

Tariff Item No.	Classes of Goods
93.07.45	Metal cups for the manufacture of cartridge cases.
93.07.46 }	Parts of cartridge cases, including tubes for the manufacture of cartridge cases; cartridge wads.
93.07.47 }	
93.07.49	Shot and bullets.
Ex 96.02.19	Pipe cleaners.
Ex 98.01.12	Collar studs; blanks and parts thereof.
98.01.19	Press fasteners, including snap-fasteners and press studs; blanks and parts thereof.
Ex 99.05.00	Natural-history specimens, and ethnological or similar specimens.

## SECOND SCHEDULE—EXEMPTIONS CREATED

*Classes of Goods*

Alginic acid and its salts and esters.  
 Arsenic sulphides, natural.  
 Asbestos, crude, washed or ground.  
 Bananas and plantains, fresh.  
 Barium Sulphate, natural (Barytes), and barium carbonate, natural (Witherite), whether or not calcined, other than barium oxide.  
 Bearings, ball, roller or needle roller.  
 Benzol, toluol, xylol.  
 Blades, safety razor.  
 Borates, crude, natural, and concentrates thereof (calcined or not) but not including borates separated from natural brine.  
 Boric acid, crude, natural, containing not more than 85 percent of  $H_3BO_3$  calculated on the dry weight.  
 Bottles, infants feeding.  
 Butter, fresh, whether salted or not, including melted.  
 Calcium phosphates, natural, mineral; natural mineral calcium phosphates, apatite, and phosphatic chalk.  
 Caustic soda (sodium hydroxide) in packages exceeding 7 lb.  
 Cements, dental, and other dental fillings.  
 Cheese and curd.  
 Chiolite, natural.  
 Cocoa beans, raw.  
 Cocoa butter (fat or oil).  
 Coffee, raw.  
 Colouring matter of vegetable origin (including dyewood extract and other vegetable dyeing extracts but excluding indigo) or of animal origin.  
 Colour lakes.  
 Colours, earth, whether or not calcined or mixed together; natural micaceous iron oxides.  
 Communion wafers.  
 Cryolite, natural.  
 Dyestuffs, synthetic organic (including pigment dyestuffs).  
 Felspar, leucite, nepheline and nepheline syenite; fluorspar.  
 Fishhooks, unmounted, and without attachments.  
 Flux, limestone, and calcereous stone, commonly used for the manufacture of lime and cement.  
 Fruits, dried (except citrus and apple) including artificially dehydrated.  
 Fuses, blasting, mining and safety.  
 Graphite, natural.  
 Guano and other natural animal or vegetable fertilisers, whether or not mixed together, but not chemically treated.  
 Gypsum, crude; anhydrite.  
 Indigo, natural.  
 Isinglass.  
 Lacs (including shellac, seed lac and stick lac), natural gums, resins, gum-resins, and balsams.  
 Meat, fresh, frozen, or chilled, of bovine animals, sheep, goats, swine, horses, asses, mules and hinnies.  
 Meerschau (whether or not in polished pieces) and amber; agglomerated meerschau and agglomerated amber, in plates, rods, sticks or similar forms, not worked after moulding; jet.  
 Mica, including splittings, powdered mica, and mica waste.  
 Motor spirit in containers of a capacity of one gallon or more.  
 Napthenic acid.  
 Offals, edible, fresh, frozen, or chilled, of sheep, goats, swine, and bovine animals.  
 Oils, essential (terpeneless or not), excluding hop oil; concretes and absolutes; resinoids.  
 Oils, natural essential, mixtures of.  
 Oils, natural and synthetic essential, mixtures of; mixtures of synthetic esters and ethers.  
 Oils, crude, obtained from bituminous materials.  
 Oils, crude petroleum.  
 Opium, crude.  
 Optical bleaching agents, products of the kind known as, substantive to the fibre.  
 Ozokerite, whether or not coloured.  
 Passover bread.  
 Pearl essence.  
 Petroleum, partly refined, including topped crude.  
 Pigments, prepared, prepared opacifiers and prepared colours, vitrifiable enamels and glazes, liquid lusters and similar products, of the kind used in the ceramic, enamelling, and glass industries; engobes (slips); glass frit and other glass, in the form of powder, granules or flakes.  
 Poultry liver, fresh, frozen, chilled, salted, or in brine.  
 Propellant powders and prepared explosives.  
 Pyrethrum extract and extract of roots and plants containing rotenone.  
 Pyrethrum flowers, hellebore, derris root.  
 Quartz and quartzite, natural.  
 Rivets, aluminium.  
 Salt, iodised.  
 Sausage casings, made from the gut of animals (except fish).  
 Sponges, natural.  
 Steatite, natural; talc.  
 Sulphur in bulk, other than sublimed, precipitated or colloidal.  
 Synthetic organic products of a kind used as luminophores.  
 Synthetic sweetening substances (including Saccharin) in tablets or other dispensable forms.  
 Tanning extracts of vegetable origin.  
 Tannins (Tannic acids) including water extracted gall-nut tannin and their salts, ethers, esters, and other derivatives.  
 Tea in packages of 5 lb nett weight or over.  
 Terpenic by-products of the deterpenation of essential oils.  
 Wax:  
   Insect (except beeswax) whether or not coloured.  
   Japan.  
   Lignite, whether or not coloured.  
   Micro-crystalline, whether or not coloured.  
   Mineral, whether or not coloured.  
   Myrtle.  
   Paraffin, whether or not coloured.  
   Peat, whether or not coloured.  
   Slack, whether or not coloured.  
   Vegetable, whether or not coloured.
