

2. It is an offence to remove plants or Christmas tree material (branches, etc.) out of the "infected area", if these are of exotic pine, Douglas fir, or larch species and have not been treated as specified by an authorised forest officer.

3. The "infected area" is now generally the whole of the North Island excluding the Kaitia Borough and the Mangonui and Great Barrier Counties. In the South Island the "infected area" is all that land in Nelson and the Marlborough Sounds to the west of the Wairoa Valley and the Westland Land District north of Harihari. Movement within the "infected area" is authorised with the exception that untreated exotic pine, Douglas fir, and larch material may not be moved from the areas listed in paragraph 2 (c) of the declaration (which is generally the large area lying between Auckland City and Wellington City and the area east of the main ranges between Wairoa and Takapau) into other parts of the "infected area".

4. Inquiries should be addressed to the nearest Conservator of Forests.
