National Roads Board—Alteration of Boundaries of Roads Council Districts

It is notified that, pursuant to the National Roads Act 1953, the National Roads Board has resolved to alter the boundaries of the roads council districts as described in the First Schedule hereto, the area comprising Port Chalmers Borough and the former Waikouaiti County and by including the said area within the roads council district described in the Second Schedule hereto.

FIRST SCHEDULE

No. 16 Roads Council District as constituted by the Main Highways Board on 16 December 1927 (New Zealand Gazette, 1928, Volume 1, p. 224).

SECOND SCHEDULE

No. 17 Roads Council District as constituted by the Main Highways Board on 16 December 1927 (New Zealand Gazette, 1928, Volume 1, p. 224).

The alteration was made by resolution duly passed at a meeting of the National Roads Board held in Wellington on 15 November 1978.

F. J. TOURELL, Secretary.
The solicitors complained that although Mr Lyle had been interviewed in Rotorua, Mr Aston was not contacted at the same time. They claimed Mr Aston had been assured of the opportunity of putting forward his version of the facts but he was not given the opportunity to do so. They alleged that the complaint in respect of the programme be dealt with independently of a defamation claim.

There was subsequent correspondence between the Corporation and the parties which culminated in a decision by the complainant to proceed with the complaint and not with the defamation action.

On 21 July 1978 the solicitors were requested to supply further evidence which was done fully in a letter dated 1 September 1978. The complaint officially lodged with the Secretary of the Corporation was two-fold. First, that the company was not given an opportunity to rebut statements made by Mr Lyle, and secondly, that the programme itself contained untruthful allegations.

On 14 September 1978 the Corporation wrote to the solicitors for Astons Ltd, and informed them as follows:

"We have now had an opportunity to consider these details and it is evident that they are of a nature that would make it extremely difficult, if not impossible, for the Corporation either to withdraw a complaint on the ground of the programme or to deal with the complaint on the basis of the evidence put forward.

The Corporation's complaints procedure is one of internal investigation. It does not provide for parties or witnesses to make evidence which would be heard and examined in public.

The nature of the facts set out in your letter of 1 September 1978 appears to require this procedure."

The Tribunal sat in Rotorua to hear the complaint and had the benefit of evidence from Mr Astons, his office manager, Mr E. T. Louisson, and his workshop foreman, Mr L. G. Fish.

Mr Desmond Monaghan, Controller of Programmes, represented the Corporation and Mr M. R. McDonald, a researcher for Fair Go, gave evidence.

It is the evidence of Mr McDonald who discussed Mr Lyle's criticisms of Astons Ltd. with Mr Aston on the telephone. But before they spoke, Gillian McGregor, reporter for the programme, had been asked to see Astons Ltd. to put any of their complaints to them. This decision led to the complainant personally and had been given the opportunity of speaking directly to Mr Fish this investigation might have been more thorough and certainly a good deal fairer. It is much less likely that there would have been confusion about whether or not Mr Aston had simply changed his mind.

We are conscious of the fact that, as Mr Monaghan told the Tribunal, decisions have been taken to drop items in the course of the broadcast of this programme. The Tribunal cannot determine at what stage such a decision could have been made in the present instance. In the circumstances there was ample time in which to have written confirmation that Television One had noted his desire not to appear on the programme and that no further steps needed to be taken to persuade him to do so.

Because we consider that confusion was genuine we cannot uphold the complaint in this respect.

It is, however, pertinent to make one or two observations. The Tribunal feels that an invitation to a representative of a firm whose reputation is at stake in a programme, is an important matter. Consideration should be given to issuing such invitations formally in writing or by telegrams so that there is no confusion about whether or not they have been dropped.

(1) the nature and extent of the matter to be dealt with on the programme, and
(2) the specific invitation to attend.

It may even be appropriate on such occasions to confirm in writing a refusal of a person to appear.

It is a practice well established in organisations such as the Corporation and in business generally to make full file notes of telephone conversations on important issues and to confirm some of them in writing to the party concerned.

As the programme was not broadcast on the 17th but on the 24th of November, the damaging allegations were not broadcast on the 17th. We do not consider that Mr Astons can plausibly say that he was refused an opportunity to appear on 17 November.

Secondly, when such a situation has occurred, and it is discovered late in the day, consideration should be given to dropping the item. In this case we were told by Mr Monaghan that a decision was made not to drop the item. We were not told whether this was because of a time factor or because the producer thought that Mr Astons had simply changed his mind.

Astons Ltd. was concerned that the suggestion was clearly made on the programme:

1. That they had been paid $95 for repairs and adjustments to the set which resulted in what they believed was good order and condition when it was not in such a condition.

