GENERAL PUBLICATIONS

ADMINISTRATION IN NEW ZEALAND'S MULTI-RACIAL SOCIETY
Edited by R. H. Brookes and I. H. Kawharu

Race is a word which nowadays arouses strong feelings. In New Zealand there is little opposition in principle to the Government's policy of integration, but its success depends on the skill with which it is implemented. Series No. 13. (New Zealand Institute of Public Administration.)

ATOLL
By Grahame Keen

This secondary school bulletin describes the communal life of the islanders of Fakaofo, and illuminates the difficulties, loneliness, and hardships these people face when emigrating to New Zealand. (Department of Education.)

BALANCE OF PAYMENTS 1974-75
By Design

This report on the Balance of Payments for the year ended 31 March 1975 provides a statistical picture of New Zealand's economic transactions with the rest of the world. (Department of Statistics.)

BETWEEN GOVERNMENTS AND BANKS
By Dr Hawke

The Reserve Bank of New Zealand was established in 1933-34 but today's institution bears little resemblance to the one that was originally constructed by the 1933 legislation. The author, with a combination of historical and economic skill, covers the story and makes an assessment of the Bank's performance to date. A valuable contribution to New Zealand's historical record.

A BIBLIOGRAPHY OF PRINTED MAORI TO 1900
By Herbert W. Williams

The most important collections of Maori books and pamphlets are mentioned in this bibliography. A short review has been made of the Maori literature dealt with and an endeavour has been made to trace the history of the various mission and other private presses concerned. Any work, however small, printed wholly in Maori, or in Maori with a translation has been included; so also has any work dealing wholly with the Maori language—such as a dictionary.

BY DESIGN
By Rosslyn Noonan

A brief history of the Public Works Department (Ministry of Works from 1870-1970), its effect on the development of the country, its changing roles, and ups and downs. The
book covers the growth of New Zealand as a nation. In addition the author includes in her own narrative some fascinating stories of human interest. (Ministry of Works and Development.)

**CAR OPERATING COSTS**

"Car Operating Costs" is now available from all Government bookshops for 50c.

**CENSUS OF POPULATION AND DWELLINGS 1976**

Provisional Population and Dwellings Statistics

**CHALLENGE FOR HEALTH**

By F. S. Maclean, B.A., M.D.(Cam.), D.P.H.(N.Z.)

This book tells also of the improvements in sanitary conditions throughout the country and the attempts to improve the health of the Maori people.

**THE CHANGING VEGETATION OF MOLESWORTH STATION NEW ZEALAND 1944-1971**

Totalling 700 square miles, the broad expanse of high altitude Crown land known as Molesworth Station is the largest single farm unit in New Zealand. In 1938, after 70 years of leasehold farming the Molesworth and Tarndale runs reverted to the Crown in a badly depleted state. This is an account of the recovering of the land at Molesworth for productive farming and should prove very interesting and informative to all high country farmers.

**DIRECTIONS FOR EDUCATIONAL DEVELOPMENT**

A Report Prepared by the Advisory Council on Educational Planning
141 p. 1975. $2.50

This report marks the culmination of the activities of the Educational Development Conference. The Advisory Council has recommended the directions it considers New Zealand education should go in the next 5 or 10 years.
Five principal areas are identified as requiring attention. Education is seen as a lifelong activity, and emphasis is therefore placed on the "foundations"—early childhood education, the school curriculum and special provisions for special needs, and parent education.

Special attention is given also to the relationship between the school and the community, the need for close mutual support and co-operation, including understanding and respect for minority cultures.

A key to the quality of education is the people involved in it. Teacher education, the availability of advisory and ancillary staff, as well as resources for materials and research, have a chapter devoted to them.

Since education is seen as a lifelong activity, this is considered at some length. Facets such as accessibility, transfer of credits, and the role of existing institutions are discussed, together with ways in which continuing education could be provided for the whole community.

In discussing the administration and organisation of education the principle followed is the maximum devolution of authority and responsibility to the agencies and the community, at for instance, school committees and district level.

THE EFFECTS OF RACE AND SOCIO-ECONOMIC STATUS ON JUVENILE OFFENDING STATISTICS

31 p. 1975. $1

This report examines the extent to which the difference in European and non-European offending rates reflects variations in the socio-economic distributions of the two populations. The results indicate that, while a substantial proportion of the difference in offending rates for the two racial groups can be attributed to socio-economic factors, the larger part of this difference cannot be accounted for in this way. Both the theoretical and the practical implications of this finding are discussed. (Research Unit, Joint Committee on Young Offenders.)
