Industries Development Commission Notice No. 1976/5—General Textile Industry Reference

1. In a letter of 7 September 1976, the Minister of Trade and Industry requested the Commission to co-ordinate and co-operate with the industry in the preparation of an industry development plan for the textile industry and in so doing to

Inquire into and report on the present situation of the textile industry; the potential for the development of and the objectives for the textile industry during the next 10 years; and

Recommend strategies for development and assistance over the next 10 years.

For the purpose of the inquiry and report the textile industry is to be taken to consist of the industries making textiles—fibres, yarns and fabrics—and textile products, including clothing, and importers and distributors of textiles and textile products. The goods concerned are those classified in Section XI of the Customs Tariff of New Zealand, but when making its inquiry and report the Commission may take evidence on, and otherwise have regard to, any other material or product it considers relevant to the inquiry under reference, or exclude from its consideration any material or product it might consider not relevant to such inquiry.

During the course of this inquiry and within the general terms of this reference, the Commission may, at its discretion and on its own initiative, further this inquiry or any part thereof by such means as it thinks fit, including by one or more formal hearings or otherwise, and give such notification of its intentions as it thinks necessary.

2. The reference follows an announcement by the Minister of Trade and Industry on 27 April 1976 of his intention that the orderly and planned development of the textile industry as a whole should be considered by the Commission in conjunction with the various sectors of the industry.

3. A steering group has been set up consisting of the Chairman and members of the Commission, representatives of the textile and garment manufacturers, including the woollen mills, wholesale distributors and retailers and a senior officer of the Department of Trade and Industry. Representatives of other interests such as, for example, producer and employee organisations will also be invited to join the steering group for specific purposes from time to time. The steering group will assist in setting up working parties and providing

guidelines within which the working parties will consider the relevant aspects of their own particular sectors.

4. The various working parties and their composition will be notified in due course and all those interested will be given the opportunity to participate.

5. The Commission does not intend to hold a formal hearing until it has studied the reports of the working parties and, only then, if it is necessary to resolve conflicting opinions. The Commission's intention to hold a formal hearing will be notified in the *New Zealand Gazette* and in the principal newspapers.

Dated at Wellington this 7th day of October 1976.
