NOTES: 1. Statement of accounting policy-The particular accounting policies adopted by the Bank which significantly affect the measurement and reporting of results and financial position on an historical cost basis are as follows:
   (a) Foreign currency translations: Overseas assets and liabilities at balance date are converted to New Zealand currency using the appropriate telegraphic transfer rates ruling at 31 March 1977.
   (b) Fixed assets and depreciation policy: The Bank's buildings at Wellington and Christchurch are depreciated over their estimated economic life on a straight line basis at the rate of 1.5% per annum. The Bank's existing building at Auckland has been fully written off whilst preliminary expenditure on a new building is reflected at cost. The cost of all land acquired has been written off in prior years. All other fixed assets are similarly treated in the year of acquisition.
   (c) Investments: Overseas investments are shown in the balance sheet at the New Zealand equivalent of foreign currency cost, NZ$34.2 million (market value at balance date NZ$31.3 million). New Zealand investments are shown at the lower of cost or market value (market value $810.2 million).
   (d) Exchange rate fluctuations: The profit or loss arising from appreciation or depreciation of the Bank's net overseas assets due to movements in the basic exchange rate is settled with Treasury in terms of section 26 of the Reserve Bank of New Zealand Act 1964. The loss in respect of the year ended 31 March 1977, subject to such settlement, was $NZ32,365,620.
   (e) Other changes in respect of an investment of 250,000 £stg 1 shares in the Commonwealth Development Finance Co. Limited, of which 50p per share is held under sterling guarantee agreement (relating to prior year) was $NZ5,354,562.

2. Contingent Liability-In respect of an investment of 250,000 £stg 1 shares in the Commonwealth Development Finance Co. Limited, of which 50p per share is held under sterling guarantee agreement (relating to prior year) was $NZ5,354,562.

ADMINISTRATION IN NEW ZEALAND'S MULTI-RACIAL SOCIETY

Edited by R. H. Brookes and I. H. Kawharu

138 p. $2

Race is a word which nowadays arouses strong feelings. In New Zealand there is little opposition in principle to the Government's policy of integration, but its success depends on the skill with which it is implemented.

Series No. 13. (New Zealand Institute of Public Administration.)

ATOLL

By Grahame Keen

47 p. 1976. 80c

This secondary school bulletin describes the communal life of the islanders of Fakaofo, and illuminates the difficulties, loneliness, and hardships these people face when emigrating to New Zealand. (Department of Education.)

BALANCE OF PAYMENTS 1974-75

31 p. 1976. $1

This report on the Balance of Payments for the year ended 31 March 1975 provides a statistical picture of New Zealand's economic transactions with the rest of the world. (Department of Statistics.)

BETWEEN GOVERNMENTS AND BANKS

By Dr Hawke

244 p. $7.50

The Reserve Bank of New Zealand was established in 1933-34 but today's institution bears little resemblance to the one that was originally constructed by the 1933 legislation. The author, with a combination of historical and economic skill, covers the story and makes an assessment of the Bank's performance to date. A valuable contribution to New Zealand's historical record.

A BIBLIOGRAPHY OF PRINTED MAORI TO 1900

By Herbert W. Williams

222 p. 1975. $4.25

The most important collections of Maori books and pamphlets are mentioned in this bibliography. A short review has been made of the Maori literature dealt with and an endeavour has been made to trace the history of the various mission and other private presses concerned. Any work, however small, printed wholly in Maori, or in Maori with a translation has been included; so also has any work dealing wholly with the Maori language—such as a dictionary.

BY DESIGN

330 p. Illustrated. 1975. $18.50

A brief history of the Public Works Department (Ministry of Works from 1870-1970), its effect on the development of the country, its changing roles, and ups and downs. The book covers the growth of New Zealand as a nation. In addition the author includes in her own narrative some fascinating stories of human interest. (Ministry of Works and Development.)

CAR OPERATING COSTS

DIRECTIONS FOR EDUCATIONAL DEVELOPMENT

A REPORT PREPARED BY THE ADVISORY COUNCIL ON EDUCATIONAL PLANNING

141 p. 1975. $2.50

This report marks the culmination of the activities of the Educational Development Conference. The Advisory Council has recommended the directions it considers New Zealand education should go in the next 5 or 10 years.

Five principal areas are identified as requiring attention.

Education is seen as a lifelong activity, and emphasis is therefore placed on the “foundations”—early childhood education, the school curriculum and special provisions for special needs, and parent education.

Special attention is given also to the relationship between the school and the community, the need for close mutual support and co-operation, including understanding and respect for minority cultures.

A key to the quality of education is the people involved in it. Teacher education, the availability of advisory and ancillary staff, as well as resources for materials and research, have a chapter devoted to them.

Since education is seen as a lifelong activity, this is considered at some length. Facets such as accessibility, transfer of credits, and the role of existing institutions are discussed, together with ways in which continuing education could be provided for the whole community.

In discussing the administration and organisation of education the principle followed is the maximum devolution of authority and responsibility to the agencies and the community, at for instance, school committee and district level.

ECONOMICS OF THE NEW ZEALAND MAORI

By Raymond Firth

519 p. 1972. $8.75

The Maori people are honourably known far outside the confines of their New Zealand home. Acknowledged to be one of the finest of the native races within the British Commonwealth they have long been celebrated for their splendid physical appearance, their proud bearing, their aristocratic spirit, their fluent oratory, and above all for their prowess in war. This book contains an account of the social and economic organisation of the Maori people before the organisation was transformed by contact with Western civilisation. It is a major scientific contribution to economic anthropology and has now become a standard work.

THE EFFECTS OF RACE AND SOCIO-ECONOMIC STATUS ON JUVENILE OFFENDING STATISTICS

This report examines the extent to which the difference in European and non-European offending rates reflects variations in the socio-economic distributions of the two populations. The results indicate that, while a substantial proportion of the difference in offending rates for the two racial groups can be attributed to socio-economic factors, the larger part of this difference cannot be accounted for in this way. Both the theoretical and the practical implications of this finding are discussed. (Research Unit, Joint Committee on Young Offenders.)