2. That they had proceeded with repairs which had not been corrected by Mr Lyle.

3. That they were not competent to do the work they endeavoured to carry out.

4. That the failures in the set that occurred while it was in the possession of Mr Lyle were their fault or the fault of their employees.

They were also concerned that there had been no disclosure that they had lent Mr Lyle a black and white set for free use while his set was in their workshop and that he had refused to return it.

The dispute between Mr Lyle and Astons Ltd. is now before the Small Claims Tribunal. For that reason the decision has been made but may not be released until after the tribunal has dealt with the claims and counter-claims so that any publicity given to this decision will not prejudice those proceedings.

It is, however, to be noted that this Tribunal is not dealing with exactly the same matter. The Broadcasting Tribunal is only concerned with the way in which Mr Lyle's disputes with Astons Ltd. were portrayed on television and whether or not that portrayal was correct.

We had the benefit of Mr Lyle's giving evidence to us on some matters relating to the circumstances in which he had been shown to watch the programme. We emphasise that the Tribunal has not investigated and does not adjudicate upon his dispute with Astons Ltd.

It does appear, however, that the programme did less than justice to Astons in a number of respects. First, Mr Lyle stated on the programme that he had paid $95. In fact he handed a cheque for $95 to Astons Ltd. but stopped payment. There is a dispute whether he did this immediately or the following day—about which we are not concerned. The important point as far as the programme was concerned, was that he had never paid the $95.

Mr Lyle's giving evidence to the Tribunal before the programme without correction that he had paid his money, twice coupled with remarks about the condition of the set when he received it back.

Monaghan agrees with the Tribunal that if the producer had been aware that payment on the cheque had been stopped, a correcting or qualifying statement should have been given on the programme to that effect.

The Tribunal feels obliged to comment upon:

1. There were three matters arising out of this complaint which the Tribunal feels obliged to comment upon:
    a. That the Corporation declined to decide whether or not the programme lacked impartiality for the reason given by the complainant that the Corporation's policy regarding the retention of records relating to programmes. We had the benefit of the Corporation's policy regarding the retention of records relating to programmes. We had the benefit of the Corporation's policy regarding the retention of records relating to such a programme too early. The Corporation could finally deal with the complaint on 14 September 1978.

2. Care must be taken by this programme to ensure that personal participation in a "trial" by television is not forced upon individuals (or companies) by the fear that failure to appear in person will lead to less than adequate treatment of that side of the dispute.

There are three matters arising out of this complaint which the Tribunal feels obliged to comment upon:

1. There was 3 months delay from the time of the programme to when the complaint was received by Television One. There were further delays which were not the fault of Television One or the Corporation, before the Corporation could finally deal with the complaint.

2. The matter came before the Tribunal for hearing nearly a year after the original programme. Serious considerations for economy of time, are received.

3. Care must be taken by this programme to ensure that personal participation in a "trial" by television is not forced upon individuals (or companies) by the fear that failure to appear in person will lead to less than adequate treatment of that side of the dispute.
the manner undertaken by the Tribunal in order to make some decision about the truth of allegations of unfair treatment.

If this were so then it would be impossible for prosecuting agencies, such as the police and Government departments, to undertake enquiries to decide whether or not there has been a breach of the law.

We commend to the Corporation a policy of carrying out investigation and gathering information, albeit by interview and/or correspondence with the people concerned, and to arrive at a decision as best it can on the material gathered giving due weight to the nature of the evidence available to it.

The Corporation might find it considerably easier to deal with such matters if proper written records were retained by programmes such as Fair Go in the course of their investigations.

Membership
For the purpose of dealing with this complaint the Tribunal co-opted Mr Rufus G. Wallingford and Mr Allan P. Jesson as two persons whose qualifications or experience were likely, in the opinion of the Tribunal, to be of assistance to the Tribunal in dealing with the complaint.

Mr Wallingford and Mr Jesson took part in the proceedings and the deliberations of the Tribunal, but the decision, in accordance with the Act, is that of the permanent members.

Dated the 4th day of December 1978.

In terms of section 25 (2) of the Reserve Bank of New Zealand Act 1964, the Reserve Bank today released outer limits for rates of exchange to be used in transactions involving the conversion of New Zealand currency into foreign currencies and foreign currencies into New Zealand currency when delivery of the foreign currency dealt in will be effected by telegraphic transfer. The following range of rates, for the main currencies used by New Zealand traders in settling foreign exchange transactions, will remain in force until replaced by a new schedule issued by the Reserve Bank. These rates do not apply to transactions for settlement after the expiration of two business days (forward transactions) or to transactions in which instruments are purchased which do not entitle the buyer to foreign currency balances in the foreign centre until the instruments have been delivered at the foreign centre. In the latter case interest at foreign centre rates may be deducted from the telegraphic transfer rate to compensate the purchaser for his loss during the transit period.
