THE COMPANIES ACT 1955

TRANSPORT (NELSON) HOLDINGS LIMITED, a company duly incorporated and having its registered office at Nelson, hereby gives notice of the registration in the Companies Office at Nelson, on 21 May 1976, of an Order of the Supreme Court whereof a copy follows:

No. M. 1560

In the Supreme Court of New Zealand

Nelson Registry

IN THE MATTER OF TRANSPORT (NELSON) HOLDINGS LIMITED, a company duly incorporated and having its registered office in the City of Nelson and carrying on business there as a holding company:

MONDAY, THE TENTH OF MAY 1976

BEFORE THE HONOURABLE MR JUSTICE BEATTIE

UPON reading the Notice of Motion of the above-named applicant company, dated the 3rd day of May 1976, and the affidavit of Robbie Graham Valenline Dyce, sworn and filed herein, and the exhibits therein referred to; and it appearing that the special resolution for the reduction of the share premium account of the applicant company referred to in the said motion has been duly passed, and that by order made this day in Chambers by the Honourable Mr Justice Beattie it was ordered that in the special circumstances of the case, subsection (2) of section 76 of the Companies Act 1955, should not apply to any of the creditors of the company in respect to this application and that there were no other debts, claims, or liabilities of, or affecting, the company save those in respect to which consents were exhibited to the said affidavit.

THE COURT HEREBY ORDERS:

(1) That the reduction of the company's share premium account, made by the special resolution passed at the extraordinary general meeting of the members of the company, held on the 5th day of November 1975, be confirmed. The text of the said special resolution is as follows:

"That subject to confirmation by the Supreme Court of New Zealand and to any conditions imposed by the Court the share premium account be and the same hereby reduced by the amount of $4,500,000 and that the said sum be available to the directors for distribution in cash to the holders from time to time of ordinary shares in the capital of the company. The distribution of the said amount may be effected at such times and by a series of payments of such amounts as the directors may from time to time determine subject always to the provisions of Article 137A to the holders from time to time of the ordinary shares in the capital of the company divided in proportion to the amounts paid up on the shares held by them but so that any amount so distributed shall be in substitution for and not in addition to any dividend payable out of profits which might otherwise be payable and on the condition that no amount may be distributed unless the profits available are sufficient to provide for a dividend of an equivalent amount."

(2) That the company do forthwith establish and maintain a capital replacement fund, and that it pay to the credit of that fund, upon each occasion that a distribution is made to shareholders from the amount transferred from the share premium account, an amount equal to the sum so distributed.

(3) That such capital replacement fund shall not be distributed to shareholders except with the further approval of this Honourable Court or as a distribution by way of fully paid up bonus shares.

(4) That notice of the registration hereof by the Assistant Registrar of Companies at Nelson be published once in the New Zealand Gazette within 30 days from the date of such registration.

By the Court:

T. R. TEAGUE, Registrar.

Growing Tamarillos

Agriculture Bulletin No. 307

Ministry of Agriculture and Fisheries

The tamarillo or tree tomato is a native of the Andean region of Peru. The first known record of the tamarillo in New Zealand is in the 1891-92 catalogue of D. Hay and Sons, Auckland.

The commercial production of tamarillos in this country began in a small way more than 50 years ago, but it was not until the supply of tropical fruits such as bananas, pineapples, and citrus from overseas was restricted during World War II that any appreciable quantities were produced for export. The tree tomato officially had its name changed to "Tamarillo" in January 1967 to provide a more appealing and exotic name, especially for export promotion.

This handy little booklet supplies information on how to grow and care for tamarillo plants.

Glaciers of Westland National Park

By W. A. SARA

A New Zealand Geological Survey Handbook—Information Series No. 75

This survey summarises the study of the glaciers of Westland's National Park. Although in this area there are about 29 secondary glaciers only brief mention is made of them. The two main ones in the park are Franz Josef and Fox Glaciers.

A comprehensive description of both main glaciers, rate of movement, fluctuation, and other relevant factors are included in this publication.

Geological and other information is set out in an interesting and easy to read form.

KILN SCHEDULES FOR NEW ZEALAND TIMBERS
By J. A. Kininmonth and D. H. Williams
New Zealand Forest Service Information Series No. 69
This 16-page booklet outlines the selection of suitable kiln schedules. The interrelationships of the variables involved in drying timber are set out, along with the requirements to be taken into consideration, such as grade, thickness, width, and end use of a particular species. Both low- and high-temperature drying are discussed and also special kiln treatments such as preliminary steaming, intermediate high-humidity treatment, equalising, and final conditioning.
The kiln schedules are presented in tabular form giving wet and dry bulb temperatures and final conditioning times for various species and moisture contents. Comments are attached to these schedules regarding characteristic features of the kilning of the species and the expected range of drying times.

MACHINE STRESS GRADING
(An alternative to visual grading of timber for strength)
By I. D. Whiteside
This book outlines the need for commercial machine stress grading in New Zealand.
Stress grading studies carried out by the writer in 1967 on radiata pine from Kaingaroa Forest showed that machine stress grading gave better grade recoveries over visual grading hence raised the value of a considerable proportion of the sawn output in framing sizes.
The writer firmly believes that the introduction of machine grading will help overcome the present lack of stress grades in New Zealand. This lack of availability is thought to have been a major cause of timber not being much more widely used as a structural material in competition with concrete and steel.
An informative book for builders, building inspectors, and specifiers to prepare them for the introduction of machine stress graded timber.
New Zealand Forest Service Information Series No. 66, 1974.
36 pages. Price $1.50.

THE MAN FOR THE JOB
State Services Commission
Price 30c.

MANUAL ON TRANSFUSION PROCEDURES
17 pages. Price 30c.

THE MAORI AS HE WAS
By Elsdon Best
Fifty years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952.
The text has been reproduced unchanged but the originals of some of the figures could not be traced and these have been replaced with similar illustrations.
There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees.
No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori.
This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old-time Maori life which can be extended by further reading.
The detailed studies of local geology and soil investigations have resulted in an Earthquake Microzone Map of Wellington into smaller zones and is an ideal souvenir for the overseas visitor it makes an ideal gift and also a valuable asset to anyone's home library.

NATIONAL PARKS OF NEW ZEALAND
Revised 3rd Edition

The revision of this popular publication has included numerous new colour plates and additional information on some of our parks.

Because of the popularity of this book it is expected this edition will be in great demand. In addition to the book being an ideal souvenir for the overseas visitor it makes an ideal gift and also a valuable asset to anyone's home library.

212 pages, illustrated. Price $1.80.

METRICS FOR JOHN AND JANE CITIZEN
By James McGill Webb

As the name implies this book is written for use by the layman rather than the technician, the engineer or the scientist. This book does not include conversion tables but rather relates to metric units and their use, comparisons of size, and includes a wide range of metric information.

How big is a litre? What is a kilopascal? When will I use a centimetre? What will I buy in kilograms? Why is New Zealand going metric? If these and similar questions are causing you concern, this book will provide the answers.
