Poultry Entitlement Levy—Determination of Nature and Incidence (No. 1140 Ag. 2021)

PURSUANT to regulation 75b of the Egg Marketing Authority Regulations 1953, as inserted by regulation 15 of the Egg Marketing Authority Regulations 1953, Amendment No. 11, the Egg Marketing Authority gives notice of the nature and incidence of the entitlement levy which it has determined, as follows:

ASSESSMENT OF LEVY

(a) A fixed levy of 30c per annum in respect of each laying bird authorised to be kept pursuant to an entitlement licence during the year ended on 30 June 1975 provided that in respect of each laying bird authorised to be kept for any period of less than any such year the levy shall be reduced in proportion to that period:

(b) A variable levy, commencing on 1 July 1974, in respect of each laying bird authorised to be kept pursuant to an entitlement licence during any statistical period when levies on eggs ("floor downpayments") approved under regulation 65 (2) of the Egg Marketing Authority Regulations 1953 are being deducted from the proceeds of eggs consigned to licensed distributors for sale; the rate of variable levy for any statistical period being 15 times the rate of "floor downpayment" per dozen eggs for that period divided by 12; for this purpose "statistical period" means any one of 12 periods, each of either 4 or 5 weeks, into which each year is divided by the Authority for statistical and accounting purposes; provided that in respect of each laying bird authorised to be kept during part of any statistical period the rate of variable levy shall be reduced in proportion to that part:
(c) The fixed levy (a) and the variable levy (b) shall both apply in respect of 80 percent only of the maximum number of laying birds which any person is authorised by an entitlement licence to keep during the periods in respect of which the levies are payable.

(d) The total amount of fixed and variable levies imposed in the year ending on 30 June 1975 shall not exceed S2 in relation to each bird authorised to be kept under an entitlement licence.

**PAYMENT OF LEVY**

(e) Levies assessed and payable as above shall be debited in the books of the Authority to the accounts of the entitlement holders concerned.

(f) Debits for the fixed levy to each account during the 2 years ending 30 June 1976 shall be totalled; amounts of fixed levy charged to the entitlement holder concerned pursuant to regulation 76 of the Egg Marketing Authority Regulations 1953 for the same period shall also be totalled and, if the total charged for fixed levy exceeds the total charged for fixed levy no fixed levy shall be due; the amount by which the total of fixed levy exceeds the total of fixed levy payable by the holder shall be determined at the date of revocation in accordance with the above procedure and such balance shall be paid to the Authority not later than 3 months thereafter.

(g) Debits for the variable levy charged to each account during the period from 1 July 1974 to 30 June 1975 shall be totalled; amounts of "floor downpayments" deducted from the proceeds of eggs consigned during that period by the entitlement holder concerned to a licensed distributor for sale shall also be totalled and, if the total of such "floor downpayments" equals or exceeds the total charged for variable levy, no variable levy shall be due; the amount by which the total of variable levy exceeds the total of "floor downpayments" shall be paid to the Authority by the entitlement holder not later than 30 September 1975; provided that on the revocation of an entitlement licence any balance of variable levy payable by the holder shall be determined as at the date of revocation in accordance with the above procedure and such balance shall be paid to the Authority not later than 3 months thereafter.

**PORMULATIVEN LEVY**

(h) Debits for the variable levy charged to each account during the period from 1 July 1975 to 30 June 1976 shall be totalled; amounts of "floor downpayments" deducted from the proceeds of eggs consigned during that period by the entitlement holder concerned to a licensed distributor for sale shall also be totalled and, if the total of such "floor downpayments" equals or exceeds the total charged for variable levy, no variable levy shall be due; the amount by which the total of variable levy exceeds the total of "floor downpayments" shall be paid to the Authority by the entitlement holder not later than 30 September 1976; the same procedure shall apply in respect of every 2 months thereafter; provided that on the revocation of an entitlement licence any balance of variable levy payable by the holder shall be determined as at the date of revocation in accordance with the above procedure and such balance shall be paid to the Authority not later than 3 months thereafter.

Dated at Wellington this 8th day of May 1975.

M. R. K. COWDREY, General Manager,
Egg Marketing Authority.
SPECIAL ORDER

Pursuant to the provisions of the Counties Act 1956, the Thames County Council hereby resolves by way of Special Order that section 107 of the said Act (relating to the making and levying of the general rate separately in each riding) shall cease to apply to the County of Thames as from the close of the 1974–75 financial year.

The foregoing Special Order was passed at an ordinary meeting of the Thames County Council held on the 20th day of February 1975, and confirmed at an ordinary meeting duly convened of the said Council held on the 21st day of March 1975.

KILN SCHEDULES FOR NEW ZEALAND TIMBERS
By J. A. Kininmonth and D. H. Williams
New Zealand Forest Service Information Series No. 69
This 16-page booklet outlines the selection of suitable kiln schedules. The interrelationships of the variables involved in drying timber are set out, along with the requirements to be taken into consideration, such as drying time, end use of a particular species. Both low- and high-temperature drying are discussed and also special kiln treatments such as preliminary steaming, intermediate high-humidity treatment, equalising, and final conditioning.
The kiln schedules are presented in tabular form giving wet and dry bulb temperatures and final conditioning times for various species and moisture contents. Comments are attached to these schedules regarding characteristic features of the kilning of the species and the expected range of drying times.

MACHINE STRESS GRADING
(An alternative to visual grading of timber for strength)
By I. D. Whiteside
This book outlines the need for commercial machine stress grading in New Zealand.
Stress grading studies carried out by the writer in 1967 on radiata pine from Kaingaroa Forest showed that machine stress grading gave better grade recoveries over visual grading hence raised the value of a considerable proportion of the sawn output in framing sizes.
The writer firmly believes that the introduction of machine grading will help overcome the present lack of stress grades in New Zealand. This lack of availability is thought to have been a major cause of timber not being much more widely used as a structural material in competition with concrete and steel.
An informative book for builders, building inspectors, and specifiers to prepare them for the introduction of machine stress graded timber.

THE MAORI AS HE WAS
By Elsdon Best
Fifty years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952.
The text has been reproduced unchanged but the originals of some of the figures could not be traced and these have been replaced with similar illustrations.
There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees. New has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori.
This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old-time Maori life which can be extended by further reading.

MAORI STOREHOUSES AND KINDRED STRUCTURES
By Elsodd Best
As an authority on Maori culture, the author has compiled in this publication a comprehensive record on the use of the different storage structures, etc., used by the Maori in former times. By studying items pertaining to Maori technology it is hoped this will throw light upon many phases of the social life and customs hitherto unknown.

This bulletin is No. 5 in the Dominion Museum Series. 116 pages, illustrated. 1974 reprint. Price: $6.50.

METRICS FOR JOHN AND JANE CITIZEN
By James McGill. Webb
As the name implies this book is written for use by the layman rather than the technician, the engineer or the scientist. This book does not include conversion tables but rather relates to metric units and their use, comparisons of size, and includes a wide range of metric information. How big is a litre? What is a kilopascal? When will I use a centimetre? What will I buy in kilograms? Why is New Zealand going metric? If these and similar questions are causing you concern, this book will provide the answers.

As an authority on Maori culture, the author has compiled in this publication a comprehensive record on the use of the different storage structures, etc., used by the Maori in former times. By studying items pertaining to Maori technology it is hoped this will throw light upon many phases of the social life and customs hitherto unknown.

This bulletin is No. 5 in the Dominion Museum Series. 116 pages, illustrated. 1974 reprint. Price: $6.50.
