Notes
1. This declaration comes into effect upon first publication in a newspaper circulating in the infected area described. Its purpose is to prevent the general spread of Pine needle blight into parts of New Zealand not yet seriously affected.
2. The declaration makes it an offence, carrying a fine or imprisonment on conviction, to remove any "Xmas tree" material (branches, etc.) out of the declared area, if these are of pine or Douglas fir species, as this is a very likely way to spread the disease to other places.
3. The "infected area" out of which these plants and Christmas trees may not be removed is generally the large area lying west of the main ranges between Auckland City and Wellington City, also Gwahae State Forest and the Waimau County area. Movement within the area is authorised.
4. The regulations exempt from this restriction cases where the plants or Xmas trees have been treated in accordance with specifications prescribed in writing by an authorised forest officer. Inquiries should be addressed to the nearest Conservator of Forests.

Auditors' Report

We have obtained all the information and explanations that we have required. In our opinion, proper books of account have been kept by the company so far as appears from our examination of those books. In our opinion, and to the best of our information and the explanations given to us, as shown by the said books, the balance sheet and the profit and loss account are properly drawn up so as to give respectively, a true and fair view of the state of the company's affairs as at 5 October 1966, and of the result of its business for the 27 weeks' period ended on that date.

According to such information and explanations, the accounts, the balance sheet, and the profit and loss account give the information required by the Companies Act 1955, in the manner so required.
