1. NOTES

1. This declaration comes into effect upon first publication in a newspaper circulating in the infected area described. Its purpose is to prevent the general spread of Pine needle blight into parts of New Zealand not yet seriously affected.

2. The declaration makes it an offence, carrying a fine or imprisonment on conviction, to remove plants or "Xmas tree" material (branches, etc.) out of the declared area, if these are of pine or Douglas fir species, as this is a very likely way to spread the disease to other places.

3. The "infected area" out of which these plants and Xmas trees may not be removed is generally the large area lying west of the main ranges between Auckland City and Wellington City, also Gwavas State Forest and the Waimea County area. Movement within the area is authorised.

4. The regulations exempt from this restriction cases where the plants or Xmas trees have been treated in accordance with specifications prescribed in writing by an authorised forest officer. Inquiries should be addressed to the nearest Conservator of Forests.
