

FOREST WILDLIFE

By P. MORRISON, Wildlife Service Department of Internal Affairs and L. H. HARRIS, Environment Forestry Division, New Zealand Forest Service. Illustrated by P. F. SCAIFE.

In this informative booklet there is a description of 72 of the higher forms of animal life, both native and introduced, which may be seen in New Zealand forests.

The main purpose of this booklet is to provide those people who seek recreation in forests with a guide to the wildlife they may see.

It is hoped that this will stimulate interest in forest wildlife and supply those unaware of the abundance of animals that live in New Zealand's forest.

Published jointly by:
Wildlife Service, Department of Internal Affairs,
New Zealand Forest Service.

48 pages, colour plates and drawings. 1974. Price 80c.

Translated by C. A. FLEMING

344 pages, illustrated. Price \$6.

GROWING TAMARILLOS

Agriculture Bulletin No. 307

Ministry of Agriculture and Fisheries

The tamarillo or tree tomato is a native of the Andean region of Peru. The first known record of the tamarillo in New Zealand is in the 1891-92 catalogue of D. Hay and Sons, Auckland.

The commercial production of tamarillos in this country began in a small way more than 50 years ago, but it was not until the supply of tropical fruits such as bananas, pine-apples, and citrus from overseas was restricted during World War II that any appreciable quantities were produced for marketing.

In New Zealand this fruit used to be called the tree tomato. The tree tomato officially had its name changed to "Tamarillo" in January 1967 to provide a more appealing and exotic name, especially for export promotion.

This handy little booklet supplies information on how to grow and care for tamarillo plants.

28 pages. Illustrated. Price 80c.

GLACIERS OF WESTLAND NATIONAL PARK

By W. A. SARA

A New Zealand Geological Survey Handbook—Information Series No. 75

This survey summarises the study of the glaciers of Westland's National Park. Although in this area there are about 29 secondary glaciers only brief mention is made of them. The two main ones in the park are Franz Josef and Fox Glaciers.

A comprehensive description of both main glaciers, rate of movement, fluctuation, and other relevant factors are included in this publication.

Geological and other information is set out in an interesting and easy to read form.

47 pages. Illustrated.

Price \$1.80.
