, for bicycles.
Lubricators, tub-axle, automatic, for installing on railway tracks in coal mines.
Magnetic unlocking machines, being electro-magnets with foot-controlled switches, used in unlocking the accumulator cases of miners' electric safety lamps for the purpose of removing and recharging the accumulators.
Moulds, machine or hand, for use in manufacturing processes (e.g., making lipsticks, suppositories, pessaries).
Dated at Wellington this 5th day of September 1963.
J. F. CUMMINGS, Comptroller of Customs,
(Tariff Decision Review Notice 1963/5)

Notice Under the Regulations Act 1936

PURSUANT to the Regulations Act 1936, notice is hereby given of the making of regulations as under:

Authority for Enactment	Short Title or Subject-matter	Serial Number	Date of Enactment	Price (Postage Free)
Section 302 of the Customs Act 1913 and section 6 of the Customs Acts Amendment Act 1961	Cook Islands Customs Duties Order 1962, Amendment No. 1	1963/158	28/8/63	6d.
Section 12 of the Customs Amendment Act 1921 and sections 5 and 6 of the Customs Acts Amendment Act 1961	Customs Tariff Amendment Order (No. 4) 1963	1963/159	28/8/63	2s. 6d.
Meat Act 1939	Meat Regulations 1940, Amendment No. 14	1963/160	3/9/63	6d.
