**Electrical Wiring Regulations 1961—Electric Apparatus Which May Constitute an Electrical Hazard**

Pursuant to regulation 8 of the Electrical Wiring Regulations 1961, notice is hereby given that:

1. The apparatus described below may, in my opinion, constitute an electrical hazard:
   - Description: Electric motors for industrial-type sewing machines which conflict with the requirements of subclause (2) (e) of regulation 109 of the Electrical Wiring Regulations 1961.

2. The possible electrical hazard arises from an extra-low voltage circuit tapped from the stator winding of these motors. The purpose of this circuit is to provide supply for a 6 or 12 volt light and comprises either a short lead extending from the motor or a 2 pin plug socket mounted on the motor.
3. Every person who sells or offers for sale any apparatus which in the opinion of the General Manager of the New Zealand Electricity Department constitutes or may constitute an electrical hazard commits an offence and shall be liable on summary conviction to a fine not exceeding $200.
4. All persons who have industrial type sewing machines fitted with this type of motor should arrange with the agent for the machine or an electrician to have the lead or the plug socket disconnected or removed.

**Machines Should Not Be Used Until This Modification Has Been Carried Out**

Dated at Wellington this 13th day of January 1976.
C. M. BAMBERY, Assistant General Manager, New Zealand Electricity Department.

Decision of the Indecent Publications Tribunal

Date of Hearing: 16 October 1975 at Wellington.

Mr P. E. Leloir and Mr K. G. Murray appeared on behalf of the Comptroller of Customs.

Written submissions were received on behalf of the distributors, Waverley Publishing Co. Ltd.

Decision of the Tribunal

All the books consist solely of photographs of young boys (pre-puberty upwards), mostly naked but some partly clothed. In general they consist of highly contrived and artificial poses, and clearly come within the third category of the 1968 Waverley decisions (93-103). The claim made by the distributor that several of them fall within the general category of naturist magazines is quite untenable. In the case of Boys International, some previous issues were the subject of decisions No. 618-20 (N.Z. Gazette, 15 March 1973, p. 486), that decision makes clear that the publication then included written material as well as photographs, and that the latter were naturally posed. Neither of these statements applies to the issues now before the Tribunal.

The Tribunal classifies these 10 publications as indecent. 16 December 1975.

L. M. GREIG, Chairman.

E. D. VALLANCE, Chief Accountant.
Industries Development Commission Notice No. 1976/1

INQUIRY CONCERNING PROTECTION FOR NEW ZEALAND INDUSTRY PRODUCING CERTAIN WOVEN POLYESTER AND WARP KNITTED CURTAIN AND DRESS NET FABRICS

Public Hearing

1. Following receipt by the then Minister of Trade and Industry of a report from the Emergency Protection Authority concerning temporary protection from the New Zealand industry producing certain woven polyester and warp knitted curtain and dress net fabrics, the Minister notified the Tariff and Development Board in a letter dated 3 April 1975 that the Authority had concluded that urgent action was necessary to protect the local industry and that the most suitable means of providing this protection was by way of import licensing. Government had accepted the Authority’s recommendation and the exemption from import licensing for the following had been withdrawn:

Ex Tariff items 51.04.069 Woven polyester fabrics, other than tyre cord fabrics and such fabrics when declared by a manufacturer for use by him in making neckties. 56.07.069

Ex Tariff items 60.01.028 Warp knitted curtain fabric and warp knitted dress net, other than quilted

60.01.029

60.01.049

60.01.059

On 21 April 1975 the Minister extended the decision to include goods ex Tariff items covering a half ounce weight gap in the middle of the range which was still exempt, viz: polyester fabrics of:

Ex Tariff items 51.04.038 Continuous synthetic fabrics weighing over 186 gsm but under 203 gsm

Ex Tariff items 51.06.072 Discontinuous synthetic fabrics over 186 gsm but under 203 gsm

56.07.028

56.07.029

In terms of Import Control Temporary Restriction Notice No. 3 (1975) Tariff item 51.04.069 was replaced by Tariff items 51.04.061, 51.04.062, and 51.04.068 with effect from 1 July 1975.

2. The Minister has requested the Commission to undertake an inquiry and report on what permanent form of protection, if any, it considers necessary to protect the New Zealand industry in relation to the importation of certain woven polyester and warp knitted curtain and dress net fabrics classified within the above-mentioned Tariff items.

3. For the purpose of taking evidence the Commission will hold a public hearing in the Hearing Room, Eighth Floor, Cumberland House, Upper Willis Street, Wellington, commencing on 27 April 1976 at 10.30 a.m. A consolidated list of all the goods under inquiry together with current rates of duty is appended in the Schedule to this notice.

