Notice Setting out the Requirements for the Importation of Agricultural and Vegetable Seeds, Stock Feeds, and Related Products

(Please see Notice No. 513 Ag. 31005)

Pursuant to the Introduction and Quarantine of Plants Regulations 1973, and the Stock Foods and Agricultural Seeds Importation Regulations 1958, the Director-General of Agriculture and Fisheries hereby gives the following notice.

**NOTICE**

1. **Title**—This notice may be cited as the Importation of Agricultural and Vegetable Seeds Notice 1973.

2. **Permits Required**—(1) A prior permit from the Director-General of Agriculture and Fisheries to import any item is required where the word "Permit" appears in column 1 of the Schedule beside that item, or where the item does not appear in the Schedule. A permit may be issued subject to such conditions (where the conditions are reasonably stable these are indicated in the Schedule) as the Director-General thinks fit.

   (2) Applications for permits to import any item shall be made to the Director-General, Ministry of Agriculture and Fisheries, P.O. Box 2298, Wellington, and shall be accompanied by the following information:
   
   a. The name and address of the importer.
   b. The variety of the seed, including the botanical name if possible.
   c. The quantity required.
   d. A declaration as to the end use.
   e. The country or place from which it is proposed to import the seed.

3. **General Consent**—Where the word "Consent" appears in column 1 of the Schedule beside any item, the importation of that item is permitted subject to compliance with the conditions listed in columns 4 to 14 inclusive in respect of that item.

(Note—The Introduction and Quarantine of Plants Regulations 1973, provide that no agricultural seed (including vegetable, herb, etc.) can be introduced without a prior permit to import from the Director-General. This notice indicates the likely conditions for the issue of permits, and the items currently under general consent, but the Director-General may withdraw his consent for the importation of any item specified or vary the conditions of entry without prior notice.

The Regulations provide for a fine of up to $500 on conviction for any breach under the regulations, including any false declaration. Persons wishing to be put on the mailing list for any subsequent amendments to this Schedule, should send their names and addresses to the Chief Investigating Officer, Ministry of Agriculture and Fisheries, P.O. Box 2298, Wellington.)

**SCHEDULE**

**NOTES ON THE SCHEDULE AND EXPLANATION OF TERMS AND HEADINGS**

**Column 1** denotes whether a permit is necessary, or whether the Director-General has given his consent to the importation. An asterisk in this column denotes that the importation will be considered in respect of each application having regard to the supply situation in New Zealand, and the variety and strain of the seed it is desired to import. In general terms, where the application is regarded as of an isolated nature it will be decided upon its individual merits, and where importation might be necessary on a wider scale all merchants may be given an opportunity to indicate their import requirements before finalising any individual application. Where an X appears in the column, this means that import is not permitted.

**Column 2** lists the common names of products.

**Column 3** gives the botanical name where appropriate.

**Column 4** specifies the declared end uses for which conditions are given. Any other use not specifically provided for is subject to a prior permit.

**Column 5** denotes whether quantity is limited or whether any amount may be imported.

**Column 6** specifies the particular cultivars permitted where these are restricted.

**Column 7** specifies the sources from which items may be imported. "Approved" countries are Europe, United States, Canada, Japan, Republic of South Africa, and Australia. Importation from other countries where "Approved" appears in the source column may be considered on application.

**Column 8** denotes the packaging certificate required, the form of which is set out in section I of Part B of the Schedule.

**Column 9** specifies whether a veterinary certificate is needed, the form of which is set out in section II of Part B of the Schedule.

**Column 10** specifies whether an International Health Certificate is needed. The form is set out in section III of Part B of the Schedule.

**Column 11** prescribes the endorsement required on the International Health Certificate. The endorsement numbers relate to the appropriate diseases listed in section III of Part B of the Schedule.

**Column 12** denotes the need for a treatment certificate, the general form for which is specified in sections V-VIII of Part B of the Schedule.

**Column 13** prescribes the requirement for a Purity and Germination Analysis Certificate, the form of which is set out in section IV of Part B of the Schedule.

**Column 14** denotes whether some form of post-entry control may be exerted after the seed is landed. This could take various forms, from an assurance that the seed will be kept under secure conditions by the importer, to the issue of a Plant Quarantine Permit, depending upon the type of seed and its end use.
