

ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees. No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori.

This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old-time Maori life which can be extended by further reading.

Price: \$6.50.

METRICS FOR JOHN AND JANE CITIZEN

By JAMES MCGILL WEBB

As the name implies this book is written for use by the layman rather than the technician, the engineer or the scientist. This book does not include conversion tables but rather relates to metric units and their use, comparisons of size, and includes a wide range of metric information.

How big is a litre? What is a kilopascal? When will I use a centimetre? What will I buy in kilograms? Why is New Zealand going metric? If these and similar questions are causing you concern, this book will provide the answers.
