GENERAL PUBLICATIONS

MECHANICS OF THE MOTOR VEHICLE

Written and prepared by the N.Z. Technical Correspondence Institute

563 p. Reprinted 1974. \$6

This book, which is in its sixth edition and now in S. I. Units, contains the operating principles of the motor vehicle. It is favoured as the ideal book for the motor mechanic apprentice to obtain technical knowledge and preparation for the trade certificate examination. To those others interested in motor vehicle maintenance the book is recommended as an invaluable reference.

METRICS FOR JOHN AND JANE CITIZEN

By James McGill Webb

INDUSTRIAL TRAINING SERVICE—DEPARTMENT OF LABOUR

48 p. 50c

As the name implies this book is written for use by the layman rather than the technician, the engineer, or the scientist. This book does not include conversion tables but rather relates to metric units and their use, comparisons of size and includes a wide range of metric information. How big is a litre? What is a kilopascal? When will I use a centimetre? What will I buy in kilograms? Why is New Zealand going metric? If these and similar questions are causing you concern this book will provide the answers.

MICROZONING FOR EARTHQUAKES EFFECTS IN WELLINGTON, NEW ZEALAND

By T. L. Grant-Taylor, R. D. Adams, T. Hatherton, J. D. G. Milne, R. D. Northey, and W. R. Stephenson of the New Zealand Department of Scientific and Industrial Research

BULLETIN 213

61 p. \$8.50

This report on earthquake microzoning is aimed at dividing extensive areas of Wellington into smaller zones and is intended as a guide only to planning of future redevelopment. The detailed studies of local geology and soil investigations have resulted in an Earthquake Microzone Map of Wellington. This map accompanies this publication. This report is the first one of a series. Later it is the intention to microzone other areas in the same way.

NATIONAL INCOME AND EXPENDITURE 1974-75

22 p. 1976. \$1

The national accounts record the value of goods and services produced by a community in a particular period and the way in which these are used. Within the accounts the flows of production and disposal of goods and incomes are analysed in ways to provide information on the inter-relationship between industrial and institutional sections of an economy and between an economy and the rest of the world.

NATIONAL MUSEUM MONOGRAPHS

Eldson Best (1856-1931), who was a member of the staff of the then Dominion Museum from 1911 to 1931, made a notable contribution to the study of Maori ethnology. After a lifetime of experience, including many years in close contact with the Maoris of the Urewera, he spent the last 20 years of his life writing particularly of the social customs and beliefs of the Maori people. There is still a demand for the many monographs written by Eldson Best and the following titles have been reprinted without alteration to the original text (National Museum):

No. 1. Some Aspects of Maori Myth and Religion.	43 p.	\$1
No. 2. Spiritual and Mental Concepts of the Maori.	57 p.	\$1
No. 3. The Astronomical Knowledge of the Maori.	80 p.	75c
No. 4. The Maori Division of Time.	51 p.	\$1
No. 5. Polynesian Voyagers.	54 p.	\$1
No. 6. The Maori School of Learning.	31 p.	\$1
No. 7. Bibliography of Printed Maori to 1900		\$4.25
No. 8. Maori Houses and Food Stores		\$3.75
