- (a) Each box of butter containing a net weight of 56 lb 2 oz of actual butter, excluding wrapping paper, shall, subject as hereinafter provided, be computed at 56 lb:
- (b) The weight of all butter in any such consignment shall be determined on the basis of the weight as ascertained by the grader of the several boxes selected by him for weighing and set out in the Grader's Certificate issued in respect of that consignment, and the boxes of butter so weighed shall be taken as fixing the average weight for the whole quantity of butter comprised in such certificate, overweights being averaged with underweights in each such certificate in relation to the prescribed weight of 56 lb 2 oz per box:

6. The price to be paid by the Board for any butter which, with the approval or at the request of the Board, is manufactured, prepared, or packed in special containers, or in special quantities, or otherwise in any special manner, shall be the appropriate price payable for that butter as hereinbefore provided adjusted by such appropriate addition or reduction as corresponds with the additional costs or the reduced costs incurred in such special manufacture, preparation, or packing. Any such approval or request of the Board may include a stipulation limiting the additional cost to be incurred and may dispense with the requirements of paragraphs 3 and 4 hereof, and, in that event, payment shall be made for the actual net weight of the butter exported. The adjustment to prices referred to in this paragraph shall be computed by the Board and the computation of the Board shall be final.
