Dated at Wellington this 24th day of February 1965.

PERCY B. ALLEN, Minister of Works.

(P.W. 31/1587; D.O. 13/1/24)

Declaring Areas to be Access Lanes for the Purposes of the Motor Launch Regulations 1962

PURSUANT to the Motor Launch Regulations 1962, the Minister of Marine hereby declares that for a period of five years from the date hereof, subject to compliance with the conditions set out in the Second Schedule hereto, the areas of water firstly and secondly described in the First Schedule hereto shall be access lanes, and that within such access lanes regulations 11 and 12 of the Motor Launch Regulations 1962 shall not apply.

FIRST SCHEDULE

FIRSTLY, all that area of water in Akaroa Harbour bounded on the sides by parallel lines 150 yards apart extending in a south-easterly direction 200 yards from the edge of the water, the southern boundary commencing approximately 130 yards north of the southern junction of the Wainui Main Road and the Wainui Cemetery Road.

Secondly, all that area of water in Children's Bay, Akaroa Harbour, bounded on the sides by parallel lines 400 yards apart extending in a 170° direction, the eastern boundary extending out 330 yards from the edge of the water in line with the point where the western bank of the creek discharging into the bay meets high-water mark and the western boundary extending out 220 yards from the edge of the water.

SECOND SCHEDULE

THE access lanes shall be marked as follows:

1. Marker buoys, either barrel, drum, or spherical shaped, painted orange with a vertical black stripe, each 50 yards apart commencing 50 yards from high water mark shall be suitably moored along each side of the access lane.

2. At high-water mark on the foreshore at each side of each access lane in line with the marker buoys there shall be placed a notice board measuring not less than 2ft 6in. by 2ft painted white with black letters.

3. The aforesaid notice boards shall contain the following notice:

"NOTICE

Motor Launch Regulations 1962

Access lane through which motor launches and water skiers may pass at speeds greater than 5 miles per hour.

BATHERS KEEP OUT"

Dated at Wellington this 26th day of February 1965.

W. J. SCOTT, Minister of Marine.

Licensing Aorangi Fellmongery (Timaru) Ltd. to Use and Occupy a Part of the Foreshore and Bed of the Sea at Washdyke as a Site for an Effluent Outfall

PURSUANT to the Harbours Act 1950, the Minister of Marine hereby licenses and permits Aorangi Fellmongery (Timaru) Ltd. (hereinafter called the licensee, which term shall include its successors or assigns, unless the context requires a different construction) to use and occupy a part of the foreshore and bed of the sea at Washdyke, as shown on plan M.D. 11962 and deposited in the office of the Marine Department at Wellington, for the purpose of erecting and maintaining an effluent outfall thereon, as shown on the said plan, such licence to be held and enjoyed by the licensee upon and subject to the terms and conditions set forth in the Schedule hereto.

SCHEDULE

1. This licence is subject to the Foreshore Licence Regulations 1960 and the provisions of those regulations shall, so far as applicable, apply hereto.

2. The premium payable by the licensee shall be five pounds and the annual sum so payable three pounds.

3. The term of the licence shall be 14 years from the 1st day of March 1965.

Dated at Wellington this 3rd day of March 1965.

W. J. SCOTT, Minister of Marine.

(M. 4/5613)

Electrical Wiring Regulations 1961—Electrical Apparatus Which May Constitute an Electrical Hazard

PURSUANT to regulation 8 of the Electrical Wiring Regulations 1961, notice is hereby given that:

1. The apparatus described below may, in my opinion, constitute an electrical hazard.

Description: Three-pin flat-pin type 10 amp. plugs constructed from moulded thermoplastic material in two parts, the two parts being held together without the use of screws or the like.

2. The possible electrical hazard arises from the similarity in construction of these plugs with the prohibited two-piece rubber plugs that have been the cause of fatal electrical accidents in New Zealand. The cover portion over the terminals of these thermoplastic plugs is intended to be secured to the body portion by being a tight fit when pressed into position, but with age or when damaged the cover is considered likely to become sufficiently loose that it could slip off accidentally and thus expose live terminals.

3. The plugs also fail to comply with the following requirements of New Zealand Standard Specification 198: 1958 3-pin flat-pin plugs, plug-sockets, tap-ons, and cord extension sockets with 10 amp, 250 volt (maximum) rating:

Clause 4—Materials and construction.

Clause 11—Identification of contacts and pins.

Compliance with N.Z.S.S. 198 is a statutory requirement for such plugs.

4. These plugs are likely to be found connected to the flexible cord of portable appliances manufactured in Australia.

5. All persons who have purchased appliances fitted with the above-mentioned plugs should arrange for the plugs to be replaced with ones of a safe type immediately and destroy the unsafe ones.

6. Every person who sells or offers for sale any apparatus which in the opinion of the General Manager of the New Zealand Electricity Department constitutes or may constitute an electrical hazard commits an offence and shall be liable on summary conviction to a fine not exceeding £20.

Dated at Wellington this 4th day of March 1965.

E. B. MACKENZIE,

General Manager, New Zealand Electricity Department.
