(ii) The annual basic charge which shall be payable in respect of all irrigable land in the proposed irrigation district shall be $30 per hectare of irrigable land.

(iii) The annual water availability charge shall be $10 per litre per second available to each property.

(iv) The basic charge and water availability charge shall be reduced during the first 6 seasons of supply to those charges set out in the Schedule hereto.

(v) The charges have been based on the estimated development and maintenance costs of the proposed scheme, and shall be subject to annual adjustment from the end of the seventh season of supply to compensate for any increase in any element of these charges from the amount previously estimated, under sections 13 and 15 of the Act, and as stated above.

(vi) The object of the scheme is to provide a reliable water supply for irrigation of land within the proposed district by a piped water supply from the Okuku River to a storage reservoir, and from this point it will be either reticulated to a holding tank on the property or supplied through a precinct valve to the property, as appropriate, to enable trickle-irrigation of established and proposed orchards, as well as limited areas of other horticultural crops.

(vii) It is estimated that the scheme is capable of providing a reliable water supply for all of the proposed district.

(viii) Supply of water is subject to the terms of the Water Right Number N/CY 730548, issued by the North Canterbury Regional scheme. This right provides for the continuous removal of 4582 cubic metres per day at a rate not exceeding 53 litres per second from the Okuku River. The right is subject to the condition that the taking of water is to be rostered by all grantees to maintain a flow of at least 160 litres per second in the Ashley River at the No. 1 State Highway bridge. This type of right is envisaged about once in 10 years on average. The water right allows an average supply of 2.25 litres per tree, continuously every hour, and on an assessed tree density of 833 trees per hectare for all of the defined irrigable area provided the water supply permits the exercising of the full right granted.

(x) The proposed scheme is to be constructed as a whole and can be brought into full operation during the 1976-77 season.

(xi) The Minister requires not less than 60% of valid votes cast in the poll, to be held under Part XI of the Public Works Act 1928, to be in favour of the proposed irrigation scheme as a prerequisite to its construction.

(xii) The minimum acreage of land occupied by any occupier that it is proposed to include in the proposed irrigation scheme shall be one hectare.

No. 854

In the matter of the Indecent Publications Act 1963, and in the matter of an application by the Comptroller of Customs for a decision in respect of the publication Oui, Volume 4, Number 10 (October 1975), published by Playboy Publications Inc., Chicago U.S.A.

Appearances: Mr P. E. Laloire and Mr K. G. Murray for Comptroller of Customs; Mr R. A. Heron for Gordon and Gotch (N.Z.) Ltd. and publisher.

**DECISION OF THE TRIBUNAL**

Five issues of this magazine have now been before the Tribunal (Decisions 745-747, 799, and 832). In decisions 745-747 the Tribunal observed "The interest in contemporary affairs is very limited and light-weight. The dominant concern in the cartoons, text ... and the illustrations, is with presenting sex for entertainment and amusement. The explicitness of some of this material, and the indulgent tone with which extreme and perverted manifestations of sexual interest are allowed for, make these issues clearly unsuitable for younger readers and marginal for adults."

In considering subsequent issues, the Tribunal has been aware of a trend toward greater emphasis upon the sexual content of the magazine.

While this issue continues the trend, it also reveals a subtle change in tone over previous issues. Indulgence has given way to prurience. Three articles in particular, contribute to this view. They are "Sex Tapes" (which constitutes a forum for readers to relate their sexual excesses), an article on telephone masturbation and sex fantasia services and a sequence of photographic illustrations depicting the seduction of a young girl by her aunt. These articles, together with other material dealing with the subject of sex, affect the overall tone of the magazine and, thus, its dominant effect is to debase and exploit sex. Those articles which are intended to be informative and serious remain light-weight and limited and, in the Tribunal's view, are included merely as camouflage to render acceptable indecent parts of the magazine. Thus, this issue of Oui fails to meet the criteria for our consideration under Section 11 of the Act.

The Tribunal classifies this magazine as indecent.

Dated this 1st day of April 1976.

LAURENCE M. GREIG, Chairman.
