

Tariff Notice No. 1968/67—Applications for Approval

NOTICE is hereby given that applications have been made for the approval of duty by the Minister of Customs as follows:

Appn No.	Tariff Item	Goods	Rates of Duty			Part II Ref.																																																												
			B.P.	MFN.	Gen.																																																													
2854	30.03.09	Pendipan, formerly called Streptipenprocaine Leo injection, a medicament containing: Procaine benzylpenicillin 200,000 i.u. Dihydrostreptomycin 250 mg packed in 50 ml vials for veterinary use	Free	20%	25%	23.1																																																												
2855	30.03.09	Pendipan Forte, formerly called Streptipenprocaine with Delcortin Leo injection, a medicament containing: Procaine benzylpenicillin 200,000 i.u. Dihydrostreptomycin 250 mg Prednisone 5 mg packed in 50 ml vials for veterinary use	Free	20%	25%	23.1																																																												
2856	34.02.00	Afilan RCV type 237, a mixture of oxethylated products used for the initial preparation of synthetic filaments	Such rate not exceeding 25% .. 25% as the Minister may in any case direct			10.8																																																												
2857	34.02.00	Dowfax 2A1, a sodium salt of dodecylated oxydibenzene disulphonate used in synthetic resin emulsions	Such rate not exceeding 25% .. 25% as the Minister may in any case direct			10.8																																																												
2858	34.02.00	Emulsogen EL, a non-ionic fatty acid polyglycol ester for the preparation of oil-in-water emulsions of liquid fatty acids, waxes, and some organic solvents	Such rate not exceeding 25% .. 25% as the Minister may in any case direct			10.8																																																												
2859	34.02.00	Emulsogen LP, a non-ionic Alkly polyglycol ether used for the emulsification of paraffin	Such rate not exceeding 25% .. 25% as the Minister may in any case direct			10.8																																																												
2860	34.02.00	Gluvfat 707 Solvent Oil 115 2550 Oil Seabophil No. 10 Sulcod	} being sulphonated oils used in the tanning of leather Such rate not exceeding 25% .. 25% as the Minister may in any case direct			10.8																																																												
2861	34.02.00	Leomine Extra 237, a fatty acid polyglycol ester preparation agent for man-made textile fibres	Such rate not exceeding 25% .. 25% as the Minister may in any case direct			10.8																																																												
2862	34.02.00	Leomine HSG type 237, a modified fatty acid polyglycol ester preparation agent for man-made fibres	Such rate not exceeding 25% .. 25% as the Minister may in any case direct			10.8																																																												
2863	34.02.00	Leomine SP highly conc., an amino acid derivative plus polyglycol ether for use as a preparation and lubricating agent in worsted spinning	Such rate not exceeding 25% .. 25% as the Minister may in any case direct			10.8																																																												
2864	34.02.00	Leomine ST type 237 and STN type 237, being preparation agents for man-made textile fibres and composed of nitrogenous fatty-acid polyglycol esters	Such rate not exceeding 25% .. 25% as the Minister may in any case direct			10.8																																																												
2865	34.02.00	Sapogenat T grades, tribulyphenol-polyglycol ether	Such rate not exceeding 25% .. 25% as the Minister may in any case direct			10.8																																																												
2866	38.14.09	Kleenfuel A.S., a liquid metal oxide additive for fuel oils, which reduces sulphur trioxide in flue gases and absorbs water in fuel, etc.	Free	20%	25%	10.2																																																												
2867	39.03.83	Cellulose acetate sheet suited for making spectacle frames	Free	..	Free	..																																																												
2868																																																																		
2869
