(L. and S. H.O. 1/1652; D.O. 8/3/555)

Amendment to Declaration of Infected Area Under Forest Disease Control Regulations 1967—Pine Needle Blight (Dothistroma Pini)

THE following amendment to declaration made under regulation 7 of the Forest Disease Control Regulations 1967 is hereby published in accordance with regulation 6 of the said regulations.

THE FOREST DISEASE CONTROL REGULATIONS 1967
AMENDMENT TO DECLARATION OF "INFECTED AREA" IN RESPECT OF PINE NEEDLE BLIGHT (*Dothistroma pini*)

PURSUANT to the Forest Disease Control Regulations 1967, I, Malcolm James Conway, Director-General of Forests, Wellington, hereby amend the Declaration of Infected Area in respect of the forest disease pine needle blight (*Dothistroma pini*) that came into force on the 5th day of September 1967 as published in the *Gazette* of the 21st day of September 1967, and amended firstly by an amendment that came into force on the 23rd day of November 1967, as published in the *Gazette* of the 14th day of December 1967, secondly, by an amendment that came into force on the 5th day of March 1969, as published in the *Gazette* of the 27th day of March 1969, thirdly, by an amendment that came into force on the 24th day of December 1971 as published in the *Gazette* of the 13th day of April 1972, and fourthly, by an amendment that came into force on the 30th day of August 1973, as published in the *Gazette* of the 22nd day of November 1973, as follows:

Clause 2 (c) is hereby amended by revoking subparagraph (v).

Dated at Wellington this 18th day of April 1975.

M. J. CONWAY, Director-General of Forests.

NOTES

1. This amendment comes into effect upon first publication in a newspaper circulating in the infected area constituted. Its purpose is to change the status of the Declared Infected Area in respect of *Dothistroma pini* in the Land District of Hawke's Bay (located to the east of the axial mountain ranges) such that it will be consistent with the status of other east coast districts of the North Island.

2. It is an offence to remove plants or Christmas tree material (branches, etc.) out of the "infected area", if these are of exotic pine, Douglas fir, or larch species and have not been treated as specified by an authorised forest officer.

3. The "infected area" is generally the whole of the North Island excluding the Kaitaia Borough and the Mangonui and Great Barrier Counties. In the South Island the "infected area" is all that land in Nelson and the Marlborough Sounds to the west of the Wairau Valley and the Westland Land District north of Harihari. Movement within the "infected area" is authorised with the exception that untreated exotic pine, Douglas fir, and larch material may not be moved from the areas listed in clause 2 (c) of the declaration (which is generally the large area lying between Auckland City and Wellington City west of the main mountain system running between Wellington and Cape Runaway) into other parts of the "infected area".

4. Inquiries should be addressed to the nearest Conservator of Forests.

The said amendment was published on 5, 6, and 7 May 1975 in the following newspapers:

Marlborough Express;
Gisborne Herald;
Greymouth Evening Star;
Waikato Times;
Hawke's Bay Herald-Tribune;
Southland Times;
Wairarapa Times-Age;
Daily Telegraph;
Daily News;