4. Any person who intends to tender evidence should lodge, in typewritten form, 12 copies of public evidence and 10 copies of confidential evidence, to be presented under oath at the public hearing, at the Commission’s office no later than 19 March 1976. In preparing this evidence the “Notes for Information and Guidance of Interested Parties” prepared by the Tariff and Development Board may be of assistance. Copies of these notes may be obtained from the Commission’s office.

THE NEW ZEALAND GAZETTE

Licences Issued Under the Animal Remedies Act 1967 (No. 1321 Ag. 6/2/3/1)

Pursuant to sections 21 (6), 25 (4) and 25 (5) of the Animal Remedies Act 1967, the Registrar hereby gives notice that licences have been issued, renewed, or have lapsed as set out in the Schedules hereto.

Licences have been issued for animal remedies as set out in Schedule I and are subject to no conditions.

Licences have been issued for animal remedies as set out in Schedule II; subject to the conditions:

(1) That they are not sold to any person other than a veterinary surgeon, or a dealer, or otherwise than pursuant to the prescription of a veterinary surgeon.

(2) That they are not used otherwise than by or under the supervision of a veterinary surgeon.

Licences have been renewed for animal remedies as set out in Schedule III; subject to the conditions:

(1) That they are not sold to any person other than a veterinary surgeon, or a dealer, or otherwise than pursuant to the prescription of a veterinary surgeon.

(2) That they are not used otherwise than by or under the supervision of a veterinary surgeon.

Provisional licences have been issued for animal remedies as set out in Schedule IV and are subject to the conditions shown in respect of each product.

Those in Schedule V relate to a change of trade name of a licensed remedy. The licences described in Schedule VI have lapsed or been withdrawn by the licensee.

KILN SCHEDULES FOR NEW ZEALAND TIMBERS
By J. A. KININMOUTH and D. H. WILLIAMS
New Zealand Forest Service Information Series No. 69
This 16-page booklet outlines the selection of suitable kiln schedules. The interrelationships of the variables involved in drying timber are set out, along with the requirements to be taken into consideration, such as grade, thickness, width, and end use of a particular species. Both low- and high-temperature drying are discussed and also special kiln treatments such as preliminary steaming, intermediate high-humidity treatment, equalising, and final conditioning.
The kiln schedules are presented in tabular form giving wet and dry bulb temperatures and final conditioning times for various species and moisture contents. Comments are attached to these schedules regarding characteristic features of the kilning of the species and the expected range of drying times.

MACHINE STRESS GRADING
(An alternative to visual grading of timber for strength)
By I. D. Whetton
This book outlines the need for commercial machine stress grading in New Zealand.
Stress grading studies carried out by the writer in 1967 on radiata pine from Kaingaroa Forest showed that machine stress grading gave better grade recoveries over visual grading hence raised the value of a considerable proportion of the sawn output in framing sizes.
The writer firmly believes that the introduction of machine grading will help overcome the present lack of stress grades in New Zealand. This lack of availability is thought to have been a major cause of timber not being much more widely used as a structural material in competition with concrete and steel.
An informative book for builders, building inspectors, and specifiers to prepare them for the introduction of machine stress graded timber.
New Zealand Forest Service Information Series No. 66, 1974.

THE MAORI AS HE WAS
By ELSDON BEST
Fifty years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952.
The text has been reproduced unchanged but the originals of some of the figures could not be traced and these have been replaced with similar illustrations.
There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees.
No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori.
This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old-time Maori life which can be extended by further reading.

MAORI HOUSES AND FOOD STORES
By W. J. PHILIPPS
212 pages, illustrated. Price $1.80.
MAORI STOREHOUSES AND KINDRED STRUCTURES
By Elsdon Best

As an authority on Maori culture, the author has compiled in this publication a comprehensive record on the use of the different storage structures, etc., used by the Maori in former times. By studying items pertaining to Maori technology it is hoped this will throw light upon many phases of the social life and customs hitherto unknown.

This bulletin is No. 5 in the Dominion Museum Series.

MECHANICS OF THE MOTOR VEHICLE
Written and Prepared by the N.Z. Technical Correspondence Institute

This book which is in its sixth edition and now in S.I. Units, contains the operating principles of the motor vehicle.

It is favoured as the ideal book for the motor mechanic apprentice to obtain technical knowledge and preparation for the trade certificate examination.

To those interested in motor vehicle maintenance other than motor mechanics, the book is recommended as an invaluable reference.

METRICS FOR JOHN AND JANE CITIZEN
By James McGill Webb

As the name implies this book is written for use by the layman rather than the technician, the engineer or the scientist. This book does not include conversion tables but rather relates to metric units and their use, comparisons of size, and includes a wide range of metric information.

How big is a litre? What is a kilopascal? When will I use a centimetre? What will I buy in kilograms? Why is New Zealand going metric? If these and similar questions are causing you concern, this book will provide the answers.
